About BioCentury NewsMakers Conference

NewsMakers presents a hand-picked group of public biotech companies whose corporate and regulatory milestones will drive stock prices. *NewsMakers* is recognized as the industry's key venue for companies to take their story to Wall Street each Fall. Thus, *NewsMakers* remains the best opportunity for business development executives and key members of the institutional investment and analyst communities to compare notes and assess the industry landscape.

Last year, more than 500 delegates congregated at *NewsMakers*, including money

managers who controlled more than \$480 billion in equity assets, with over \$50 billion dedicated to healthcare and \$15 billion dedicated to biotech.

About Actinium Pharmaceuticals

Actinium Pharmaceuticals, Inc. (www.actiniumpharma.com) is a New York-based biopharmaceutical company developing innovative targeted payload immunotherapeutics for the treatment of advanced cancers. Actinium's targeted radioimmunotherapy products are based on its proprietary delivery platform for the therapeutic utilization of alpha-emitting Actinium-225 and Bismuth-213 and certain beta emitting radiopharmaceuticals in conjunction with monoclonal antibodies. The Company's lead radiopharmaceutical product candidate lomab-B is designed to be used, upon approval, in preparing patients for hematopoietic stem cell transplant, commonly referred to as bone marrow transplant. The Company is conducting a single, pivotal, multicenter Phase 3 clinical study of lomab-B in refractory or relapsed AML patients over the age of 55 with a primary endpoint of durable complete remission. The Company's second product candidate, Actimab-A, is continuing its clinical development in a Phase 1/2 trial for patients newly diagnosed with AML over the age of 60 in a single-arm multicenter trial.

Forward-Looking Statements for Actinium Pharmaceuticals, Inc.

This news release contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations and involve risks and uncertainties, which may cause actual results to differ materially from those set forth in the statements.
