In addition, holders whose Notes are validly tendered pursuant to the Offers (and not validly withdrawn) prior to the Expiration Time and accepted for purchase will receive accrued and unpaid interest from the last interest payment date to, but not including, the Settlement Date (as defined in the Offer to Purchase) for the applicable Notes. Holders of the Notes are urged to read the Offer Documents carefully before making any decision with respect to the Offers.

The applicable “Tender Offer Consideration” for each \$1,000 principal amount of Notes validly tendered pursuant to the Offers (and not validly withdrawn) prior to the Expiration Time and accepted for purchase will be determined in the manner described in the Offer Documents by reference to the applicable fixed spread for such Notes specified in the table above plus the yield based on the bid-side price of the applicable U.S. Treasury Reference Security specified in the table above at 11:00 a.m., New York City time, on May 6, 2022, unless extended.

To the extent that all of the outstanding Notes are not tendered and purchased in the Offers, the Company may, but is not obligated to, use a portion of any remaining net proceeds from the offering of new senior notes to redeem all or a portion of the remaining Notes.
