

Factory Protection Plan Benefits

Protecting yourself from potentially high cost repairs doesn't have to be complicated. The Capstone Factory Protection Plan (FPP) is an industry leading maintenance program designed to give you financial peace of mind by fixing the cost of scheduled and unscheduled maintenance.

- + Reduces total cost of ownership
- + Predictable maintenance costs over the life of the equipment
- + Protection against expensive unscheduled maintenance repairs
- + Minimizes downtime
- + Ensures the microturbine operates at peak performance
- + Available for all microturbine systems regardless of current run hours
- + Length of contract can be tailored based on your specific needs
- + Customizable payment plans

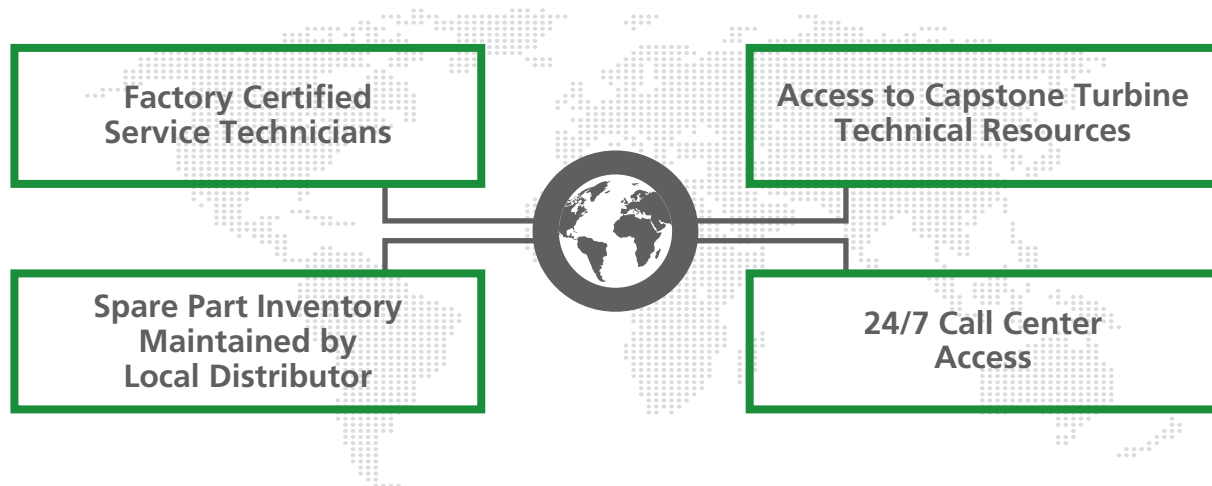

A long term FPP contract will provide predictable maintenance costs and eliminate uncertainties about unexpected expenditures.
