

CarCharging to Provide Electric Vehicle Charging Station Details Through BMW's ConnectedDrive In-Vehicle Navigation System and the BMW i Remote App

BMW i Drivers to Access Real Time Information for Blink's Public EV Charging Stations Including Location and Availability

MIAMI BEACH, Fla., May 19, 2014 /PRNewswire/ -- Car Charging Group, Inc. (OTCQB: CCGI) ("CarCharging"), a nationwide provider of electric vehicle (EV) charging services, and BMW of North America LLC ("BMW") announced that they have entered into a data licensing agreement. CarCharging will provide detailed station information for all public EV charging stations available on the Blink Network directly to BMW drivers through BMW's ConnectedDrive in-vehicle navigation system and the BMW i Remote mobile app.

BMW i drivers can locate the nearest public EV charging station and view real time use status. Through the CarCharging and BMW agreement, ConnectedDrive will now include this information for all of the public EV charging stations currently on the <u>Blink Network</u>, as well as additional EV charging stations owned and operated by CarCharging.

"We are proud to support BMW to include real time information for our EV charging stations through BMW's ConnectedDrive navigation system," said Michael D. Farkas, Chief Executive Officer of CarCharging. "Just as we witnessed the transition of cellular phones from limited analog functions, such as texting and voicemail, to the enhanced digital functionality of today's smartphones, providing BMW i drivers with direct access to station details from their EV or mobile device serves as evidence of the digitization of the automobile."

Users can learn more about charging their electric cars at public EV charging stations and at home at www.BlinkNetwork.com. Driver can also pinpoint additional EV charging station locations using the map at www.CarCharging.com.

About Car Charging Group, Inc.

Car Charging Group, Inc. (OTCQB: CCGI) is a pioneer in nationwide public electric vehicle (EV) charging services, enabling EV drivers to easily recharge at locations throughout the United States. Headquartered in Miami Beach, FL with offices in San Jose, CA; New York, NY; and Phoenix, AZ; CarCharging's business model is designed to accelerate the adoption of public EV charging.

CarCharging offers various options to commercial and residential property owners for EV charging services. Our typical business model provides a comprehensive turnkey program where CarCharging owns and operates the EV charging equipment; manages the installation, maintenance, and related services; and shares a portion of the EV charging revenue with the property owner. Alternatively, property partners can share in the equipment and installation expenses with CarCharging operating and managing the EV charging stations and providing network connectivity. For properties interested in purchasing and owning EV charging stations, CarCharging can also provide EV charging hardware, site recommendations, connection to the Blink Network, and management and maintenance services.

Through its subsidiary, <u>Blink Network</u>, CarCharging also provides residential EV charging solutions for single-family homes. For more information, please visit <u>www.BlinkHQ.com</u>.

CarCharging has strategic partnerships across multiple business sectors including multifamily residential and commercial properties, parking garages, shopping malls, retail parking, and municipalities. CarCharging's partners include, but are not limited to Walgreens, IKEA, Wal-Mart, Simon Property Group, Equity One, Equity Residential, Forest City, Cinemark USA, Fox Studios, Facebook, Kimpton Hotels and Restaurants, Mayo Clinic, San Diego Padres, University of Pennsylvania, Ace Parking, Central/USA Parking, Icon Parking, Rapid Parking, Parking Concepts, CVS, Related Management, Pennsylvania Turnpike Commission, Pennsylvania Department of Environmental Protection, City of Phoenix (AZ), City of Philadelphia (PA), and City of Miami Beach (FL).

CarCharging is committed to creating a robust, feature-rich network for EV charging and is hardware agnostic. CarCharging owns the Blink network, and owns and operates EV charging equipment manufactured by Blink, Aerovironment, ChargePoint, General Electric, Nissan, and SemaConnect. CarCharging's Level II charging stations are compatible with EVs sold in the United States including the Tesla Model S, Nissan LEAF, Chevy Volt, Mitsubishi i-Miev, Toyota Prius Plug-In, Honda Fit EV, and Toyota Rav4 EV, as well as many others scheduled for release over the next few years.
