UiPath Celebrates the 2020 Automation Champions within its EMEA Partner Ecosystem

Automation leaders from channel organizations recognized for their drive to promote joint customer success through innovation, training, and enablement

LONDON--(BUSINESS WIRE)-- Leading enterprise [Robotic Process Automation](#) ([RPA](#)) software company, UiPath, today announced automation champions from organizations within the channel partner ecosystem across the EMEA region who stood out through their outstanding achievements in the past year. These automation ambassadors have shown leadership, limitless appetite for driving innovation and breaking new ground, and a strong commitment to enabling joint customers to make the best of the opportunities offered by the latest functions of the [UiPath Automation Platform](#).

UiPath has recently launched the latest version of its end-to-end automation platform featuring new low-code capabilities that enable users to leverage RPA to go beyond automating existing tasks and easily create business applications that solve real-life business problems. These features, made available through expanded cloud robot deployment capabilities, enable customers to deploy enterprise automation solutions on premises and across multiple public clouds with the same ease. By being fast adopters and championing the new capabilities through training and enablement, partners are supporting customers along their digital transformation journeys and fostering collaborations between people and software robots.

"The strength of the UiPath partner ecosystem and its ability to react fast to changing customer needs have been crucial in our response strategy designed to support organizations everywhere maintain business continuity throughout a challenging year," said Renzo Taal, Senior Vice President and Managing Director EMEA. "We welcome the contribution of automation champions within partner organizations throughout the EMEA who have passionately supported the adoption by customers of the latest capabilities of the UiPath Automation Platform, such as process mining, test suite and document understanding, paving the way for their becoming a fully automated enterprise™."

2020 EMEA Automation Champions

- **Eric Pourrat, RPA Practice Leader - Inetum (France).**Inetum implemented an ambitious migration program at a large French insurance company amid very tight regulatory deadlines and successfully achieved the migration of 265,000 contracts using 165 UiPath robots.
