## **Car Charging Group, Inc. Announces Partnership With Salesconx**

### **Relationship Provides Distribution Channel for Network of Electric Car Charging Stations**

MIAMI BEACH, Fla., April 27, 2010 (GLOBE NEWSWIRE) -- Car Charging Group, Inc. (OTCBB:CCGI), a company dedicated to a clean and sustainable environment through the development of an Electric Vehicle (EV) charging infrastructure that will be compatible with all electric vehicles, today announced it has contracted with Salesconx, a nationwide network of sales and business professionals, to recruit and deploy a national sales channel of experienced and highly qualified representatives who will focus on Car Charging Group's business of owning, providing and servicing electric car charging stations.

Salesconx provides Car Charging with the ability to economically and expeditiously deploy a qualified sales force, providing a distribution channel for reaching decision makers at designated parking areas of public and private property, such as multi-family residential and commercial buildings, parking garages, municipalities, sporting venues and other convenient charging locations.

"With applications currently being taken for the Nissan Leaf, Chevy Volt, the Fisker Karma, and the Tesla Roadster for delivery in 2010, it is only a matter of time before drivers make the transition from gasoline-powered vehicles to electric vehicles," said Andy Kinard, President of Car Charging Group. "The arrival of electric vehicles requires the construction of a network of geographically dispersed charging stations that will provide ready access to electricity and alleviate consumers' 'range anxiety' fears. Our partnership with Salesconx better prepares us to develop the necessary EV charging infrastructure to aid the process."

#### **About Car Charging Group, Inc.**

Car Charging Group, Inc. is an owner and provider of electric vehicle (EV) charging stations with the mission to build-out a nationwide infrastructure, enabling EV and PHEV owners to charge their EVs anytime, anywhere. As part of its strategy, the Company owns, provides, installs and maintains electric vehicle charging units and works with its landowner partners to identify appropriate locations for its charging stations. The Company seeks to provide convenient, safe and affordable charging stations away from home in customer-friendly public locations, including municipalities, shopping malls and parking garages.

An estimated 40 million plug-in electric vehicles, such as the Nissan Leaf, GM Chevy Volt,

Fisker Karma, Tesla Model S as well as many others, are expected to be on the road by 2030. Car Charging Group and other companies in the EV industry like ECOtality and Better Place realize the need to establish charging station networks throughout the transportation infrastructure to provide easy access to energy everywhere drivers live and work. By investing at the forefront of the electric car revolution, Car Charging Group seeks to become the leading provider of electric car charging stations. The Company has launched its service in the South Florida market and is expanding its operations both nationally and internationally.

Car Charging Group, Inc. is based in Miami, Florida. The Company's website can be viewed at [www.carcharging.com](http://www.carcharging.com).
