Innoviz Technologies to Showcase LiDAR Solutions at ITS America Conference in Texas

TEL AVIV, Israel, April 25, 2023 /PRNewswire/ -- [Innoviz Technologies Ltd.](#) (Nasdaq: INVZ) (the "Company" or "Innoviz"), a Tier 1 and direct supplier of high-performance, automotive-grade LiDAR sensors and perception software, will demonstrate its state-of-the-art LiDAR technology at [ITS America](#), held at the Gaylord Texan Resort in Grapevine, Texas, from April 24-27, 2023. Innoviz will offer demonstrations of its LiDARs from booth #1510 during all days of the show.

Hosted by the Intelligent Transportation Society of America, ITS America brings together innovators from across the intelligent transportation community. Innoviz will be showcasing some of its latest mobility innovations and use-case solutions, such as: bridge collision detection, hazard detection in a predefined aerial or ground area, trespassing detection, and additional traffic alerts.

Innoviz is pleased to see its partners who are presenting at ITS: Outsight (booth 401), whose software, together with Innoviz's LiDAR accelerates the adoption of 3D LiDAR technology beyond ADAS, and Sensagrate, whose platform, SensaVision, enabled by Innoviz's LiDAR gathers data for root cause analysis of pedestrian-related incidents, improving pedestrian and automobile safety. Other participants include Gridmatrix (booth 1236) and Axilion (booth 505) with whom Innoviz is cooperating to work on addressing the most common and challenging issues of vulnerable road users, such as predicting collisions and quantifying near miss incident probability.

"We look forward to showcasing our industry-leading LiDAR solutions at ITS America and demonstrating how Innoviz technology is a perfect fit for the smart transportation sector," said Scott Craig, Vice President of North America at Innoviz Technologies. "Innoviz LiDAR sensors and perception software offer urban and rural transportation solutions for a number

of applications, ranging from autonomous vehicles to traffic and security monitoring, and helping to unlock the future of mobility today."

InnovizTwo delivers an automotive-grade, mass-producible automated solution for autonomous vehicles, as well as for intelligent transportation systems, including smart corridors and more. InnovizTwo demonstrates Innoviz's superior technical ability to deliver breakthrough performance at a competitive price. The product has garnered snowballing interest from the market to date, and the Company continues to make progress on key automotive programs with leading automakers. On April 20, 2023, InnovizTwo was [awarded the Edison Award](#) in the Smart Transportation category.

About Innoviz Technologies

Innoviz is a global leader in LiDAR technology, working towards a future with safe autonomous vehicles on the world's roads. Innoviz's LiDAR and perception software "see" better than a human driver and reduce the possibility of error, meeting the automotive industry's strictest expectations for performance and safety. Operating across the U.S., Europe, and Asia, Innoviz has been selected by internationally recognized premium car brands for use in consumer vehicles as well as by other commercial and industrial leaders for a wide range of use cases. Forward Looking Statements

This announcement contains certain forward-looking statements within the meaning of the federal securities laws, including statements regarding the services offered by Innoviz, the anticipated technological capability of Innoviz's products, the markets in which Innoviz operates and Innoviz's projected future results. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "future," "opportunity," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are

predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this announcement including but not limited to, the ability to implement business plans, forecasts, and other expectations, the ability to convert design wins into definitive orders and the magnitude of such orders, the ability to identify and realize additional opportunities, and potential changes and developments in the highly competitive LiDAR technology and related industries. The foregoing list is not exhaustive. You should carefully consider such risk and the other risks and uncertainties described in Innoviz's annual report on Form 20-F filed with the SEC on March 9, 2023 and other documents filed by Innoviz from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Innoviz assumes no obligation and does not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise. Innoviz gives no assurance that it will achieve its expectations.
