

Local Bounti Announces Third Quarter 2022 Financial Results

Third quarter revenue of \$6.3 million, compared to \$0.2 million in the prior year period

Previously announced 5-year offtake agreement with Sam's Club for Local Bounti's leafy greens production

Reaffirms full year 2022 guidance

HAMILTON, Mont., Nov. 10, 2022 /PRNewswire/ -- Local Bounti Corporation (NYSE: LOCL, LOCL WS) ("Local Bounti" or the "Company"), a breakthrough U.S. indoor agriculture company combining the best aspects of vertical and greenhouse growing technologies, today announced its third quarter 2022 results for the three months ended September 30, 2022 and reaffirmed its full year 2022 guidance.

Craig Hurlbert, Co-CEO of Local Bounti, stated, "We are thrilled with the engagement we are experiencing with our retail partners for our fresh, great tasting, locally grown produce. Our recent offtake agreement with Sam's Club is an excellent example of the market's trust in our team, as well as the brands and products that have been developed over several decades."

Mr. Hurlbert continued, "Consumers, retailers, and foodservice operators alike increasingly want a resilient supply chain of locally grown, fresh, and high-quality produce items and Local Bounti will continue to deliver on that demand. We are focused first and foremost on our existing customer base to inform our decisions on how we can most efficiently deploy our capital to meet known demand through scaling up our facility network. We remain vigilant in our approach to maximizing capital efficiency to drive revenue generation, with a sharp eye on maintaining healthy gross margins so we can reach breakeven cash flow as quickly as possible."

Third Quarter 2022 Financial Summary

- Sales of \$6.3 million in the third quarter of 2022, as compared to approximately \$0.2 million in the prior year period. Quarterly revenue from the Company's California facilities was down slightly versus second quarter of 2022 due to an isolated delivery interruption with a logistics provider that has since been resolved. This was partially offset by revenue from the Company's Montana facility which increased 13% quarter over quarter, consistent with its pivot to an optimized mix of commercial production. Although the Georgia facility opened in the third quarter of 2022 and product is shipping out of the facility, third quarter operations were still in the commissioning phase to prepare for fulfilling Sam's Club demand. The Company expects to begin its initial shipments to Sam's Club this month, November 2022.
- Gross profit was \$1.3 million in the third quarter of 2022. Adjusted gross margin percentage was approximately 38%, excluding depreciation and stock-based compensation. Gross profit recovered in third quarter following temporary supply challenges that were rectified during the second quarter.
- Net loss was \$27.1 million in the third quarter of 2022. Adjusted EBITDÅ loss was \$7.3 million, which excludes \$10.9 million in stock-based compensation, \$5.2 million in interest expense, \$1.7 million of depreciation, \$1.3 million of amortization and \$0.9 million of business acquisition and strategic transaction due diligence and integration related costs. Net loss and adjusted EBITDA loss in the prior period were \$10.8 million and \$5.5 million, respectively.

Sam's Club Offtake Agreement

As previously announced on November 7, 2022, Local Bounti signed a five-year offtake agreement with Sam's Club for its leafy greens production starting at its greenhouse facility in Byron, Georgia. The Company continues to advance its expansion of the Georgia facility, which will double the existing footprint and further enhance capacity with the addition of its Stack & Flow TechnologyTM to meet pent up demand for its Local Bounti packaged salads to current customers and open the opportunity to earn new business in that region.

Commercial Facility Expansion Update

achieving larger scale commercial production. Construction of Phase 1-B began in June 2022 and continues to progress with an expected completion in the first quarter of 2023. As a component of Phase 1-B's construction, the Company also began construction on the integration of its Stack & Flow Technology™, of which the first section, initially dedicated largely to R&D efforts, will be completed in the fourth quarter of 2022 with an anticipated service date commencing in the first quarter of 2023. The integration of the remaining Stack will be completed during the second quarter of 2023. Stack & Flow Technology™ will be integrated across both Phase 1-A and 1-B, which is expected to add approximately 40% of incremental revenue generating capacity to the finished Georgia facility which will be comprised of six acres of greenhouses and multiple climate, water and spectral controlled Stack zones.

Texas facility site selected; expected closing on land acquisition during fourth quarter of 2022

Local Bounti selected Mount Pleasant, Texas as the site for its next facility. This location was selected based on customer demand and proximity to existing customers' distribution networks. The Company is working through the closing process for the parcel, which is expected to be completed toward the end of November 2022, with construction activities beginning shortly thereafter. The Texas facility will be comprised of a six-acre greenhouse facility and multiple Stack zones. The Company anticipates the facility will be operational in the fourth quarter of 2023.

Pasco, Washington facility progress

The Pasco, Washington facility continues to progress, with anticipated completion in third quarter 2023. This facility will be comprised of multiple Stack zones and three acres of greenhouse.

Today, the Company's product assortment consists of 23 SKUs.

In October 2022, Local Bounti successfully launched into the value-added segment with two *Grab & Go Salad* SKUs – *Modern Greek* and *Poppy Power*. Based on the launch's success to date and customer feedback, Local Bounti will advance the next phase of expansion adding additional SKUs and expects to reach approximately 100 stores in the first quarter of 2023.

Continued Support from Marquee Existing Investors to Support Growth

The Company ended the quarter with cash, cash equivalents and restricted cash of \$24.0 million and approximately \$34.4 million of undrawn capacity on its credit facility with Cargill Financial Services International, Inc. Subsequent to the end of the third quarter, in October 2022, Local Bounti arranged a \$23.3 million private investment in public equity (PIPE) investment in the Company with significant investment coming from existing investors, including Fidelity Management & Research Company and BNP Paribas. The PIPE proceeds, when added to the Company's September 30, 2022 cash, cash equivalents and restricted cash balances, along with the \$34.4 million of undrawn capacity on the Company's credit facility with Cargill provide for more than \$80 million of total liquidity. Local Bounti had approximately 94.3 million basic and diluted shares outstanding as of September 30, 2022, and had an additional 11.5 million warrants outstanding and approximately 10.2 million restricted stock units outstanding. The Company continues to expect to achieve initial annual run-rate revenue of at least \$30 million at full production from its California and Georgia (Phase 1-A) facilities, excluding the expected future positive impact from additional capacity due to incorporating Stack & Flow Technology™ at all three facilities.
