Perma-Fix Announces Financial Results and Provides Business Update for the First Quarter of 2014

ATLANTA, GA -- (Marketwired) -- 05/08/14 --

Perma-Fix Environmental Services, Inc. (NASDAQ: PESI) today announced results for the first quarter ended March 31, 2014.

Dr. Louis F. Centofanti, Chairman and Chief Executive Officer, stated, "As anticipated, we experienced continued weakness in the first quarter of 2014. We expect to see improved results and a further increase in revenues and cash flow during the balance of 2014 following delayed Congressional approval of the Department of Energy budget, which approval has begun to result in the federal government issuing new contracts to remediate its sites. We are now receiving preliminary notifications on contract awards that were previously delayed. Our services segment is actively bidding on a number of sizeable projects both domestically and internationally. In the meantime, we continue to streamline our organization by reducing additional operating expenses and diversifying our revenue streams. The recent award of a multi-million dollar United Kingdom contract is further evidence that our strategy is working, and we expect to announce similar contracts awards in the very near future. Lastly, we are making rapid progress on advancing our new process for the production of Technetium-99m and are actively pursuing strategic partners and financing options at the subsidiary level. We look forward to providing additional updates in the near future."

Financial Results

Revenue for the first quarter of 2014 was \$10.5 million versus \$19.8 million for the same period last year. Revenue for the Treatment Segment increased to \$7.6 million from \$7.3 million for the same period in 2013. Revenue from the Services Segment was \$2.9 million versus \$12.5 million for the same period in 2013.

Gross profit for the first quarter of 2014 was \$94,000 versus \$537,000 for the first quarter of 2013 primarily due to lower revenue and revenue mix. Gross margin decreased to 0.9% from 2.7% for the same period last year primarily due to lower revenue and revenue mix.

Operating loss for the first quarter of 2014 was \$3.5 million versus operating loss of \$4.1 million for the first quarter of 2013. Net loss attributable to common stockholders for the first quarter of 2014 was \$4.0 million or (\$0.35) per share, versus net loss of \$2.9 million or (\$0.26) per share, for the same period in 2013. Net loss attributable to common stockholders for the first quarter of 2014 included an income tax expense of \$30,000 as the

Company continued to record a full valuation allowance on its net deferred tax assets. Net loss attributable to common stockholders for the first quarter of 2013 included an income tax benefit of \$1.4 million.

The Company recorded an Adjusted EBITDA loss of \$2.3 million from continuing operations during the quarter ended March 31, 2014, as compared to Adjusted EBITDA loss of \$2.4 million for the same period of 2013. The Company defines EBITDA as earnings before interest, taxes, depreciation and amortization. EBITDA and Adjusted EBITDA are not measures of performance calculated in accordance with Generally Accepted Accounting Principles in the United States ("U.S. GAAP"), and should not be considered in isolation of, or as a substitute for, earnings as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. The Company believes the presentation of EBITDA is relevant and useful by enhancing the readers' ability to understand the Company's operating performance. The Company's management utilizes EBITDA as a means to measure performance. The Company's measurement of EBITDA may not be comparable to similarly titled measures reported by other companies. Due to the unique accounting for the recognition of fair market value of percentage of completion contracts resulting from the acquisition of SEC, the Company recognizes that EBITDA is an "Adjusted EBITDA" and understands these differences when measuring performance. The table below reconciles EBITDA and Adjusted EBITDA, both non-GAAP measures, to loss from continuing operations for the three months ended March 31, 2014 and 2013.
