FOR IMMEDIATE RELEASE

ROLLINS, INC. REPORTS SECOND QUARTER AND SIX MONTH 2022 FINANCIAL RESULTS

ATLANTA, GEORGIA, July 27, 2022: Rollins, Inc. (NYSE: ROL) (“Rollins” or the “Company”), a premier global consumer and commercial services company, reported unaudited financial results for its second quarter and six months ended June 30, 2022.

The Company recorded record second quarter 2022 revenues of $714.0 million, an increase of 11.9% over the second quarter 2021 revenues of $638.2 million, with organic revenues* increasing 8.7% to $693.6 million. The Company’s second quarter 2022 reported net income was $100.3 million or $0.20 per diluted share, compared to $98.9 million or $0.20 per diluted share for second quarter of 2021. Net income for the quarter was impacted by an increase in revenues offset by cost increases related to people, advertising, fleet, and materials and supplies. Revenues are impacted by the seasonal nature of the Company’s pest and termite control services. Our residential, commercial, and termite and ancillary services each experienced double digit revenue percentage growth. People costs and materials and supplies increased in conjunction with the increase in revenues, and fleet costs were driven by an increase in fuel costs. Advertising costs are up due to a combination of an increase in our advertising campaigns in reaction to the late arrival of spring, combined with the impact of a change in our quarterly process for estimating and accruing advertising expenses. However, we expect total advertising expense to be consistent as a percentage of revenue year over year. Adjusted net income* and adjusted earnings per diluted share* for the second quarter ended June 30, 2021 were $98.5 million and $0.20 per diluted share, respectively. The second quarter 2021 results have been adjusted to exclude the gain related to the disposition of properties received through the 2019 acquisition of Clark Pest Control of Stockton, Inc. of $0.5 million ($0.3 million, net of tax).

For the six months ended June 30, 2022, the Company’s revenues rose 11.2% to $1.305 billion compared to $1.174 billion for the prior year, with organic revenues* increasing 8.0% to $1.267 billion. The Company reported net income of $172.7 million or $0.35 per diluted share compared to $191.5 million or $0.39 per diluted share for the prior year. Net income for the six months was impacted by an increase in revenues offset by cost increases related to people, fleet, advertising, and materials and supplies. Adjusted net income* and adjusted earnings per diluted share* for the six months ended June 30, 2021 were $168.3 million and $0.34, respectively. The results for 2021 have been adjusted for the gain related to the disposition of the properties received through the 2019 acquisition of Clark Pest Control of Stockton, Inc. of $31.5 million ($23.2 million net of tax).

Gary W. Rollins, Chairman and Chief Executive Officer of Rollins stated, “We are proud of our second quarter results and believe we are well positioned for the remainder of 2022. Our employees have displayed a strong level of commitment and drive towards taking care of our customers. We are confident in our continued strategic growth and profitability moving forward.”

Rollins, Inc. is a premier global consumer and commercial services company. Through its family of leading brands, Orkin, HomeTeam Pest Defense, Clark Pest Control, Northwest Exterminating, McCall Service, Trutech, Critter Control, Western Pest Services, Wallham Services, OPC Pest Services, The Industrial Fumigant Company, PermaTreat, Crane Pest Control, Missquito, Orkin Canada, Orkin Australia, Safeguard (UK), Aardwolf Pestkare (Singapore), and more, the Company and its franchises provide essential pest control services and protection against termite damage, rodents and insects to more than 2.8 million customers in North America, South America, Europe, Asia, Africa, and Australia from more than 800 locations. You can learn more about Rollins and its subsidiaries by visiting our web site at www.rollins.com, where you can also find this and other news releases by accessing the news releases button.

*Amounts are non-GAAP financial measures. See the appendix to this release for a discussion of non-GAAP financial metrics including a reconciliation of the most closely correlated GAAP measure.
CAUTION REGARDING FORWARD-LOOKING STATEMENTS

Statements made in this press release and on our earnings call, may contain forward-looking statements that involve risks and uncertainties concerning the business and financial results of Rollins, Inc. We have based these forward-looking statements largely on our current opinions, expectations, beliefs, plans, objectives, assumptions and projections about future events and financial trends affecting the operating results and financial condition of our business. Such forward looking statements include, but are not limited to, statements regarding the Company’s expectation in connection with its advertising expense, the Company’s belief that it is well positioned for 2022 and its confidence in its strategic growth and profitability moving forward.

Our actual results could differ materially from those indicated by the forward-looking statements because of various risks, timing and uncertainties including, without limitation, the failure to maintain and enhance our brands and develop a positive client reputation; our ability to protect our intellectual property and other proprietary rights that are material to our business and our brand recognition; actions taken by our franchisees, subcontractors or vendors that may harm our business; general economic conditions; the impact of the extent and duration of economic contraction related to COVID-19 on general economic activity for the remainder of 2022 and beyond; the impact of future developments related to the COVID-19 pandemic on the Company’s business, results of operations, accounting assumptions and estimates and financial condition, including, without limitation, inflation and restrictions in customer discretionary expenditures, disruptions in credit or financial markets, increases in fuel prices, raw material costs or other operating costs; potential increases in labor costs; labor shortages and/or our inability to attract and retain skilled workers; competitive factors and pricing practices; changes in industry practices or technologies; the degree of success of our termite process reforms and pest control selling and treatment methods; our ability to identify, complete and successfully integrate potential acquisitions; unsuccessful expansion into international markets; climate change and unfavorable weather conditions; a breach of data security resulting in the unauthorized access of personal, financial, proprietary, confidential or other personal data or information about our customers, employees, third parties, or of our proprietary confidential information; damage to our brands or reputation; possibility of an adverse ruling against us in pending litigation, regulatory action or investigation; changes in various government laws and regulations, including environmental regulations; the adequacy of our insurance coverage to cover all significant risk exposures; the effectiveness of our risk management and safety program; general market risk; management’s substantial ownership interest and its impact on public stockholders and the availability of the Company’s common stock to the investing public; and the existence of certain anti-takeover provisions in our governance documents, which could make a tender offer, change in control or takeover attempt that is opposed by the Company’s Board of Directors more difficult or expensive. All of the foregoing risks and uncertainties are beyond our ability to control, and in many cases, we cannot predict the risks and uncertainties that could cause our actual results to differ materially from those indicated by the forward-looking statements. The Company does not undertake to update its forward-looking statements.

APPENDIX

Reconciliation of GAAP and non-GAAP Financial Measures

The Company has used the non-GAAP financial measures of organic revenues, adjusted net income and adjusted earnings per share (“EPS”) in this earnings release, and the non-GAAP financial measures of organic revenues by type, organic revenues in constant dollars, adjusted EBITDA, and free cash flow in today’s conference call. Organic revenue is calculated as revenue less acquisition revenue. Acquisition revenue is based on the trailing 12-month revenue of our acquired entities. These measures should not be considered in isolation or as a substitute for revenues, net income, earnings per share or other performance measures prepared in accordance with GAAP.

Management uses adjusted net income, adjusted EPS and adjusted EBITDA as measures of operating performance because these measures allow the Company to compare performance consistently over various periods without regard to the impact of the property disposition gains. Management also uses organic revenues, organic revenues by type and organic revenues in constant dollars to compare revenues over various periods excluding the impact of acquisitions and the change in foreign currency rates. Management uses free cash flow, which is calculated as net cash provided by operating activities less capital expenditures, to demonstrate the Company’s ability to maintain its asset base and generate future cash flows from operations. Management believes all of these non-GAAP financial measures are useful to provide investors with information about current trends in, and period-over-period comparisons of, the Company’s results of operations.

A non-GAAP financial measure is a numerical measure of financial performance, financial position, or cash flows that either 1) excludes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented.

Set forth below is a reconciliation of non-GAAP financial measures used in today’s earnings release and conference call with their most comparable GAAP measures.
