Sonim Announces Availability of PTT-Centric Phone XP5plus at Southern Linc

Sonim ultra-rugged phones with Push-to-Talk (PTT) are trusted by Southern Linc government and business customers requiring equipment that performs in demanding environments from a US-based supplier.

San Diego, California and Atlanta, Georgia--(Newsfile Corp. - November 9, 2023) - Sonim Technologies Inc. (NASDAQ: SONM) today announced the availability of the versatile XP5plus phone that combines cellular with 2-way radio functionality at Southern Linc, the wireless subsidiary of Southern Company (NYSE: SO). Known for their reliability and superior performance on Southern Linc's mission-critical CriticalLinc™ LTE network, Sonim's ultra-rugged phones have long been the go-to choice for Southern Linc's government, utility, and business customers. These customers operate in demanding environments where secure, high-quality, and reliable communication tools are essential.

"We're pleased to further deepen our commitment to Southern Linc by introducing the XP5plus phone, further cementing our shared dedication to equipping their customers with the dependable tools they need to carry out their tasks safely and efficiently," said Dyan Kaplan, SVP of Sales at Sonim. "As more government and business customers seek ultra-reliable mobile solutions from US-based OEMs, Sonim continues to rise to the challenge, delivering purpose-built devices that meet the highest standards of durability, reliability, and functionality. Our XP5plus phone is a prime example of our commitment to providing top-tier communication tools for those operating in demanding environments."

The XP5plus: 2-way communication in an ultra-rugged phone

Building on the legacy of the widely used XP5s, the XP5plus offers an improved PTT experience, making it an essential tool for Southern Linc's customers who rely heavily on PTT communications.

Meeting the toughest standards

The Sonim XP5plus raises the bar for ultra-rugged phones, acting as a robust communication tool specifically designed for professionals operating in challenging conditions. Resilient by design, this device is engineered to withstand the harshest environments. It has undergone rigorous third-party testing to meet MIL-STD-810H and IP68 standards, proving it to be truly waterproof and drop-proof. Additionally, the device complies with the rating for non-incendive Class 1, 2, and 3, Division 2, signifying its safe use in environments with potentially hazardous or flammable gases and vapors.

Enhanced Communication Capabilities

The XP5plus includes PTT and SOS buttons in addition to optional top-mount control knobs for swift channel selection and volume control. The inclusion of these knobs significantly streamlines communication for swift and easy channel selection and volume control, a

feature that is particularly important to Southern Linc's customers who rely on PTT communications. Coupled with Goodix® echo and noise cancellation technology and secure audio connectors, the XP5plus ensures superior audio quality.

"By integrating the knob-equipped XP5plus phones into our portfolio, we not only enrich our offerings but also demonstrate our dedication to empowering customers with cutting-edge tools. The exceptional performance of Sonim's products over the years on the CriticalLinc network further solidifies this trust and underscores our commitment to quality," said Southern Linc CEO Carmine Reppucci.

Extended Battery Life and Improved Display

Beyond its robust design and enhanced communication features, the XP5plus also boasts an extended battery life and a larger screen than the previous generation, providing users with a more convenient and efficient mobile experience.

Compatibility and Software

Compatible with a range of industrial-grade accessories, the XP5plus is versatile and adaptable. It comes equipped with SonimWare™ Enterprise Mobility Software for effortless device management and a suite of tools purposely designed for business.

Peace of Mind

The XP5plus is backed by Sonim's industry-leading 3-year comprehensive warranty, offering protection against potential replacement costs.
