

Equifax Releases Second Quarter 2021 Results

ATLANTA, July 21, 2021 /PRNewswire/ -- Equifax Inc. (NYSE: EFX) today announced financial results for the guarter ended June 30, 2021.

- Highest ever quarterly revenue of \$1.2 billion, up 26%; sixth consecutive quarter of double-digit revenue growth and EPS growth
- Broad-based revenue growth with Workforce Solutions up 40%, USIS up 11%, and International up 39% in reported currency and 25% in local currency
- Continued progress on EFX Cloud data and technology transformation
- Delivered 46 new products leveraging EFX Cloud
- Executing EFX2023 strategic framework leveraging EFX Cloud for innovation, new products and growth
- Increasing full-year revenue and EPS guidance

"We continued our strong financial performance with our sixth consecutive quarter of strong double-digit revenue growth and EPS growth, building on our strong first quarter and 2020 results. Our record \$1.235 billion revenue and 26% overall revenue growth was powered by broad-based growth from Workforce Solutions, USIS, and International. Workforce Solutions continues to drive our results, with revenue growth of 40% in the quarter despite a decline in the mortgage market from last year's elevated levels," said Mark W. Begor, Equifax Chief Executive Officer. "We are continuing to execute on our EFX2023 growth strategy, leveraging the EFX Cloud to drive innovation, new product roll-outs and growth, while expanding our differentiated data sets and decisioning power to bring new and unique solutions to our customers that only Equifax can deliver. Our strong outperformance, balance sheet, and cash generation is allowing us to reinvest in the EFX Cloud and bolt-on acquisitions to enhance our capabilities. We are confident in our outlook for 2021 and are again raising our full-year financial guidance, reflecting this to a range of \$4,760 million to \$4,800 million, and our Adjusted EPS guidance to a range of \$7.25 to \$7.45."

Financial Results Summary

The company reported revenue of \$1,234.8 million in the second quarter of 2021, up 26 percent compared to the second quarter of 2020 on a reported basis and 23 percent on a local currency basis.

Net income attributable to Equifax of \$215.1 million was up 115 percent in the second quarter of 2021 compared to net income attributable to Equifax of \$100.2 million in the second quarter of 2020.

About Equifax

At Equifax (NYSE: EFX), we believe knowledge drives progress. As a global data, analytics, and technology company, we play an essential role in the global economy by helping financial institutions, companies, employers, and government agencies make critical decisions with greater confidence. Our unique blend of differentiated data, analytics, and cloud technology drives insights to power decisions to move people forward. Headquartered in Atlanta and supported by more than 11,000 employees worldwide, Equifax operates or has investments in 24 countries in North America, Central and South America, Europe, and the Asia Pacific region. For more information, visit Equifax.com.

Earnings Conference Call and Audio Webcast

In conjunction with this release, Equifax will host a conference call on July 22, 2021 at 8:30 a.m. (ET) via a live audio webcast. To access the webcast and related presentation materials, go to the Investor Relations section of our website at www.equifax.com. The discussion will be available via replay at the same site shortly after the conclusion of the webcast. This press release is also available at that website.

Non-GAAP Financial Measures

This earnings release presents adjusted EPS attributable to Equifax which is diluted EPS attributable to Equifax adjusted (to the extent noted above for different periods) for acquisition-related amortization expense, costs related to the 2017 cybersecurity incident

(these costs are comprised of legal fees for 2021, and legal fees and incremental costs to transformation our information technology infrastructure and data security for 2020), fair value adjustment of equity investments, foreign currency impact of certain intercompany loans, acquisition-related costs other than acquisition amortization, income tax effect of stock awards recognized upon vesting or settlement, Argentina highly inflationary foreign currency adjustment and income tax effects of Q1 2020 gain on fair market value adjustment of equity investment. All adjustments are net of tax, with a reconciling item with the aggregated tax impact of the adjustments. This earnings release also presents adjusted EBITDA and adjusted EBITDA margin which is defined as consolidated net income attributable to Equifax plus net interest expense, income taxes, depreciation and amortization, and also excludes certain one-time items. These are important financial measures for Equifax but are not financial measures as defined by GAAP.

These non-GAAP financial measures should be reviewed in conjunction with the relevant GAAP financial measures and are not presented as an alternative measure of net income or EPS as determined in accordance with GAAP.

Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures and related notes are presented in the Q&A. This information can also be found under "Investor Relations/Financial Information/Non-GAAP Financial Measures" on our website at www.equifax.com.

Forward-Looking Statements

This release contains forward-looking statements and forward-looking information. These statements can be identified by expressions of belief, expectation or intention, as well as statements that are not historical fact. These statements are based on certain factors and assumptions including with respect to foreign exchange rates, expected growth, results of operations, performance, the outcome of legal proceedings, business prospects and opportunities and effective tax rates. While the Company believes these factors and assumptions to be reasonable based on information currently available, they may prove to be incorrect.

Several factors could cause actual results to differ materially from those expressed or implied in the forward-looking statements, including, but not limited to, actions taken by us, including restructuring or strategic initiatives (including our technology, data and security cloud transformation, capital investments and asset acquisitions or dispositions), as well as developments beyond our control, including, but not limited to, the impact of COVID-19 and changes in U.S. and worldwide economic conditions that materially impact consumer spending, consumer debt and employment and the demand for Equifax's products and services. The extent to which the COVID-19 pandemic could negatively impact our operations will depend on future developments which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, new information which may emerge concerning the severity of the COVID-19 pandemic, the actions taken to control the spread of COVID-19 or treat its impact, and changes in U.S. and worldwide economic conditions. Further deteriorations in economic conditions, as a result of COVID-19 or otherwise, could lead to a further or prolonged decline in demand for our products and services and negatively impact our business. It may also impact financial markets and corporate credit markets which could adversely impact our access to financing or the terms of any financing. We cannot at this time predict the extent of the impact of the COVID-19

pandemic and resulting economic impact, but it could have a material adverse effect on our business, financial position, results of operations and cash flows. Other risk factors include the impact of our technology and security transformation and improvements in our information technology and data security infrastructure; changes in tax regulations; adverse or uncertain economic conditions and changes in credit and financial markets; uncertainties regarding the ultimate amount and timing of payments for the legal proceedings and government investigations related to the 2017 cybersecurity incident; potential adverse developments in new and pending legal proceedings or government investigations; risks associated with our ability to comply with business practice commitments and similar obligations under settlement agreements and consent orders entered into in connection with the 2017 cybersecurity incident; economic, political and other risks associated with international sales and operations; risks relating to unauthorized access to data or breaches of confidential information due to criminal conduct, attacks by hackers, employee or insider malfeasance and/or human error; changes in, and the effects of, laws and regulations and government policies governing or affecting our business, including, without limitation, our examination and supervision by the Consumer Financial Protection Bureau, a federal agency that holds primary responsibility for the regulation of consumer protection with respect to financial products and services in the U.S., oversight by the U.K. Financial Conduct Authority and Information Commissioner's Office of our debt collections services and core credit reporting businesses in the U.K., oversight by the Office of Australian Information Commission, the Australian Competition and Consumer Commission and other regulatory entities of our credit reporting business in Australia and the impact of current privacy laws and regulations, including the European General Data Protection Regulation and the California Consumer Privacy Act, or any future privacy laws and regulations; federal or state responses to identity theft concerns; our ability to successfully develop and market new products and services, respond to pricing and other competitive pressures, complete and integrate acquisitions and other investments and achieve targeted cost efficiencies; timing and amount of capital expenditures; changes in capital markets and corresponding effects on the Company's investments and benefit plan obligations; foreign currency exchange rates and earnings repatriation limitations; and the decisions of taxing authorities which could affect our effective tax rates. A summary of additional risks and uncertainties can be found in our Annual Report on Form 10-K for the year ended December 31, 2020 including without limitation under the captions "Item 1. Business -- Governmental Regulation" and "-- Forward-Looking Statements" and "Item 1A. Risk Factors," and in our other filings with the U.S. Securities and Exchange Commission. Forward-looking statements are given only as at the date of this release and the Company disclaims any obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Canada	47.1	33.1	14.0	42 %	26 %	26 %
Total International	250.9	180.5	70.4	39 %	25 %	25 %
Global Consumer Solutions	82.4	83.8	(1.4)	(2) %	(3) %	(3) %
Total operating revenue	\$ 1,234.8	\$ 982.8	\$ 252.0	26 %	23 %	20 %

(1) Local currency revenue change is calculated by conforming 2021 results using 2020 exchange rates.

2. What are the costs related to the technology transformation?

Costs related to the technology transformation are defined as incremental costs to transform our information technology infrastructure and data security. From January 1, 2018 through December 31, 2020, these technology transformation costs were excluded from adjusted net income and adjusted EBITDA. Beginning in the first quarter of 2021, technology transformation costs were included in our adjusted net income and adjusted EBITDA. Technology transformation costs for the second quarter of 2021 are being provided for comparability to prior periods. We recorded \$37.8 million for the second quarter of 2021 and \$85.2 million for the second quarter of 2020 for technology transformation costs.

3. What is the estimate of the change in overall U.S. Mortgage Market transaction volume that is included in the 2021 third quarter and full year guidance provided?

Equifax estimates the change year over year in overall U.S. Mortgage Market transaction volume as being equal to the change in total U.S. mortgage credit inquiries received by Equifax. The change year over year in total U.S. mortgage credit inquiries received by Equifax in the first quarter of 2021 was an increase of 21% and the second quarter of 2021 was a decline of 5%. The guidance provided on page 3 assumes a change year over year in total U.S. mortgage credit inquiries received by Equifax in the third quarter of 2021 to be a decline of approximately 23% and for the full year 2021 to be a decline of approximately 8%. These percentages provided are rounded to the nearest whole number.

Reconciliations of Non-GAAP Financial Measures to the Comparable GAAP Financial Measures (Unaudited)

(Dollars in millions, except per share amounts)

A. Reconciliation of net income attributable to Equifax to diluted EPS attributable to Equifax, defined as net income adjusted for acquisition-related amortization expense,

⁽²⁾ Organic local currency revenue growth is defined as local currency revenue growth, adjusted to reflect an increase in prior year Equifax revenue from the revenue of acquired companies in the prior year period. This adjustment is made for 12 months following the acquisition.

costs related to the 2017 cybersecurity incident, fair value adjustment of equity investments, foreign currency impact of certain intercompany loans, acquisition-related costs other than acquisition amortization, income tax effect of stock awards recognized upon vesting or settlement, Argentina highly inflationary foreign currency adjustment, income tax effects of Q1 2020 gain on fair market value adjustment of equity investment and income tax adjustments:

- nm not meaningful
- (1) During the second quarter of 2021, we recorded acquisition-related amortization expense of certain acquired intangibles of \$40.1 million (\$33.8 million, net of tax). We calculate this financial measure by excluding the impact of acquisition-related amortization expense and including a benefit to reflect the significant cash income tax savings resulting from the income tax deductibility of amortization for certain acquired intangibles. The \$6.3 million of tax is comprised of \$10.3 million of tax expense net of \$4.0 million of a cash income tax benefit. During the second quarter of 2020, we recorded acquisition-related amortization expense of certain acquired intangibles of \$34.8 million (\$29.7 million, net of tax). The \$5.1 million of tax is comprised of \$9.1 million of tax expense net of \$4.0 million of a cash income tax benefit. See the Notes to this reconciliation for additional detail.
- (2) During the second quarter of 2021, we recorded a net benefit for legal fees net of recoveries related to the 2017 cybersecurity incident of \$1.1 million (\$0.8 million, net of tax). During the second quarter of 2020, we recorded pre-tax expenses related to the 2017 cybersecurity incident of \$87.3 million (\$63.4 million, net of tax). \$85.2 million of these expenses related to incremental costs to transform our information technology infrastructure and data security and the remaining \$2.1 million related to 2017 cybersecurity incident legal fees. \$87.6 million of cybersecurity incident related costs were recorded in operating income, with a \$0.3 million reduction to depreciation and amortization expense. See the Notes to this reconciliation for additional detail.
- (3) During the second quarter of 2021, we recorded an unrealized loss on the fair market value adjustment of an equity investment of \$5.6 million (\$3.5 million, net of tax). This fair value adjustment was recorded to Other income (expense), net line item within the Consolidated Statements of Income. See the Notes to this reconciliation for additional details.
- (4) During the second quarter of 2021, we recorded foreign currency gains on certain intercompany loans of \$2.7 million. During the second quarter of 2020, we recorded foreign currency losses on certain intercompany loans of \$10.3 million. The impact was recorded to the Other income (expense), net line item within the Consolidated Statements of Income. See the Notes to this reconciliation for additional detail.
- (5) During the second quarter of 2021, we recorded \$0.9 million (\$0.7 million, net of tax) for acquisition costs other than acquisition-related amortization. These costs primarily related to transaction costs resulting from the acquisition and were recorded in operating income. See the Notes to this reconciliation for additional detail.
- (6) During the second quarter of 2021, we recorded a tax benefit of \$4.6 million related to the tax effects of deductions for stock compensation in excess of amounts recorded for compensation costs. During the second quarter of 2020, we recorded a tax benefit of \$0.9 million related to the tax effects of deductions for stock compensation expense in excess of amounts recorded for compensation costs. See the Notes to this reconciliation for additional detail.
- (7) Argentina experienced multiple periods of increasing inflation rates, devaluation of the peso, and increasing borrowing rates. As such, Argentina was deemed a highly inflationary economy by accounting policymakers. During the second quarter of 2021 and second quarter of 2020, we recorded foreign currency losses of \$0.1 million and \$0.2 million, respectively, related to the impact of remeasuring the peso denominated monetary assets and liabilities as a result of Argentina being a highly inflationary economy. See the Notes to this reconciliation for additional detail.
- (8) During the second quarter of 2020, we recorded income tax effects of the Q1 2020 gain on fair market value adjustment of equity investment of \$2.4 million. See the Notes to this reconciliation for additional detail.
- (9) During the second quarter of 2021, we recorded the tax impact of adjustments of \$8.3 million comprised of (i) acquisition-related amortization expense of certain acquired intangibles of \$6.3 million (\$10.3 million of tax expense net of \$4.0 million of cash income tax benefit), (ii) an adjustment of \$0.3 million for legal fees net of recoveries related to the 2017 cybersecurity incident which resulted in a net benefit for the quarter, (iii) a tax adjustment of \$2.1 million related to the loss on fair market value adjustment of equity investments and (iv) a tax adjustment of \$0.2 million related to acquisition costs other than acquisition-related amortization.
 - During the second quarter of 2020, we recorded the tax impact of adjustments of \$29.0 million comprised of (i) acquisition-related amortization expense of certain acquired intangibles of \$5.1 million (\$9.1 million of tax expense net of \$4.0 million of cash income tax benefit) and (ii) a tax adjustment of \$23.9 million related to expenses for the 2017 cybersecurity incident.
- B. Reconciliation of net income attributable to Equifax to adjusted EBITDA, defined as net income excluding income taxes, interest expense, net, depreciation and amortization expense, costs related to the 2017 cybersecurity incident, fair value adjustment of equity investments, foreign currency impact of certain intercompany loans, acquisition-related costs other than acquisition amortization and Argentina highly inflationary foreign currency adjustment, and presentation of adjusted EBITDA margin:

During the second quarter of 2020, we recorded pre-tax expenses, excluding depreciation and amortization, related to the 2017 cybersecurity incident of \$87.6 million, a \$10.3 million foreign currency impact of certain intercompany loans, and a foreign currency loss of \$0.2 million related to the impact of remeasuring the peso denominated monetary assets and liabilities as a result of Argentina being a highly inflationary economy.

Notes to Reconciliations of Non-GAAP Financial Measures to the Comparable GAAP Financial Measures

Diluted EPS attributable to Equifax is adjusted for the following items:

Acquisition-related amortization expense - We calculate this financial measure by excluding the impact of acquisition-related amortization expense and including a benefit to reflect the material cash income tax savings resulting from the income tax deductibility of amortization for certain acquired intangibles. These financial measures are not prepared in conformity with GAAP. Management believes excluding the impact of amortization expense is useful because excluding acquisition-related amortization, and other items that are not

⁽¹⁾ During the second quarter of 2021, we recorded a \$1.1 million net benefit related to legal fees net of recoveries related to the 2017 cybersecurity incident, a \$5.6 million unrealized loss on the fair value adjustment of an equity investment, a \$2.7 million positive foreign currency impact of certain intercompany loans, \$0.9 million in acquisition costs other than acquisition-related amortization, and a foreign currency loss of \$0.1 million related to the impact of remeasuring the peso denominated monetary assets and liabilities as a result of Argentina being a highly inflationary economy.

comparable allows investors to evaluate our performance for different periods on a more comparable basis. Certain acquired intangibles result in material cash income tax savings which are not reflected in earnings. Management believes that including a benefit to reflect the cash income tax savings is useful as it allows investors to better value Equifax. Management makes these adjustments to earnings when measuring profitability, evaluating performance trends, setting performance objectives and calculating our return on invested capital.

Costs related to the 2017 cybersecurity incident- Costs related to the 2017 cybersecurity incident include legal fees to respond to subsequent litigation and government investigations. Through the year ended December 31, 2020, these costs also included incremental costs to transform our information technology, data security and infrastructure. During the second quarters of 2021 and 2020, we recorded a net benefit of \$1.1 million (\$0.8 million, net of tax) and expense of \$87.3 million (\$63.4 million, net of tax), respectively. Management believes excluding these charges is useful as it allows investors to evaluate our performance for different periods on a more comparable basis. Management makes these adjustments to net income when measuring profitability, evaluating performance trends, setting performance objectives and calculating our return on invested capital. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods. Costs related to the 2017 cybersecurity incident do not include losses accrued for certain legal proceedings and government investigations related to the 2017 cybersecurity incident.

Fair market value adjustment of equity investments- During the second quarter of 2021, we recorded a \$5.6 million (\$3.5 million, net of tax) unrealized loss related to adjusting our investment in Brazil to fair value. The investment had previously been recorded on our books at cost less impairment, as it did not have a readily determinable fair value. Subsequent to the initial public offering, our investment in Brazil has been adjusted to fair value, and will continue to be adjusted to fair value at the end of each reporting period, with unrealized gains or losses to be recorded within the Consolidated Statements of Income in Other income (expense), net. Management believes excluding these charges from certain financial results provides meaningful supplemental information regarding our financial results for the three months ended June 30, 2021, since the non-operating gains or losses are not comparable among the periods. This is consistent with how our management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Foreign currency impact of certain intercompany loans - During the second quarter of 2021, we recorded a \$2.7 million gain related to foreign currency impact of certain intercompany loans. Management believes excluding this charge is useful as it allows investors to evaluate our performance for different periods on a more comparable basis. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Acquisition related costs for transaction expenses incurred as a direct result of the acquisition - During the second quarter of 2021, we recorded \$0.9 million (\$0.7 million, net of tax) for acquisition costs other than acquisition-related amortization. These costs primarily related to transaction costs resulting from the acquisition and were recorded in operating income. Management believes excluding this charge from certain financial results provides

meaningful supplemental information regarding our financial results, since a charge of such an amount is not comparable among the periods. This is consistent with how our management reviews and assesses Equifax's historical performance and is useful when planning, forecasting, and analyzing future periods.

Income tax effects of stock awards that are recognized upon vesting or settlement-During the second quarter of 2021, we recorded a tax benefit of \$4.6 million related to the tax effects of deductions for stock compensation in excess of amounts recorded for compensation costs. During the second quarter of 2020, we recorded a tax benefit of \$0.9 million related to the tax effects of deductions for stock compensation expense in excess of amounts recorded for compensation costs. Management believes excluding this tax effect from financial results provides meaningful supplemental information regarding our financial results for the three months ended June 30, 2021 and 2020 because these amounts are non-operating and relate to income tax benefits or deficiencies for stock awards recognized when tax amounts differ from recognized stock compensation cost. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Argentina highly inflationary foreign currency adjustment - Argentina experienced multiple periods of increasing inflation rates, devaluation of the peso, and increasing borrowing rates. As such, Argentina was deemed a highly inflationary economy by accounting policymakers. We recorded foreign currency losses of \$0.1 million during the second quarter of 2021 and \$0.2 million during the second quarter of 2020 as a result of remeasuring the peso denominated monetary assets and liabilities due to Argentina being highly inflationary. Management believes excluding these charges are useful as it allows investors to evaluate our performance for different periods on a more comparable basis. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Income tax effects of Q1 2020 gain on fair market value adjustment of equity investment - During the first quarter of 2020, we recorded a gain related to adjusting our equity method investment in India, in conjunction with the purchase of the remaining interest of our joint venture. Prior to the purchase of the remaining interest, Equifax did not have control over the joint venture. As a result of the transaction, Equifax recognized a gain related to the remeasurement of the preexisting equity interest in the India joint venture at the acquisition-date fair value of the business combination. Additional income tax effects related to this transaction were recorded in the second quarter of 2020. Management believes excluding this gain and related income tax effects from certain financial results provides meaningful supplemental information regarding our financial results for the three months ended June 30, 2020, since the non-operating gain is not comparable among the periods. This is consistent with how our management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Adjusted EBITDA and EBITDA margin - Management defines adjusted EBITDA as consolidated net income attributable to Equifax plus net interest expense, income taxes, depreciation and amortization, and also excludes certain one-time items. Management believes the use of adjusted EBITDA and adjusted EBITDA margin allows investors to evaluate our performance for different periods on a more comparable basis.
