Non-GAAP Measures

The unaudited adjusted results should not be construed as an alternative to the reported results determined in accordance with GAAP. These financial measures are not based on any standardized methodology and are not necessarily comparable to similar measures presented by other companies. The Company believes that these non-GAAP financial measures provide useful information to both management and investors to increase comparability to prior periods by adjusting for certain items that may not be indicative of core operating measures and to better identify trends in our business. The adjusted financial results are used by management to, and allow investors to, evaluate the operating performance of the Company compared to prior periods, when reviewed in conjunction with the Company's GAAP statements. These amounts are not determined in accordance with GAAP and therefore should not be used exclusively in evaluating the Company's business and operations.
