WOODCLIFF LAKE, N. J. , Nov. 08, 2022 (GLOBE NEWSWIRE) -- [Powerfleet, Inc.](#) (**Nasdaq: PWFL**), a global leader of Internet of Things (IoT) Software-as-a-Service (SaaS) solutions that optimize the performance of mobile assets and resources to unify business operations, reported results for the third quarter ended September 30, 2022.

Third Quarter 2022 Financial Highlights

- Total revenue was \$34.3 million, an increase of 17% year-over-year.
- High margin, recurring and services revenue increased 10% to \$20.3 million, or 59% of total revenue.
- Product gross margin increased to 30% compared to Q2 2022, reflecting the success of the company's initiatives to effectively manage supply chain headwinds, purchase price variance challenges and reengineering of certain products to enhance margins. Q3 2022 product gross margin increased 78% compared to Q1 2022.
- Loss from operations improved to \$(1.2) million, compared to \$(1.6) million in Q2 2022 and \$(2.4) million in the same year-ago period.
- Strong liquidity position with \$17.0 million in cash and cash equivalents and working capital of \$36.7 million at quarter-end.
- 653,000 total subscribers on the platform at quarter-end, up from 642,000 subscribers at the end of the prior quarter.

Management Commentary

"Our transformation remains ahead of schedule," said Steve Towe, Powerfleet CEO. "Despite the difficult market conditions, excellent execution in the third quarter enabled us to deliver 17% revenue growth, 20% gross profit growth and solid adjusted EBITDA profitability. In fact, Q3 marked the fourth consecutive quarter of year-over-year revenue growth for our company. Our rationalization initiatives are enhancing our organization's efficiency and profitability, producing a 23% sequential improvement in loss from operations and a 68% improvement in loss from operations compared to Q1 2022. Our success in this area and the

pace at which we are driving operational improvements have positioned us well to cross over to profitability on an operating basis in the first half of next year.

“We are encouraged by the speed and tangible delivery of our transformation strategy throughout 2022 and expect to deliver greater business success in 2023 and beyond. The enhanced leadership team has brought in a strong execution focus, making accelerated and consistent headway enhancing organizational efficiencies and driving our SaaS transformation. Our transformation is enabling us to refocus the company’s core go-to-market strategy, realize the benefits from fully integrating acquired companies and combining our extensive technology capabilities, all of which we believe will translate to sustainable, high-quality topline growth with expanding profitability and positive cash flow.”

Third Quarter 2022 Financial Results

Total revenue increased 17% to \$34.3 million from \$29.2 million in the same year-ago period.

Non-GAAP Financial Measures

To supplement its financial statements presented in accordance with Generally Accepted Accounting Principles (GAAP), Powerfleet provides certain non-GAAP measures of financial performance. These non-GAAP measures include non-GAAP net income (loss), non-GAAP net income (loss) per basic and diluted share and adjusted EBITDA. Reference to these non-GAAP measures should be considered in addition to results prepared under current accounting standards, but are not a substitute for, or superior to, GAAP results. These non-GAAP measures are provided to enhance investors’ overall understanding of Powerfleet’s current financial performance. Specifically, Powerfleet believes the non-GAAP measures provide useful information to both management and investors by excluding certain expenses, gains and losses that may not be indicative of its core operating results and business outlook. These non-GAAP measures are not measures of financial performance or liquidity under GAAP and, accordingly, should not be considered as an alternate to net income or cash flow from operating activities as an indicator of operating performance or liquidity. Because Powerfleet’s method for calculating the non-GAAP measures may differ from other companies’ methods, the non-GAAP measures may not be comparable to similarly titled measures reported by other companies. Reconciliation of all non-GAAP measures included in this press release to the nearest GAAP measures can be found in the financial tables included in this press release.
