

SkyTab POS Integrates with OpenTable to Streamline Restaurant Operations & Enhance Reporting

ALLENTOWN, Pa.--(BUSINESS WIRE)-- <u>Shift4</u> (NYSE: FOUR), the leader in integrated commerce technology, and <u>OpenTable</u>, a global leader in restaurant technology, today announced an integration that allows restaurant operators to combine OpenTable's diner booking data with spending data captured at the point-of-sale by Shift4's SkyTab POS system. This integration gives restaurants a more holistic view of their business performance to make smarter decisions about how to increase revenues and reduce costs.

"Our collaboration with OpenTable provides restaurateurs an easy way to improve their top and bottom lines while learning more about their customers so that they can enhance the dining experience," said Shift4 Chief Technology Officer Mike Russo.

The Shift4OpenTable
integration allows
restaurant operators
to quickly identify
which guests are
new, regulars, or top
spenders and then
use this information
to celebrate their
most valued guests
and go the extra mile
to turn new guests

into repeat customers. In addition, real-time insights including when guests are seated and

which course they're on helps minimize wait times and improve table turnover rates.

"At OpenTable, we're always looking for ways to empower our restaurant customers, create efficiencies and streamline operations, which is why we're thrilled to integrate with Shift4," said Susan Lee, Chief Growth Officer at OpenTable. "This partnership will provide our restaurant customers with a more comprehensive business view, enabling them to make smarter business decisions."

OpenTable is now available in Shift4's Marketplace, an end-to-end ecosystem that seamlessly connects restaurants and other businesses with numerous third-party applications, including solutions for online ordering, online reservations, employee scheduling, accounting, loyalty, marketing, and more.
