InterEnergy Purchases an additional 100 Level 2 and 50 DCFC Blink Charging Stations to Expand its EV Infrastructure Footprint

This follow-on order brings 575 Blink Chargers to the Caribbean, Central and South America

Miami Beach, FL, Feb. 25, 2021 (GLOBE NEWSWIRE) -- Blink Charging Co. (Nasdaq: BLNK, BLNKW) ("Blink" or the "Company"), a leading owner, operator, and provider of electric vehicle (EV) charging equipment and services, today announced that it had received a follow-on order from the InterEnergy Group for 150 fast-charging stations, including 100 Blink IQ 200 units and 50 DCFC units, to be deployed across the Dominican Republic.

Valued at approximately \$1.0 million, this order marks the fourth-order Blink has received from InterEnergy and the third agreement between the two companies to deploy EV equipment in the Dominican Republic. Blink also recently announced an initial order from InterEnergy for the deployment of charging stations in Panama as part of InterEnergy's expansion plans for its EV charging network, EverGo, in that country. To date, InterEnergy has purchased a total of 575 Blink Level 2 and DCFC charging stations, representing more than \$4.3 million in purchase orders.

As pioneers in the build-out of EV charging infrastructure for the Caribbean, Central, and South America, InterEnergy aims to deploy more than 500 charging stations throughout the Dominican Republic and Panama by the end of 2021.

"We're proud to be the sole provider of EV charging equipment in the Dominican Republic and play a vital role in providing state-of-the-art charging alternatives to the island's residents. Our partnership with InterEnergy, is bringing fast and convenient EV charging infrastructure to the region, supporting the growing use of electric vehicles in the Dominican Republic," commented Blink Founder and CEO Michael D. Farkas.

InterEnergy provides energy solutions to more than 66% of the national tourism sector in the Dominican Republic. Installation locations for Blink's charging stations will include high-traffic locations such as hotels and resorts, shopping centers, and gas stations.

"The people of the Dominican Republic are embracing sustainable mobility, and we are excited to work with Blink to facilitate increased access to a sophisticated, largest-of-its-kind network of electric vehicle charging stations to serve the country's needs. We look forward to continuing to work with Blink to expand services to more residents across Latin America and

the Caribbean,” commented Roberto Herrera, country manager in the Dominican Republic of InterEnergy Group.

Blink’s IQ 200 units are the fastest level 2 AC charging stations available on the market, have a maximum output of 80 amps, and deliver up to 65 miles of charge in an hour. The Blink IQ 200 chargers have been well received by leading EV industry experts, making them the preferred level 2 option for destination charging.

About Blink Charging

Blink Charging Co. (Nasdaq: BLNK, BLNKW) is a leader in electric vehicle (EV) charging equipment and has deployed over 23,000 charging stations, many of which are networked EV charging stations, enabling EV drivers to easily charge at any of the Company’s charging locations worldwide. Blink Charging’s principal line of products and services include its Blink EV charging network (“Blink Network”), EV charging equipment, and EV charging services. The Blink Network uses proprietary, cloud-based software that operates, maintains, and tracks the EV charging stations connected to the network and the associated charging data. With global EV purchases forecasted to rise to 10 million vehicles by 2025 from approximately 2 million in 2019, the Company has established key strategic partnerships for rolling out adoption across numerous location types, including parking facilities, multifamily residences and condos, workplace locations, health care/medical facilities, schools and universities, airports, auto dealers, hotels, mixed-use municipal locations, parks and recreation areas, religious institutions, restaurants, retailers, stadiums, supermarkets, and transportation hubs. About InterEnergy Group

For three decades, InterEnergy has powered people and cities across the Caribbean and Latin America – providing reliable, cost-effective and clean energy to the Dominican Republic, Panama, Jamaica, and Chile.

Its generation portfolio aggregates approximately 1,250MW of installed capacity across the region. It is also the exclusive supplier of electricity to the fast-growing tourism resort area of Punta Cana-Bavaro, representing more than 66% tourism sector in the country.

As a pioneer in renewable energy, InterEnergy developed the first wind farms in the Dominican Republic, the largest wind farm in Central America, and several solar power projects throughout the region. By supplying over 320 MW of renewable energy generation throughout the region, InterEnergy eliminates hundreds of thousands of tons of CO2 emissions per year.
