Perma-Fix Environmental Services Announces Results For The Second Quarter

ATLANTA, Aug. 4 /PRNewswire-FirstCall/ -- Perma-Fix Environmental Services, Inc. (Nasdaq: PESI; Boston)(Germany: PES.BE) today announced revenues of \$19.9 million for the quarter ended June 30, 2003, compared to revenues of \$22.5 million for the quarter ended June 30, 2002. Net loss for the quarter was approximately \$1.3 million or \$.04 per share as compared to a net income of \$2.8 million or \$.08 per share for the quarter ended June 30, 2002.

The decrease in revenues for the quarter ended June 30, 2003, is principally due to a decline in the nuclear segment revenues, in comparison to the same period of 2002. Nuclear segment revenues in the second quarter of 2002 included an event project of approximately \$1.8 million. Additionally, a surcharge of approximately \$2.2 million was recognized in the second quarter, which applied to the first six months of 2002. Revenues for the industrial segment increased 16 % over the second quarter of last year.

For the six months ended June 30, 2003, consolidated revenues increased to \$39.4 million from \$38.9 million for the period ended June 30, 2002. Net loss for the six months was \$1.7 million or \$.05 per share compared to net income of \$735,000 or \$.02 per share for the same period in 2002.

Dr. Louis F. Centofanti, Chairman and Chief Executive Officer, commented, "We are disappointed with our results for the quarter, however, it is important to note that the war in Iraq and prolonged terrorism alerts impacted the government's ability to ship mixed waste to our facilities. That said, we are now receiving shipments that had been delayed in the second quarter and, if mixed waste shipments are received as anticipated, we believe that we will achieve growth and profitability for the year."

Dr. Centofanti continued, "I am pleased to report that we continue to make improvements within our industrial segment operations and have implemented a new management infrastructure and business plan. In fact, revenues were up 19% over the first six months of last year. Lastly, we remain extremely enthusiastic about the emerging opportunities to treat chemical weapons byproducts."
