Blink Charging Teams Up with Amerit Fleet Solutions to Provide Preventative Maintenance Support for Blink Commercial Fleet Customers

Agreement will deliver additional maintenance services for commercial fleets electric vehicle charging infrastructure to help keep electric fleets operating and on the road.

Miami Beach, Fla., May 05, 2023 (GLOBE NEWSWIRE) -- [Blink Charging Co.](#) (NASDAQ: BLNK) ("Blink"), a leading global manufacturer, owner, operator and provider of electric vehicle (EV) charging equipment and services, and Amerit Fleet Solutions ("Amerit"), a provider of customized nationwide fleet maintenance and repair programs, today announced a cooperative agreement for Amerit to provide on-site preventative maintenance support for Blink's growing fleet customers.

The agreement allows Blink customers to tap into Amerit's expertise to provide on-site preventative care and service on Blink's state-of-the-art fleet charging stations, helping to increase uptime, safety, and reliability and keep electric fleets on the road.

"Thanks to significant advances in EV battery technology, and more government mandates to lower vehicle emissions, the growth of electric fleet vehicles is steadily climbing, requiring unique needs in servicing charging infrastructure," said Michael Battaglia, Chief Revenue Officer at Blink Charging. "The agreement with Amerit ensures Blink is provided the best in EV charger maintenance to keep electric fleet vehicles charged and operational, a key component to total cost of ownership."

Amerit is a nationwide leader in maintenance and repair services for charging hardware. Amerit's EV Anywhere program provides the highest quality maintenance and repair services on location by leveraging their nationwide footprint of over 1700 trained technicians across the country. As fleets are transitioning to electric vehicles and installing Blink Charging equipment, Amerit's team is able to provide mobile support and service, as well as ongoing preventative maintenance on the Blink Charging infrastructure.

"Blink is a leader in electric vehicle charging equipment, and we're looking forward to supporting their customers by offering service programs across the US," said Amerit's CEO Dan Williams. "With trained and certified technicians spread across the country, Amerit stands ready to rapidly scale services to Blink customers."

As part of its service, Amerit will provide quarterly, bi-annual, or annual checks, to ensure

Blink's fleet charging stations are clean, functioning, and report any damage that may have occurred. Amerit is the first point of contact physically to the charger if there should be a need to report any warranty or serviceability issues.

"Amerit Fleet has been a leader in vehicle uptime and maintenance, and we applaud them for expanding their offerings to meet the demands of the growing EV market, and offer a full solution for electrified fleets," added Amy Dobrikova, VP Fleet Solutions at Blink Charging.

###

About Blink Charging

Blink Charging Co. (Nasdaq: BLNK), a leader in electric vehicle (EV) charging equipment, has deployed nearly 66,000 charging ports across 27 countries, many of which are networked EV charging stations, enabling EV drivers to easily charge at any of Blink's charging locations worldwide. Blink's principal line of products and services includes the Blink EV charging network ("Blink Network"), EV charging equipment, EV charging services, and the products and services of recent acquisitions, including SemaConnect, Blue Corner and BlueLA. The Blink Network uses proprietary, cloud-based software that operates, maintains, and tracks the EV charging stations connected to the network and the associated charging data. With global EV purchases forecasted to half of passenger cars sold in the US by 2030, Blink has established key strategic partnerships for rolling out adoption across numerous location types, including parking facilities, multifamily residences and condos, workplace locations, health care/medical facilities, schools and universities, airports, auto dealers, hotels, mixed-use municipal locations, parks and recreation areas, religious institutions, restaurants, retailers, stadiums, supermarkets, and transportation hubs.
