About SOBRsafe™

Alcohol misuse is the fourth leading cause of preventable death in America, and the seventh worldwide. Yet prevention and monitoring solutions have not kept pace with this epidemic. Legacy technologies are invasive and inefficient, unhygienic and unconnected. There has to be a better way.

Enter SOBRsafe™. Our advanced transdermal (touch-based) technology detects and instantaneously reports the presence of alcohol as emitted through a user's skin - no breath, blood or urine sample is required. With a powerful backend data platform, SOBRsafe provides next generation, passive detection technology for the behavioral health, transportation, oil and gas, judicial and consumer markets.

The SOBRsafe technology is commercially available for access control ([SOBRcheck](#)), wearable use ([SOBRsure](#)) and licensing/white labeling. At SOBRsafe, we are **creating a culture of prevention and support**. To learn more, visit www.sobrsafe.com.
