CarCharging(TM) Now Provides Electric Vehicle Charging Services at Station Square in Pittsburgh, PA

CarCharging and Forest City Continues to Expand Partnership by Adding New Amenity to Pittsburgh's Premier Dining & Entertainment Destination

MIAMI BEACH, FL -- (MARKETWIRE) -- 11/29/12 -- Car Charging Group, Inc. (OTCQB: CCGI) ("CarCharging"), a nationwide provider of convenient electric vehicle (EV) charging services, through its partnership with Forest City Enterprises, Inc., now provides EV charging services at Station Square in Pittsburgh, Pennsylvania. Station Square is Pittsburgh's premier dining and entertainment destination, and is located at 125 West Station Square Drive.

Station Square is a thriving office, shopping, dining, and entertainment complex that includes over 30 shops, restaurants, cafes, and a full service hotel, The Sheraton at Station Square. Station Square is also home to the Gateway Clipper Fleet, which provides seasonal tours of the area's waterways and shuttle services to events on Pittsburgh's North Shore. Station Square has multiple parking facilities, including a 1200 parking space garage, and boasts over 3500 total parking spaces. CarCharging's EV charging services are available on the first level of the parking garage on Station Square Drive.

"Given that the Station Square was once home to the Pittsburgh & Lake Erie Railroad, we are thrilled to add such a modern and 'green' amenity to the property," said Michael D. Farkas, CEO of CarCharging. "With its retail, dining, and hotel options, we are proud to expand our partnership with Forest City by offering our services to their customers."

"Adding EV charging services to Square Station is another example of our commitment to customer service," said Rocco Miller, General Manager at Station Square. "We look forward to continuing to enhance Station Square's amenities for our customers."

CarCharging's services utilize EV charging stations manufactured by ChargePoint®, known as Level II, which provide 240 volts with 32 amps of power to quickly recharge an electric vehicle's battery. EV drivers can easily request a CarCharging card online, and attach the small card to their keychain to initiate use and payment at any intelligent CarCharging station. The CarCharging RFID card also allows drivers to use charging locations on the ChargePoint® Network, the largest national online network connecting EV drivers to EV charging stations. CarCharging also accepts direct payment via credit card.

Users can pinpoint EV charging station locations using the CarCharging map at <http://www.CarCharging.com/>. The ChargePoint® mobile application for the iPhone, Android, and BlackBerry phones also provides real-time charging station location information with turn-by-turn directions. Drivers will soon be able to reserve a time slot, guaranteeing access to EV charging stations to recharge their EV.

About Car Charging Group, Inc.

Car Charging Group, Inc. (OTCQB: CCGI) is a pioneer in nationwide public EV charging services, enabling drivers to easily recharge anytime, anywhere throughout the United States.
