Sonoma Pharmaceuticals Announces Expanded Dental Care Line with a New Product for Professional Care in the U.S. and a New Product for Professional and Consumer Care in Switzerland

WOODSTOCK, Ga.--(BUSINESS WIRE)-- Sonoma Pharmaceuticals, Inc. (Nasdaq: SNOA), a global healthcare leader developing and producing patented Microcyn® technology based stabilized hypochlorous acid (HOCl) products for a wide range of applications, including wound, eye, oral and nasal care, disinfectant use and dermatological conditions, today announced that it has launched two new dental products. OroGenix Oral Hygiene Rinse is Sonoma's second dental product in the U.S., and was developed with its partner Gabriel Science, LLC. Additionally, in Switzerland, Sonoma and its partner, Medical Systems Solutions, have launched Microdacyn® Oral Care for both professional and consumer use.

After successfully launching Endocyn® for root canal irrigation in December 2020, Sonoma's second dental product in the U.S. is an oral hygiene rinse. OroGenix Oral Hygiene Rinse uses Sonoma's patented Microcyn® technology to cleanse teeth, gums, and mouth.

For more information and to buy OroGenix Oral Hygiene Rinse please visit <http://sonomapharma.com/orogenix-oral/>.

In Europe, Microdacyn60® Oral Care is intended to combat oral and pharyngeal infections and inflammation, and reduce pain and coughing. Sonoma's dental products do not stain the teeth, and are manufactured using the safe and effective evidence-based Microcyn® technology. For more information and to buy Microdacyn60 Oral Care please visit <http://www.medicalsol.ch/produkte/wundbehandlung/microdacyn60-oral-care/>.

"We believe the OroGenix Oral Hygiene Rinse and the Microcyn family of hypochlorous acid products will help dentists and their patients achieve healthy gums, teeth, and oral cavity," said Dr. Mark Fontenot, managing member at Gabriel Science, LLC.

"Microdacyn60® Oral Care offers a superior alternative for oral and throat care. Not only in dentistry, but also in general oral and pharyngeal care such as intubated patients, we see the great benefits of Microdacyn60 Oral Care as an alternative for widely used chlorhexidine-based products," commented Mr. Edgar Sommer, General Manager at Medical System Solutions.

"We are pleased to bring the oral rinse to dental offices in the U.S., and for both professional and consumer use in Europe. Gabriel Science and Medical System Solutions are ideal partners for advancing our dental and oral care line of products," said Bruce Thornton, COO

of Sonoma Pharmaceuticals. “Our proprietary Microcyn technology is truly the next-generation formulation in terms of superior antimicrobial impact, shelf stability and safety.”

About Sonoma Pharmaceuticals, Inc.

Sonoma Pharmaceuticals is a global healthcare leader for developing and producing stabilized hypochlorous acid (HOCl) products for a wide range of applications, including wound care, animal health care, eye care, nasal care, oral care, disinfectant use and dermatological conditions. The company’s products reduce infections, itch, pain, scarring and harmful inflammatory responses in a safe and effective manner. In-vitro and clinical studies of hypochlorous acid (HOCl) show it to have impressive antipruritic, antimicrobial, antiviral and anti-inflammatory properties. Sonoma’s stabilized HOCl immediately relieves itch and pain, kills pathogens and breaks down biofilm, does not sting or irritate skin and oxygenates the cells in the area treated assisting the body in its natural healing process. The company’s products are sold either directly or via partners in 54 countries worldwide and the company actively seeks new distribution partners. The company’s principal office is in Woodstock, Georgia, with manufacturing operations in Latin America. European marketing and sales are headquartered in Roermond, Netherlands.
