Actinium to Present at the 3rd Annual Sachs Cancer Bio Partnering & Investment Forum on February 23rd

NEW YORK, NY -- (Marketwired) -- 02/18/15 -- [Actinium Pharmaceuticals, Inc.](#) (NYSE MKT: ATNM) ("Actinium" or "the Company"), a biopharmaceutical company developing innovative targeted payload immunotherapeutics for the treatment of advanced cancers, today announced that the Company will present at the 3rd Annual Sachs Cancer Bio Partnering & Investment Forum on Monday, February 23rd at 1:45 p.m. The conference will take place at the New York Academy of Sciences in New York City.

Sandesh Seth, Executive Chairman, will provide an overview of the company and recent activities.

Sachs forums are recognized as the leading international stage for those interested in investing in the biotech and life science industry and are highly transactional. They draw together an exciting cross-section of early-stage/pre-IPO, late-stage and public companies with leading investors, analysts, money managers and pharmas. The New York forum provides the additional interaction with the academic/scientific and patient advocacy communities.

Members of the investment community who are interested in meeting with management should contact Evan Smith, CFA of Actinium Pharmaceuticals at (646) 840-5442 or esmith@actiniumpharma.com.

About Actinium Pharmaceuticals

Actinium Pharmaceuticals, Inc. (www.actiniumpharma.com) is a New York-based biopharmaceutical company developing innovative targeted payload immunotherapeutics for the treatment of advanced cancers. Actinium's targeted radiotherapy is based on its proprietary delivery platform for the therapeutic utilization of alpha-emitting actinium-225 and bismuth-213 and certain beta emitting radiopharmaceuticals in conjunction with monoclonal antibodies. The Company's lead radiopharmaceutical lomabTM-B will be used in preparing patients for hematopoietic stem cell transplant, commonly referred to as bone marrow transplant. The Company is preparing a single, pivotal, multicenter Phase 3 clinical study of lomabTM-B in refractory and relapsed Acute Myeloid Leukemia (AML) patients over the age of 55 with a primary endpoint of durable complete remission. The Company's second program, Actimab-A, is continuing its clinical development in a Phase 1/2 trial for newly diagnosed AML patients over the age of 60 in a single-arm multicenter trial.

Forward-Looking Statement for Actinium Pharmaceuticals, Inc.

This news release contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations and involve risks and uncertainties, which may cause actual results to differ materially from those set forth in the statements. The forward-looking statements may include statements regarding product development, product potential, or financial performance. No forward-looking statement can be guaranteed and actual results may differ materially from those projected. Actinium Pharmaceuticals undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events, or otherwise.
