Liberty Media Corporation Reports First Quarter 2014 Financial Results

ENGLEWOOD, Colo.--(BUSINESS WIRE)-- Liberty Media Corporation ("Liberty Media") (Nasdaq: LMCA, LMCB) today reported first quarter 2014 results. Highlights include⁽¹⁾:

- Today announced:
 - Plan to distribute via dividend two shares of Series C non-voting common stock ("LMCK") for each share of LMCA and LMCB
 - Plan to spin-off Liberty Broadband Group into a new publicly-traded company called Liberty Broadband
 - Purchase of 897 thousand Charter shares for \$124.5 million, resulting in 26.4% beneficial ownership of Charter's equity
- SiriusXM reported strong Q1 results
 - Subscriber base grew to 25.8 million
 - Revenue of \$998 million, up 11% from the first quarter of 2013
 - Adjusted EBITDA⁽²⁾ grew 28% to \$335 million
 - Net income of \$94 million
 - Repurchased 158 million shares through April 25, including shares from Liberty Media
 - Issued \$1.5 billion of 6% Senior Notes due 2024 on May 6, 2014
- Completed sale of last two tranches to SiriusXM of its shares for \$340 million at \$3.66 per share in April
- Charter announced agreements with Comcast, which will make Charter the second largest US cable company; separately reported strong operating results
- Live Nation reported solid results across all lines of business; announced Live Nation Channel on Yahoo to debut this summer
- Completed sale of 90% of Liberty Media's stake in Barnes & Noble in April

"Since we last reported, Liberty Media has been busy. In April, we completed the sale of \$340 million of our SiriusXM shares back to SiriusXM and also sold 90% of our stake in Barnes & Noble. Today, we announced our plan to distribute non-voting Series C shares of Liberty Media, our plan to spin-off Liberty Broadband Group into a separate publicly-traded company and our purchase of additional Charter shares, which increased our beneficial

ownership to 26.4%,” said Greg Maffei, Liberty Media President and CEO. “We believe a separate Liberty Broadband will offer investors greater choice and transparency, and is well timed with Charter’s agreements with Comcast which will result in Charter owning or serving over eight million video customers. We anticipate completing the distribution of the Series C shares in the third quarter and the spin-off by the end of the year.”

Maffei continued, “Our affiliated companies posted strong results across the board: SiriusXM grew revenue 11%, Charter accelerated its growth in revenue, Adjusted EBITDA and customer units and Live Nation grew revenue and AOI across the board.”

Issuance of Series C Common Stock

Liberty Media’s board has approved the issuance of shares of its Series C common stock to holders of its Series A and Series B common stock, to be effected by means of a dividend. Holders of Series A and Series B common stock as of 5:00 p.m. E.D.T. time on July 7, 2014, the record date for the dividend, will receive on July 10, 2014 a dividend of two shares of Series C common stock for each share of Series A or Series B common stock held by them as of the record date.

Spin-Off of Liberty Broadband

Liberty Media’s board has authorized management to pursue a plan to spin-off to its stockholders common stock of a newly formed company to be called Liberty Broadband and to distribute subscription rights to acquire shares of Liberty Broadband’s common stock. Liberty Broadband would be comprised of, among other things, Liberty Media’s (i) interest in Charter Communications, (ii) subsidiary TruePosition, (iii) minority equity investment in Time Warner Cable and (iv) certain deferred tax and deferred revenue liabilities, as well as liabilities related to the Time Warner call option. In the spin-off, record holders of Series A, Series B and Series C common stock would receive one-fourth of a share of the corresponding series of Liberty Broadband common stock for each share of common stock held by them as of the record date for the spin-off, with cash in lieu of fractional shares. In addition, stockholders will also receive a subscription right to acquire one share of Series C Liberty Broadband common stock for every five shares of Liberty Broadband common stock they receive in the spin-off.

The subscription rights are being issued to raise capital for general corporate purposes of Liberty Broadband and will enable the holders to acquire shares of Series C Liberty Broadband common stock at a 20% discount to the 20-trading day volume weighted average trading price of the Series C Liberty Broadband common stock following the completion of the spin-off. We expect the subscription rights to become publicly traded once the exercise price has been established and the rights offering to expire forty trading days following the completion of the spin-off.

The spin-off and rights offering are intended to be tax-free to stockholders of Liberty Media and the completion of the spin-off and commencement of the rights offering will be subject to various conditions, including the receipt of an opinion of tax counsel. Subject to the satisfaction of these conditions, the completion of the spin-off and the commencement of the rights offering is expected to occur in the second half of 2014.

Liberty Media

Liberty Media acquired its controlling interest in SiriusXM on January 18, 2013 and has applied purchase accounting and consolidated the results of SiriusXM since that date. Prior to the acquisition of Liberty Media's controlling interest, we accounted for the investment in SiriusXM using the equity method.

Liberty Media's revenue increased \$222 million to \$1,011 million in the first quarter. Adjusted OIBDA increased by \$32 million to \$294 million and operating income increased \$4 million to \$155 million. The increase in revenue, adjusted OIBDA and operating income was primarily due to the inclusion of a full quarter of SiriusXM's results combined with strong operating results at SiriusXM.

SiriusXM

SiriusXM reported its stand-alone first quarter results on April 24, 2014. For presentation purposes in this release, we include below the results of SiriusXM, as reported by SiriusXM, without regard to the purchase accounting adjustments applied by us for purposes of our financial statements. Liberty Media believes the presentation of financial results as reported by SiriusXM is useful to investors as the comparability of those results are best understood in the context of SiriusXM's historical financial presentation. For a reconciliation of revenue, adjusted OIBDA (as defined by Liberty Media) and operating income for SiriusXM's stand-alone operating results as reported by SiriusXM, to those results as reported by Liberty Media, see Liberty Media's Form 10-Q for the quarter ended March 31, 2014.

Highlights of SiriusXM's earnings release included the following:

- Record revenue of \$998 million, up 11% from first quarter of 2013
- Net income of \$94 million
- Adjusted EBITDA⁽²⁾ grew 28% to a record \$335 million
- Reiterates 2014 guidance

All such amounts are representative of SiriusXM's stand-alone operating results and are not indicative of what is included in Liberty Media's financial statements due to certain purchase accounting adjustments resulting from our January 18, 2013 acquisition of SiriusXM. SiriusXM is a separate publicly traded company and additional information about SiriusXM can be obtained through its website and filings with the Securities and Exchange Commission.

Liberty Media's primary use of cash during the three months ended March 31, 2014 (excluding SiriusXM's uses of cash) was the payment of \$670 million to pay down a portion of the outstanding margin loans through the use of cash on hand.

Total Liberty Media debt decreased by \$822 million primarily as a result of repayments on margin loans and the SiriusXM credit facility.

NON-GAAP FINANCIAL MEASURES

SCHEDULE 1

This press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for Liberty Media, together with a reconciliation to operating income, as determined under GAAP. Liberty Media defines adjusted OIBDA as revenue less operating expenses, and selling, general and administrative expenses, excluding all stock based compensation, and excludes from that definition depreciation and amortization, restructuring

and impairment charges and legal settlements that are included in the measurement of operating income pursuant to GAAP.

Liberty Media believes adjusted OIBDA is an important indicator of the operational strength and performance of its businesses, including each business' ability to service debt and fund capital expenditures. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because adjusted OIBDA is used as a measure of operating performance, Liberty Media views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Liberty Media's management considers in assessing the results of operations and performance of its assets. Please see the attached schedules for applicable reconciliations.

The following table provides a reconciliation of adjusted OIBDA for Liberty Media to operating income calculated in accordance with GAAP for the three months ended March 31, 2013, June 30, 2013, September 30, 2013, December 31, 2013 and March 31, 2014, respectively.

Stock compensation expense	(41)	(48)	(52)	(52)	(49)
Operating Income (Loss)	<u>\$151</u>	<u>\$ 226</u>	<u>\$ 248</u>	<u>\$ 189</u>	<u>\$ 155</u>

SCHEDULE 2

This press release also includes a presentation of Adjusted EBITDA, which is a non-GAAP financial measure used by SiriusXM, together with a reconciliation to SiriusXM's stand-alone net income, as determined under GAAP. SiriusXM defines Adjusted EBITDA as follows: EBITDA is defined as net income before interest and investment income (loss); interest expense, net of amounts capitalized; income tax expense and depreciation and amortization. SiriusXM adjusts EBITDA to remove the impact of other income and expense, loss on extinguishment of debt, loss on change in value of derivatives as well as certain other charges discussed below. This measure is one of the primary non-GAAP financial measures on which SiriusXM (i) evaluates the performance of its businesses, (ii) bases its internal budgets and (iii) compensates management. Adjusted EBITDA is a non-GAAP financial performance measure that excludes (if applicable): (i) certain adjustments as a result of the purchase price accounting for the merger of Sirius and XM, (ii) depreciation and amortization and (iii) share-based payment expense. The purchase price accounting adjustments include: (i) the elimination of deferred revenue associated with the investment in XM Canada, (ii) recognition of deferred subscriber revenues not recognized in purchase price accounting, and (iii) elimination of the benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. SiriusXM believes adjusted EBITDA is a useful measure of the

underlying trend of SiriusXM's operating performance, which provides useful information about its business apart from the costs associated with its physical plant, capital structure and purchase price accounting. SiriusXM believes investors find this non-GAAP financial measure useful when analyzing its results and comparing its operating performance to the performance of other communications, entertainment and media companies. SiriusXM believes investors use current and projected adjusted EBITDA to estimate its current and prospective enterprise value and to make investment decisions. Because SiriusXM funds and builds-out its satellite radio system through the periodic raising and expenditure of large amounts of capital, its results of operations reflect significant charges for depreciation expense. The exclusion of depreciation and amortization expense is useful given significant variation in depreciation and amortization expense that can result from the potential variations in estimated useful lives, all of which can vary widely across different industries or among companies within the same industry. SiriusXM also believes the exclusion of share-based payment expense is useful given the significant variation in expense that can result from changes in the fair value as determined using the Black-Scholes-Merton model which varies based on assumptions used for the expected life, expected stock price volatility and risk-free interest rates.

Adjusted EBITDA has certain limitations in that it does not take into account the impact to SiriusXM's statements of comprehensive income of certain expenses, including share-based payment expense and certain purchase price accounting for the merger of Sirius and XM. SiriusXM endeavors to compensate for the limitations of the non-GAAP measure presented by also providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the Non-GAAP measure. Investors that wish to compare and evaluate SiriusXM's operating results after giving effect for these costs, should refer to net income as disclosed in its consolidated statements of comprehensive income. Since adjusted EBITDA is a non-GAAP financial performance measure, SiriusXM's calculation of adjusted EBITDA may be susceptible to varying calculations; may not be comparable to other similarly titled measures of other companies; and should not be considered in isolation, as a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. The reconciliation of SiriusXM's stand-alone net income to adjusted EBITDA is calculated as follows (in thousands):
