## **LHC Group Announces Second Quarter 2014 Results**

### **Raises Lower End of Full-Year 2014 Guidance for Fully Diluted Earnings Per Share to a New Range of \$1.25 to \$1.35 from \$1.15 to \$1.35 Previously**

LAFAYETTE, La., Aug. 6, 2014 (GLOBE NEWSWIRE) -- LHC Group, Inc. (Nasdaq:LHCG), a national provider of home health, hospice and comprehensive post-acute healthcare services, today announced its financial results for the three months and six months ended June 30, 2014.

#### **Financial Results for the Second Quarter**

- Net service revenue for the second quarter of 2014 was \$188.9 million, compared with \$166.3 million for the same period in 2013.
- Net income attributable to LHC Group for the second quarter of 2014 was \$6.1 million, compared with \$5.8 million for the same period in 2013.
- Diluted earnings per share was \$0.35 for the second quarter of 2014, compared with \$0.34 for the same period in 2013.

Commenting on the results, Keith G. Myers, LHC Group's chairman and CEO, said, "We are very pleased with our financial performance during the second quarter of 2014 and with our continued ability to execute our long-term growth strategy. Over the last 18 months, we have executed 10 transactions, including the recently announced definitive asset purchase agreement with Life Care Home Health, Inc. that is anticipated to close on September 1. These transactions, with a total purchase price of \$101.5 million in cash, consisted of 81 locations in 21 states and represented \$151.1 million in aggregate trailing twelve month revenues at the time of acquisition. As we look ahead to the remainder of 2014 and beyond, we are well positioned to continue increasing shareholder value by focusing on growing revenue and improving efficiencies in our existing locations, while capitalizing on opportunities to expand our geographical footprint in home health, hospice and community-based services. I would like to congratulate and thank our entire team for their unwavering commitment to excellence and for consistently delivering the highest quality of care to the growing number of patients, families and communities we serve."

#### **Financial Results for the Six Months**

- Net service revenue for the six months ended June 30, 2014, was \$352.5 million,

compared with \$328.3 million for the same period in 2013.

- Net income attributable to LHC Group for the six months ended June 30, 2014, was \$10.1 million, compared with \$12.1 million for the same period in 2013.
- Diluted earnings per share was \$0.59 for the six months ended June 30, 2014, compared with \$0.71 for the same period in 2013.

## Guidance

The Company is raising its full-year 2014 guidance for net service revenue, which was issued on March 5, 2014, in the range of \$700 million to \$720 million, to a range of \$720 million to \$730 million. The Company is also raising the lower end of its range for fully diluted earnings per share from \$1.15 to \$1.35 to a range of \$1.25 to \$1.35. This guidance includes the negative impact from the Medicare Home Health Prospective Payment System for 2014 and the positive impact of the recently closed acquisition of the home health, hospice and community-based services operations of Deaconess HomeCare and Elk Valley Health Services. This guidance does not take into account the impact from LHC Group's recently announced pending acquisition of the assets of Life Care Home Health, Inc., other future reimbursement changes, if any, future acquisitions or share repurchases, if made, *de novo* locations, if opened, or future legal expenses, if necessary.

(1) The Centers for Medicare and Medicaid Services (CMS) updated the Medicare Home Health Prospective Payment System effective January 1, 2014, which reduced the average case-mix weight for 2014 from 1.3464 to 1.0000. To offset the effect of resetting the case mix average to 1.000, CMS upwardly adjusted the national, standardized 60-day episode payment rate by the same factor that it used to decrease the weights from \$2,137.73 in 2013 to \$2,869.27 in 2014.

(2) Organic growth is calculated as the sum of same store plus *de novo* for the period divided by total from the same period in the prior year.
