About Babylon

Babylon is one of the world’s fastest growing digital healthcare companies whose mission is to make high-quality healthcare accessible and affordable for every person on Earth.

Babylon is re-engineering how people engage with their care at every step of the healthcare continuum. By flipping the model from reactive sick care to proactive healthcare through the devices people already own, it offers 24 million people globally ongoing, always-on care. Babylon has already shown that in environments as diverse as the developed UK or developing Rwanda, urban New York or rural Missouri, for people of all ages, it is possible to achieve its mission by leveraging its highly scalable, digital-first platform combined with high quality, virtual clinical operations to provide integrated, personalized healthcare.

Founded in 2013, Babylon’s technology and clinical services is supporting a global patient network across 15 countries, with 15 languages available. And through a combination of its value-based care model, Babylon 360, and its work in primary care through NHS GP at Hand, Babylon will manage approximately 440k lives globally in Q1 2022. In the first half of 2021 alone, Babylon helped a patient every 5 seconds, with approximately 1.7 million AI interactions and 1.3 million consultations. Importantly, this was achieved with more than a 95% user retention rate and 5 star rating from circa 90% of our users.

Babylon is already working with governments, health providers, employers and insurers across the globe in order to provide them with a new infrastructure that any partner can use to deliver high-quality healthcare with lower costs and better outcomes.
