The Joint Corp. Reports Fourth Quarter and Full Year 2016 Financial Results

Full Year 2016 Revenue Increased 48% to \$20.5 Million Compared to Full Year 2015

The Company Added 58 Total Clinics in 2016

Ron DaVella Appointed Lead Director

SCOTTSDALE, Ariz., March 09, 2017 (GLOBE NEWSWIRE) -- The Joint Corp. (NASDAQ:JYNT), a national operator, manager and franchisor of chiropractic clinics, today reported results for the fourth quarter and full year ended December 31, 2016.

Financial Highlights

- Revenue increased 54% in the fourth quarter of 2016 to \$5.8 million, up from \$3.8 million in the prior year quarter.
- Revenue increased 48% for full year 2016 to \$20.5 million, up from \$13.8 million in 2015.
- System wide Comp Sales^[1] were 26% for the fourth quarter of 2016 and 28% for the full year 2016.
- 370 total clinics in operation as of December 31, 2016, a net increase of 16 clinics during the fourth quarter, and a net increase of 58 clinics from December 31, 2015.

"A strong fourth quarter capped a pivotal year for The Joint Corp. in which we refined our strategic objectives, significantly improved the financial profile of our business, added a net 58 new clinics in 2016, and made steady progress on key franchise and operational initiatives to position the business for future growth," said Peter D. Holt, president and chief executive officer of The Joint Corp. "Our continued strong revenue growth in 2016, as well as the robust same store sales growth for the fourth quarter and for the full year, reflect the increased consumer demand for our business."

Holt added, "The Company's momentum continues to build entering 2017. Our trailing 12-months system-wide sales crossed \$100 million in January 2017, for the first time, with January reaching our second highest system-wide sales month after November 2016, which stands as the highest system-wide sales month to date as a result of our successful Black Friday promotion."

"We have reduced our corporate overhead, put non-dilutive financing in place, and converted the Chicago area clinics from an expense to a revenue generator by transferring them to franchisees. In 2017 we remain focused on achieving profitability in our corporate clinics portfolio, projecting to open 50 to 60 new franchise clinics, and working towards achieving company-wide Adjusted EBITDA breakeven during the first half of 2017 compared to our previous expectation of the end of 2017."

Fourth Quarter 2016 Financial Results

Revenue for the fourth quarter of 2016 increased 54% to \$5.8 million from \$3.8 million in the fourth quarter of 2015 due primarily to the addition and growth of 14 company-owned or managed clinics and the net increase of 44 franchised clinics since December 31, 2015.

Cost of revenue in the fourth quarter of 2016 increased 2% compared to the fourth quarter of 2015, due to an increase in regional developer commissions related to higher gross sales from clinics in regional developer territories.

Selling and marketing expenses increased by 28% to \$1.2 million in the fourth quarter of 2016, compared to \$1.0 million in the same period last year due to increases in the national marketing program.

General and administrative expenses increased to \$8.9 million in the fourth quarter of 2016, compared to \$5.1 million in the fourth quarter of 2015. This increase includes a disposition or impairment charge of \$3.5 million

associated with the transfer and closing of clinics in Chicago and Upstate New York that the Company announced in January 2017. The balance of the \$0.3 million year over year increase was driven by occupancy expenses associated with having a greater number of clinics open in the fourth quarter of 2016 compared to the same period the prior year.

Depreciation and amortization expenses increased for the fourth quarter of 2016, compared to the prior year quarter, due to the addition of property, equipment and intangible assets in acquisitions of franchises and regional developer rights, as well as growth in the number of greenfield clinics.

Operating loss in the fourth quarter of 2016 was (\$5.7) million. Excluding the aforementioned one-time disposition or impairment charge of \$3.5 million, Adjusted Operating Loss (a Non-GAAP Measure) was (\$2.2) million, which is a \$1.3 million improvement compared to an operating loss of (\$3.5) million in the fourth quarter of 2015. Net loss in the fourth quarter of 2016 was (\$5.8) million, or (\$0.45) per share, compared to a net loss of (\$3.4) million or (\$0.31) per share in the same period the prior year. Net loss in the fourth quarter of 2016 includes the one-time impairment and disposition charge of \$3.5 million, or \$0.27 per share.

Adjusted EBITDA (a Non-GAAP measure) in the fourth quarter of 2016 was (\$1.4) million, compared to (\$2.8) million in the same quarter the prior year, (\$1.7) million in the third quarter of 2016, (\$2.0) million in the second quarter of 2016 and (\$2.7) million in the first quarter of 2016.

Full Year 2016 Financial Results

Revenue in 2016 increased 48% to \$20.5 million from \$13.8 million in 2015 due primarily to the addition and growth of 14 company-owned or managed clinics and the addition of 44 franchised clinics since December 31, 2015.

Cost of revenue in 2016 increased 4% compared to 2015 due to an increase in regional developer commissions related to higher gross sales from clinics in regional developer territories.

Selling and marketing expenses increased 55% to \$4.4 million in 2016, compared to \$2.8 million in the prior year due to increased marketing efforts at company-owned or managed clinics and from initiatives associated with the national marketing program.

General and administrative expenses increased by 58% to \$25.6 million in 2016, compared to \$16.2 million in 2015. This increase was driven by the one-time disposition or impairment charge previously mentioned, and occupancy expenses and personnel costs associated with having a greater number of clinics open in 2016 compared to 2015.

Depreciation and amortization expenses increased for the full year of 2016, compared to 2015, due to the addition of property, equipment and intangible assets in acquisitions of franchises and regional developer rights, as well as growth in the number of greenfield clinics.

Operating loss in 2016 was (\$15.0) million. Excluding the one-time disposition or impairment charge of \$3.5 million, 2016 Adjusted Operating Loss (a Non-GAAP Measure) was (\$12.8) million, which is a \$3.5 million increase compared to the loss of (\$9.3) million in 2015. Net loss in 2016 was (\$15.2) million, or (\$1.20) per share, compared to a net loss of (\$8.8) million or (\$0.88) per share in 2015. Net loss for full year 2016 includes the disposition or impairment charge of \$3.5 million, or \$0.28 per share.

Adjusted EBITDA in 2016 was (\$7.7) million, compared to (\$6.8) million in the prior year.

As of December 31, 2016, cash and cash equivalents were \$3.0 million, compared to \$16.8 million at December 31, 2015 and \$3.4 million at September 30, 2016.

Effective March 7, 2017, existing board member Ron DaVella was promoted to Lead Director of The Joint Corp. He has served as a director since the initial public offering and currently serves as the Chief Financial Officer for Amazing Group, Inc. Before that he was an audit partner with Deloitte & Touche LLP. DaVella succeeds Rich Kerley who has stepped down as Lead Director due to a family loss in 2016, but will remain on the Company's board of directors.

2017 Financial Guidance

For full year 2017, The Joint Corp. is providing guidance for total revenues and Adjusted EBITDA as set forth below:

- Total revenues in the range of \$22 million to \$24 million.
- Adjusted EBITDA in the range of \$(1.5) million to \$(0.5) million.
- Net new franchise clinic openings in the range of 50 to 60.

The passcode for the replay is 64205478.

Non-GAAP Financial Information

This earnings release includes a presentation of EBITDA, Adjusted EBITDA and Adjusted Operating Loss, which are non-GAAP financial measures. These are presented because they are important measures used by management to assess financial performance, as management believes they provide a more transparent view of the Company's underlying operating performance and operating trends. Reconciliations of net loss to EBITDA and Adjusted EBITDA are presented within the tables below. Operating loss is reconciled to Adjusted Operating Loss by eliminating the one-time charge for disposition or impairment of \$3.5 million. The Company defines Adjusted EBITDA as EBITDA before acquisition-related expenses, bargain purchase gain, loss on disposition or impairment, and stock-based compensation expenses. The Company defines EBITDA as net income (loss) before net interest, taxes, depreciation, and amortization expenses.

EBITDA, Adjusted EBITDA and Adjusted Operating Loss do not represent and should not be considered alternatives to net income or cash flows from operations, as determined by accounting principles generally accepted in the United States, or GAAP. While EBITDA, Adjusted EBITDA and Adjusted Operating Loss are used as measures of financial performance and the ability to meet debt service requirements, they are not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the methods of calculation. EBITDA, Adjusted EBITDA and Adjusted Operating Loss should be reviewed in conjunction with the Company's financial statements filed with the SEC.

Forward-Looking Statements

This press release contains statements about future events and expectations that constitute forward-looking statements. Forward-looking statements are based on our beliefs, assumptions and expectations of industry trends, our future financial and operating performance and our growth plans, taking into account the information currently available to us. These statements are not statements of historical fact. Forward-looking statements involve risks and uncertainties that may cause our actual results to differ materially from the expectations of future results we express or imply in any forward-looking statements and you should not place undue reliance on such statements. Factors that could contribute to these differences include, but are not limited to, our failure to develop or acquire corporate clinics as rapidly as we intend, our failure to profitably operate corporate clinics, and the factors described in "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the SEC. Words such as, "anticipates," "believes," "continues," "estimates," "expects," "goal," "objectives," "intends," "may," "opportunity," "plans," "potential," "near-term," "long-term," "projections," "assumptions," "projects," "guidance," "forecasts," "outlook," "target," "trends," "should," "could," "would," "will," and similar expressions are intended to identify such forward-looking statements. We qualify any forward-looking statements entirely by these cautionary factors. We assume no obligation to update or revise any forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.
