(1) Consideration per \$1,000 principal amount of Existing Notes validly tendered, subject to any rounding as described herein.

(2) The term "New Notes" in this column refers, in each case, to the series of New Notes corresponding to the series of Existing Notes of like tenor and coupon.

(3) Includes the Early Participation Premium for Existing Notes validly tendered prior to the Early Consent Date described below and not validly withdrawn.

In connection with the exchange offers, BD is also soliciting consents from holders of the Existing Notes to amend (the "Proposed Amendments") the indentures governing the Existing Notes to (i) eliminate substantially all of the restrictive covenants in the indentures, (ii) eliminate an event of default, and (iii) permit the public filings of BD to satisfy the reporting obligations under the indentures. If the Proposed Amendments are adopted, the Existing Notes will be governed by the amended indentures, which will have less restrictive terms and afford reduced protections to the holders of those securities compared to those currently in the indentures or those applicable to the New Notes. In particular, holders of the Existing Notes under the amended indentures will no longer receive annual, quarterly and other reports from CareFusion, and will no longer be entitled to the benefits of various covenants, one event of default provision and other provisions in the indentures and certain other provisions.

The exchange offers and consent solicitations (together, the "Exchange Offers") will commence on March 26, 2015 and expire at 11:59 p.m., New York City time, on April 22, 2015, unless extended or terminated (the "Expiration Date"). In exchange for each \$1,000 principal amount of the Existing Notes that is validly tendered prior to 5:00 p.m., New York City time, on April 8, 2015 (the "Early Consent Date") and not validly withdrawn, holders will receive the total

exchange consideration set out in the table above (the "Total Consideration"), which consists of \$1,000 principal amount of the New Notes and a cash amount of \$2.50. The Total Consideration includes the early participation premium set out in the table above (the "Early Participation Premium"), which consists of \$30 principal amount of New Notes. In exchange for each \$1,000 principal amount of the Existing Notes that is validly tendered after the Early Consent Date but prior to the Expiration Date and not validly withdrawn, holders will receive only the exchange consideration set out in the table above (the "Exchange Consideration"), which is equal to the Total Consideration less the Early Participation Premium and so consists of \$970 principal amount of the New Notes and a cash amount of \$2.50.

Each New Note will accrue interest at the same annual interest rate, have the same interest payment dates, same redemption terms and same maturity date as the Existing Note for which it is exchanged. The New Notes will be senior unsecured obligations of BD and will rank equally in right of payment with all other existing and future senior indebtedness of BD. The New Notes will be effectively subordinated in right of payment to all of BD's existing and future secured indebtedness (to the extent of the value of the collateral securing such indebtedness) and structurally subordinated to all obligations of BD's subsidiaries with respect to the assets of such subsidiaries, other than any subsidiaries that may guarantee the New Notes in the future.
