Demand vs Supply
(MSF)

■ Completions ■ Net Absorption — Market Vacancy Rate

Sources: CBRE, Prologis Research

- Balanced supply and demand in 2017 and 2018 with historical low market vacancies
- Political uncertainty impacting development cycle more so than customer demand
- Mexico City's market vacancy for Class-A product below 2.0%
- Scarcity of available modern product is driving customers to sign pre-leases on speculative supply currently under construction in Mexico City
