Upexi Shifts Focus into Bitcoin and Crypto with Strategic Investment in Digital Currency as Part of Long-Term Strategic Crypto Initiative

Subsidiaries have been organized to invest and capitalize on the opportunities of cryptocurrency including Bitcoin and other coins with high growth potential

TAMPA, FL / [ACCESS Newswire](#) / January 23, 2025 /Upexi, Inc. (NASDAQ:UPXI) (the "Company" or "Upexi"), a brand owner specializing in the development, manufacturing and distribution of consumer products, today announced establishing a digital currency holding company to invest and capitalize on the opportunities of cryptocurrency including Bitcoin and other coins with high growth potential. Upexi has made an initial investment in Bitcoin and is actively pursuing additional investment opportunities to expand its portfolio through further direct investment into coins, mining, and M&A in the fintech space.

Management and the Board of Directors have agreed to make a strategic investment in a portfolio of Cryptocurrency including Bitcoin that could grow exponentially in the future, and shift its growth strategy to opportunities in Crypto and the BlockChain. The Company has initiated a multi-pronged go-to-market strategy with a primary portfolio investment anchored by at least a 50% of the total portfolio asset size in Bitcoin and the remainder of the portfolio in cryptocurrencies such as Ethereum, Ripple, Aave, Chainlink, Render, and several others. In the future, the portfolio will be available to view on the Upexi website with daily updates of Upexi's holdings.

Upexi will initially operate through two newly established, wholly owned subsidiaries to separate our investments and reporting. The two entities consist of:

- **ChainBitMiner:** A diversified portfolio of Crypto coins anchored with 50-70% of portfolio in Bitcoin held in lieu of cash on balance sheet. The company will issue periodic press releases around completed Bitcoin purchases and newly added coins to the portfolio.
- **QuantumHash:** The Company will look to capitalize with investments in Crypto mining with a main focus on Bitcoin mining. The Company does not initially plan to operate its own mining operations.

Andrew Norstrud, Chief Financial Officer of Upexi, stated, "The strategy of using debt, equity and cash flow to accumulate Bitcoin has proven very successful for many companies and their investors. We believe an expanded strategy should give investors more exposure to new coins with more potential upside while anchoring our strategy with Bitcoin. The new Trump administration has been publicly bullish and with the possibility of large financial institutions beginning to adopt this financial asset alternative, it has been clearly evident now

is the time to make a strategic investment into the space."
