

# WiSA E Multichannel Wireless Audio Shipping in Sagemcom's VSB (Video Soundbox™) Set-Top Box

*VSB offers consumers best-in-class immersive audio and video with natural and authentic sound*

BEAVERTON, Ore.--(BUSINESS WIRE)-- [WiSA Technologies, Inc.](#) (NASDAQ: WISA), a leading innovator in wireless audio technology for intelligent devices and next-generation home entertainment systems, announces that its WiSA E wireless multichannel audio software has been integrated into Sagemcom's latest Video Soundbox (VSB) set-top box product, which has been shipping globally since December 2024. The cutting-edge WiSA E software enables the all-in-one audio/video VSB to deliver an innovative and immersive home entertainment experience. With WiSA E, consumers can enjoy Dolby Atmos audio transported wirelessly to external speakers, elevating their audio experience to new heights.

"We are incredibly excited to incorporate WiSA E's industry-leading audio software into our latest audio set-top box, the Video Soundbox (VSB)," said Olivier Taravel, Senior Executive VP - BU Audio Video Solutions at Sagemcom. "This integration provides consumers with the highest quality audio and wireless connectivity, perfectly complementing the suite of advanced video and smart features in our new VSB set-top box. Together, these elements offer an all-in-one AV solution that redefines home entertainment for our global customer base."

The Sagemcom Video Soundbox offers consumers a streamlined and space-saving solution by combining a high-quality soundbar with a set-top box, delivering both enhanced audio and seamless access to digital TV and streaming services in one device. This all-in-one design reduces clutter, simplifies installation, and provides a cost-effective way to upgrade home entertainment systems without the need for multiple devices or complicated setups.

"The integration of WiSA E software into Sagemcom's latest set-top box strongly validates our strategy of offering a wireless audio software solution to our customers," said Brett Moyer, CEO at WiSA Technologies. "With WiSA E software, customers can seamlessly integrate high-quality multichannel audio, eliminating the need for a separate transmit hardware module and reducing the BOM (bill of material) cost of additional components. This is a win for both our customers and the consumers."

WiSA E provides significant benefits to both manufacturers and consumers. For manufacturers, it offers cost efficiency by eliminating the need for additional hardware, simplifies integration with existing designs, and accelerates time-to-market while allowing for flexible, updatable software solutions. For consumers, WiSA E allows end users to elevate their audio experience by adding rear speakers, including traditional rear left and right, as well as upfiring speakers for full Dolby Atmos support. The seamless connection of these

WiSA E-enabled external speakers provides a convenient way to upgrade home audio systems, delivering an immersive audio experience with effortless setup.

Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements, include, among others, the Company's and Data Vault Holdings, Inc.'s expectations with respect to

the closing of its proposed asset purchase between them (the “DataVault Asset Purchase”), the timing of the Company’s name change, the Company’s and CSI’s expectations with respect to the proposed acquisition of CSI by the Company (the “Acquisition”), including statements regarding the benefits of the Acquisition, the anticipated timing of the Acquisition, the implied valuation of CSI, the products offered by CSI and the markets in which it operates, and the Company’s and CSI’s projected future results and market opportunities, as well as information with respect to WiSA’s future operating results and business strategy. Readers are cautioned not to place undue reliance on these forward-looking statements. Actual results may differ materially from those indicated by these forward-looking statements as a result of a variety of factors, including, but not limited to: (i) risks and uncertainties impacting WiSA’s business including, risks related to its current liquidity position and the need to obtain additional financing to support ongoing operations, WiSA’s ability to continue as a going concern, WiSA’s ability to maintain the listing of its common stock on Nasdaq, WiSA’s ability to predict the timing of design wins entering production and the potential future revenue associated with design wins, WiSA’s ability to predict its rate of growth, WiSA’s ability to predict customer demand for existing and future products and to secure adequate manufacturing capacity, consumer demand conditions affecting WiSA’s customers’ end markets, WiSA’s ability to hire, retain and motivate employees, the effects of competition on WiSA’s business, including price competition, technological, regulatory and legal developments, developments in the economy and financial markets, and potential harm caused by software defects, computer viruses and development delays, (ii) risks related to the DataVault Asset Purchase, including WiSA’s ability to close the Asset Purchase in a timely manner or at all, or on the terms anticipated, whether due to WiSA’s ability to satisfy the applicable closing or otherwise, as well as risks related to WiSA’s ability to realize some or all of the anticipated benefits from the DataVault Asset Purchase, (iii) risks related to the Acquisition, including WiSA’s ability to close the Acquisition in a timely manner or at all, or on the terms anticipated, whether due to WiSA’s ability to satisfy the applicable closing or otherwise, as well as risks related to WiSA’s ability to realize some or all of the anticipated benefits from the Acquisition, any risks that may adversely affect the business, financial condition and results of operations of CSI, including but not limited to cybersecurity risks, the potential for AI design and usage errors, risks related to regulatory compliance and costs, potential harm caused by data privacy breaches, digital business interruption and geopolitical risks, and (iv) other risks as set forth from time to time in WiSA’s filings with the U.S. Securities and Exchange Commission. The information in this press release is as of the date hereof and neither the Company nor CSI undertakes any obligation to update such information unless required to do so by law. The reader is cautioned not to place under reliance on forward looking statements. Neither the Company nor CSI gives any assurance that either the Company or CSI will achieve its expectations.
