 - Adjusted EBITDA⁽²⁾ grew 31% to \$370 million
 - Net income of \$120 million

- Series C non-voting common stock (LMCK) began regular-way trading on July 24, 2014
- Filed S-1 related to proposed spin-off of Liberty Broadband Corporation ("Liberty Broadband") with the SEC on July 24, 2014

"We are pleased with the market response to the new Liberty Media Series C shares, and we are making progress with the spin-off of Liberty Broadband which we anticipate completing by year-end," said Greg Maffei, Liberty Media President and CEO. "SiriusXM posted another record-setting quarter and made a further commitment to its buyback, increasing its repurchase authorization by another \$2 billion."

Issuance of Series C Common Stock

Subsequent to quarter-end, Liberty Media distributed Series C common stock to holders of its Series A and Series B common stock, by means of a dividend. Holders of Series A and Series B common stock as of 5:00 p.m. E.D.T. on July 7, 2014, the record date for the dividend, received a dividend of two shares of Series C common stock for each share of Series A or Series B common stock held by them as of the record date. The ex-dividend date was July 24, 2014, at which point the newly issued Series C shares began trading regular way on the Nasdaq Global Select Market under the symbol "LMCK".

Spin-Off of Liberty Broadband

On May 8, 2014 Liberty Media announced a plan to spin-off to its stockholders common stock of a newly formed company to be called Liberty Broadband and to distribute subscription rights to acquire shares of Liberty Broadband's common stock. Liberty Broadband will be comprised of, among other things, Liberty Media's (i) interest in Charter Communications, (ii) subsidiary TruePosition, (iii) minority equity investment in Time Warner Cable, (iv) certain deferred tax liabilities, as well as liabilities related to the Time Warner call option and (v) initial indebtedness, pursuant to a credit arrangement to be entered into prior to the completion of the Broadband spin-off. In the spin-off, record holders of Series A, Series B and Series C common stock will receive one-fourth of a share of the corresponding series of Liberty Broadband common stock for every whole share of Liberty Media's common stock held by them as of the record date for the spin-off, with cash in lieu of fractional shares. In addition, stockholders will also receive a subscription right to acquire one share of Series C Liberty Broadband common stock for every five shares of Liberty Broadband common stock they receive in the spin-off. On July 24, 2014, Liberty Broadband filed a registration statement with the SEC for this spin-off.

The subscription rights are being issued to raise capital for general corporate purposes of Liberty Broadband and will enable the holders to acquire shares of Series C Liberty Broadband common stock at a 20% discount to the 20-trading day volume weighted average trading price of the Series C Liberty Broadband common stock following the completion of the spin-off. We expect the subscription rights to become publicly traded once the exercise price has been established and the rights offering to expire forty trading days following the completion of the spin-off.

The spin-off and rights offering are intended to be tax-free to stockholders of Liberty Media and the completion of the spin-off and commencement of the rights offering will be subject to various conditions, including the receipt of an opinion of tax counsel. Subject to the satisfaction of these conditions, the completion of the spin-off and the commencement of the rights offering is expected to occur in the second half of 2014.

Liberty Media

Liberty Media acquired its controlling interest in SiriusXM on January 18, 2013 and has applied purchase accounting and consolidated the results of SiriusXM since that date. Prior to the acquisition of Liberty Media's controlling interest, we accounted for the investment in SiriusXM using the equity method.

Liberty Media's revenue increased \$82 million to \$1.2 billion in the second quarter. Adjusted OIBDA increased by \$10 million to \$372 million and operating income increased \$5 million to \$231 million. The increases in revenue, adjusted OIBDA and operating income were primarily due to operating results at SiriusXM.

SiriusXM

SiriusXM reported its stand-alone second quarter results on July 29, 2014. For presentation purposes in this release, we include below the results of SiriusXM, as reported by SiriusXM, without regard to the purchase accounting adjustments applied by us for purposes of our financial statements. Liberty Media believes the presentation of financial results as reported

by SiriusXM is useful to investors as the comparability of those results are best understood in the context of SiriusXM's historical financial presentation. For a reconciliation of revenue, adjusted OIBDA (as defined by Liberty Media) and operating income for SiriusXM's stand-alone operating results as reported by SiriusXM, to those results as reported by Liberty Media, see Liberty Media's Form 10-Q for the quarter ended June 30, 2014.

Highlights of SiriusXM's earnings release included the following:

- Revenue exceeded \$1.0 billion, up 10% from the second quarter of 2013
- Adjusted EBITDA⁽²⁾ grew 31% to \$370 million
- Net income of \$120 million
- Share repurchases of \$1.6 billion in 2014
- Full-year 2014 financial guidance raised

All such amounts are representative of SiriusXM's stand-alone operating results and are not indicative of what is included in Liberty Media's financial statements due to certain purchase accounting adjustments resulting from our January 18, 2013 acquisition of SiriusXM. SiriusXM is a separate publicly traded company and additional information about SiriusXM can be obtained through its website and filings with the Securities and Exchange Commission.

Total Liberty Media cash and liquid investments increased \$423 million, primarily as a result of cash flows from operations at SiriusXM, cash proceeds from the sale of a portion of our Barnes & Noble investment and debt issued at SiriusXM. Included in the consolidated cash and liquid investments balance at June 30, 2014 is \$170 million at SiriusXM. Although SiriusXM is a consolidated subsidiary, it is a separate public company with a significant non-controlling interest, therefore Liberty Media does not have ready access to that cash. Excluding cash held at SiriusXM, Liberty Media's cash and liquid investments balance at June 30, 2014 was \$636 million.

Total Liberty Media debt increased by \$1.2 billion primarily as a result of \$1.5 billion of 6% Senior Notes issued by SiriusXM during the quarter, partially offset by payments on the SiriusXM credit facility.

NON-GAAP FINANCIAL MEASURES

SCHEDULE 1

This press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for Liberty Media, together with a reconciliation to operating income, as determined under GAAP. Liberty Media defines adjusted OIBDA as revenue less operating expenses, and selling, general and administrative expenses, excluding all stock based compensation, and excludes from that definition depreciation and amortization, restructuring and impairment charges and legal settlements that are included in the measurement of operating income pursuant to GAAP.

Liberty Media believes adjusted OIBDA is an important indicator of the operational strength and performance of its businesses, including each business' ability to service debt and fund capital expenditures. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because adjusted OIBDA is used as a measure of operating performance, Liberty Media views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Liberty Media's management considers in assessing the results of operations and performance of its assets. Please see the attached schedules for applicable reconciliations.

The following table provides a reconciliation of adjusted OIBDA for Liberty Media to operating income calculated in accordance with GAAP for the three months ended June 30, 2013, September 30, 2013, December 31, 2013, March 31, 2014 and June 30, 2014 respectively.

SCHEDULE 2

This press release also includes a presentation of Adjusted EBITDA, which is a non-GAAP financial measure used by SiriusXM, together with a reconciliation to SiriusXM's stand-alone net income, as determined under GAAP. SiriusXM defines Adjusted EBITDA as follows: EBITDA is defined as net income before interest and investment income (loss); interest expense, net of amounts capitalized; income tax expense and depreciation and amortization. SiriusXM adjusts EBITDA to exclude the impact of other income and expense, loss on extinguishment of debt, loss on change in value of derivatives as well as certain other charges discussed below. This measure is one of the primary non-GAAP financial measures on which SiriusXM (i) evaluates the performance of its businesses, (ii) bases its internal budgets and (iii) compensates management. Adjusted EBITDA is a non-GAAP financial performance measure that excludes (if applicable): (i) certain adjustments as a result of the purchase price accounting for the merger of Sirius and XM, (ii) depreciation and amortization and (iii) share-based payment expense. The purchase price accounting adjustments include: (i) the elimination of deferred revenue associated with the investment in XM Canada, (ii) recognition of deferred subscriber revenues not recognized in purchase price accounting, and (iii) elimination of the benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. SiriusXM believes adjusted EBITDA is a useful measure of the underlying trend of SiriusXM's operating performance, which provides useful information about its business apart from the costs associated with its physical plant, capital structure and purchase price accounting. SiriusXM believes investors find this non-GAAP financial measure useful when analyzing its results and comparing its operating performance to the performance of other communications, entertainment and media companies. SiriusXM believes investors use current and projected adjusted EBITDA to estimate its current and prospective enterprise value and to make investment decisions. Because SiriusXM funds and builds-out its satellite radio system through the periodic raising and expenditure of large amounts of capital, its results of operations reflect significant charges for depreciation expense. The exclusion of depreciation and amortization expense is useful given significant variation in depreciation and amortization expense that can result from the potential variations in estimated useful lives, all of which can vary widely across different industries or among companies within the same industry. SiriusXM also believes the exclusion of share-based payment expense is useful given the significant variation in expense that can result from changes in the fair value as determined using the Black-Scholes-Merton model which varies based on assumptions used for the expected life, expected stock price volatility and risk-free interest rates.

Adjusted EBITDA has certain limitations in that it does not take into account the impact to SiriusXM's statements of comprehensive income of certain expenses, including share-based payment expense and certain purchase price accounting for the merger of Sirius and XM.

SiriusXM endeavors to compensate for the limitations of the non-GAAP measure presented by also providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measure. Investors that wish to compare and evaluate SiriusXM's operating results after giving effect for these costs, should refer to net income as disclosed in its unaudited consolidated statements of comprehensive income. Since adjusted EBITDA is a non-GAAP financial performance measure, SiriusXM's calculation of adjusted EBITDA may be susceptible to varying calculations; may not be comparable to other similarly titled measures of other companies; and should not be considered in isolation, as a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. The reconciliation of SiriusXM's stand-alone net income to adjusted EBITDA is calculated as follows (in thousands):
