# Introducing the Qualcomm Snapdragon Smart Viewer Reference Design

**- Built on Qualcomm Snapdragon XR1, the new reference design unveils enhanced features to enrich XR experiences with distributed processing**

-

SANTA CLARA, Calif., May 29, 2019 /PRNewswire/ -- Qualcomm Technologies, Inc., a subsidiary of Qualcomm Incorporated (NASDAQ: QCOM) announced at Augmented World Expo (AWE) the new Qualcomm® Snapdragon™ Smart Viewer Reference Design built on the Qualcomm® Snapdragon™ XR1 Platform. With device OEMs and technology ecosystem partners in mind, the Snapdragon Smart Viewer Reference Design is a VR form factor, built in collaboration with Goertek, designed to help decrease product development time of both AR and VR Smart Viewers.

## About Qualcomm

Qualcomm invents breakthrough technologies that transform how the world computes, connects and communicates. When we connected the phone to the Internet, the mobile revolution was born. Today, our inventions are the foundation for life-changing products, experiences, and industries. As we lead the world to 5G, we envision this next big change in cellular technology spurring a new era of intelligent, connected devices and enabling new opportunities in connected cars, remote delivery of health care services, and the IoT — including smart cities, smart homes, and wearables. Qualcomm Incorporated includes our licensing business, QTL, and the vast majority of our patent portfolio. Qualcomm Technologies, Inc., a subsidiary of Qualcomm Incorporated, operates, along with its subsidiaries, all of our engineering, research and development functions, and all of our products and services businesses, including, the QCT semiconductor business.
