SUMMARY AND REVIEW OF FINANCIAL RESULTS

(in millions, except LNG data)

	Fourth Quarter			Full Year		
	2020	2019	% Change	2020	2019	% Change
Revenues	\$ 1,997	\$ 1,908	5 %	\$6,167	\$6,838	(10)%
Net income	\$ 409	\$ 448	(9)%	\$1,183	\$1,175	1 %
Adjusted EBITDA ¹	\$ 772	\$ 766	1 %	\$2,762	\$2,507	10 %
LNG exported:						
Number of cargoes	89	95	(6)%	275	336	(18)%
Volumes (TBtu)	315	336	(6)%	971	1,192	(19)%
LNG volumes loaded (TBtu)	318	335	(5)%	974	1,190	(18)%

Net income decreased \$39 million, or 9%, during fourth quarter 2020 as compared to fourth quarter 2019, primarily due to decreased total margins² which were driven primarily by increased non-cash losses from changes in fair value of commodity derivatives, partially offset by slightly increased LNG sold including both physical and cancelled cargoes. LNG

volumes recognized in income and margins per MMBtu of LNG delivered to customers were comparable for fourth quarter 2020 and fourth quarter 2019.

Net income during full year 2020 was flat as compared to full year 2019 as a result of increased operating income offset by increased loss on modification or extinguishment of debt, increased interest expense, and decreased interest income earned on cash and cash equivalents. Operating income increased primarily due to an increase in total margins, partially offset by costs incurred in response to the COVID-19 pandemic. Total margins increased primarily due to increased LNG sold including both physical and cancelled cargoes, primarily as a result of additional Trains in operation, and higher margins per MMBtu of LNG delivered to customers, partially offset by increased non-cash losses from changes in fair value of commodity derivatives. Margins per MMBtu of LNG delivered to customers increased during full year 2020 as compared to full year 2019, due to both a higher proportion of volumes sold under higher-margin long-term contracts and an increase in margins on excess production volumes sold to our marketing affiliate.

Adjusted EBITDA² during fourth quarter 2020 increased 1% as compared to fourth quarter 2019, primarily due to the slight increase in LNG revenues as described above.

Adjusted EBITDA increased \$255 million, or 10%, during full year 2020 as compared to full year 2019, primarily due to increased LNG sold including both physical and cancelled cargoes, primarily as a result of additional Trains in operation, and higher margins per MMBtu of LNG delivered to customers as described above.

During fourth quarter and full year 2020, we recognized \$40 and \$553 million, respectively, in revenues associated with LNG cargoes cancelled by customers. LNG revenues during fourth quarter 2020 excluded \$21 million that would have been recognized during the quarter if the cargoes had been lifted, as these revenues were recognized during third quarter 2020 when cancellations were received. Excluding the impact of cargo cancellations received in prior periods for the current periods, our total revenues would have been \$2.02 and \$6.17 billion for fourth quarter and full year 2020, respectively.

The following table summarizes the timing impacts of revenue recognition related to cancelled cargoes on our revenues for fourth quarter and full year 2020 (in millions):

	Fourth Quarter 2020	Full Year 2020
Total revenues	\$ 1,997	\$ 6,167
Impact of cargo cancellations recognized in the prior period for deliveries scheduled in the current period	21	—
Total revenues excluding the timing impact of cargo cancellations	<u>\$ 2,018</u>	<u>\$ 6,167</u>

During fourth quarter and full year 2020, 89 and 275 LNG cargoes, respectively, were exported from the SPL Project and recognized in income. Additionally, during fourth quarter 2020, we recognized in income two cargoes totaling approximately 6 TBtu of LNG which were procured by Sabine Pass Liquefaction, LLC (“SPL”) from Cheniere Energy, Inc.’s Corpus Christi liquefaction facility (the “CCL Project”). During full year 2020, we recognized in income five cargoes totaling approximately 17 TBtu of LNG which were procured by SPL from the CCL Project.

KEY FINANCIAL TRANSACTIONS

In February 2021, SPL entered into a note purchase agreement with Allianz Global Investors GmbH to issue an aggregate principal amount of \$147 million of 2.95% Senior Secured Notes due 2037. The notes are expected to be issued in December 2021, and net proceeds are expected to be used to refinance a portion of SPL's outstanding Senior Secured Notes due 2022. The Senior Secured Notes due 2037 will be fully amortizing, with a weighted average life of over 10 years.

SABINE PASS LIQUEFACTION PROJECT UPDATE

As of February 19, 2021, more than 1,175 cumulative LNG cargoes totaling over 80 million tonnes of LNG have been produced, loaded, and exported from the SPL Project.

Use of Non-GAAP Financial Measures

In addition to disclosing financial results in accordance with U.S. GAAP, the accompanying news release contains a non-GAAP financial measure. Adjusted EBITDA is a non-GAAP financial measure that is used to facilitate comparisons of operating performance across periods. This non-GAAP measure should be viewed as a supplement to and not a substitute for our U.S. GAAP measures of performance and the financial results calculated in accordance with U.S. GAAP, and the reconciliation from these results should be carefully evaluated.

Forward-Looking Statements

This press release contains certain statements that may include “forward-looking statements.” All statements, other than statements of historical or present facts or conditions, included herein are “forward-looking statements.” Included among “forward-looking statements” are, among other things, (i) statements regarding Cheniere Partners’ financial and operational guidance, business strategy, plans and objectives, including the development, construction and operation of liquefaction facilities, (ii) statements regarding expectations regarding regulatory authorizations and approvals, (iii) statements expressing beliefs and expectations regarding the development of Cheniere Partners’ LNG terminal and liquefaction business, (iv) statements regarding the business operations and prospects of third parties, (v) statements regarding potential financing arrangements, (vi) statements regarding future discussions and entry into contracts, and (vii) statements regarding the COVID-19 pandemic and its impact on our business and operating results. Although Cheniere Partners believes that the expectations reflected in these forward-looking statements are reasonable, they do involve assumptions, risks and uncertainties, and these expectations may prove to be incorrect. Cheniere Partners’ actual results could differ materially from those anticipated in these forward-looking statements as a result of a variety of factors, including those discussed in Cheniere Partners’ periodic reports that are filed with and available from the Securities and Exchange Commission. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this press release. Other than as required under the securities laws, Cheniere Partners does not assume a duty to update these forward-looking statements.

Reconciliation of Non-GAAP Measures Regulation G Reconciliations

Adjusted EBITDA

The following table reconciles our Adjusted EBITDA to U.S. GAAP results for fourth quarter and full year 2020 and 2019 (in millions):

	Fourth Quarter		Full Year	
	2020	2019	2020	2019
Net income	\$ 409	\$ 448	\$ 1,183	\$ 1,175

	<u>\$ 625</u>	<u>\$ 676</u>	<u>\$ 2,125</u>	<u>\$ 2,040</u>
Income from operations				
Adjustments to reconcile income from operations to Adjusted EBITDA:				
Depreciation and amortization expense	138	137	551	527
Loss (gain) from changes in fair value of commodity derivatives, net	9	(48)	45	(67)
Impairment expense and loss on disposal of assets	—	1	5	7

Incremental costs associated with COVID-19 response	—	—	36	—
Adjusted EBITDA	<u>\$ 772</u>	<u>\$ 766</u>	<u>\$ 2,762</u>	<u>\$ 2,507</u>

Adjusted EBITDA is calculated by taking net income before interest expense, net of capitalized interest, changes in the fair value and settlement of our interest rate derivatives, taxes, depreciation and amortization, and adjusting for the effects of certain non-cash items, other non-operating income or expense items and other items not otherwise predictive or indicative of ongoing operating performance, including the effects of modification or extinguishment of debt, changes in the fair value of our commodity derivatives, impairment expense and loss on disposal of assets, and non-recurring costs related to our response to the COVID-19 outbreak which are incremental to and separable from normal operations. Adjusted EBITDA is not intended to represent cash flows from operations or net income as defined by U.S. GAAP and is not necessarily comparable to similarly titled measures reported by other companies.

We believe Adjusted EBITDA provides relevant and useful information to management, investors and other users of our financial information in evaluating the effectiveness of our operating performance in a manner that is consistent with management's evaluation of business performance. Management believes Adjusted EBITDA is widely used by investors to measure a company's operating performance without regard to items such as interest expense, taxes, depreciation and amortization which vary substantially from company to company depending on capital structure, the method by which assets were acquired and depreciation policies. Further, the exclusion of certain non-cash items, other non-operating income or expense items and other items not otherwise predictive or indicative of ongoing operating performance enables comparability to prior period performance and trend analysis.

We have not made any forecast of net income on a run rate basis, which would be the most directly comparable financial measure under GAAP, in part because net income includes the impact of derivative transactions, which cannot be determined at this time, and we are unable to reconcile differences between run rate Distributable Cash Flow and income.
