MicroVision to Present at the 2013 Gateway Conference on September 10

SAN FRANCISCO, CA -- (Marketwired) -- 09/05/13 -- [MicroVision, Inc.](http://www.microvision.com) (NASDAQ: MVIS), a leader in innovative ultra-miniature projection display technology, has been invited to present at the 2013 Gateway Conference being held on Tuesday, September 10, 2013 at the [Palace Hotel](#) in San Francisco.

MicroVision management is scheduled to present at 8:30 a.m. Pacific time, with one-on-one meetings held throughout the day. MicroVision management will discuss its patented PicoP® display technology including recent company progress including its [development agreement](#) with a Fortune Global 100 electronics company, its engagement with a [leading global Tier One automotive supplier](#) on embedded Head Up Display (HUD) opportunities and "beyond projection" capabilities that distinguish its technology.

For additional information or to schedule a one-on-one meeting visit www.gateway-conference.com and click on the Register/Login tab. You may also email your request to schedule@gateway-conference.com or call Ron Both at (949) 574-3860.

About the Gateway Conference

The Gateway Conference is designed to provide a unique gateway between influential members of the investment community and a select group of compelling publicly-traded companies. Portfolio managers, research analysts and brokers from buy-side and sell-side institutions will have the opportunity to learn about more than 50 exciting growth companies across a broad range of industries, from technology, business and financial services, digital media and clean-tech to consumer products, retail/e-commerce, life sciences and natural resources. For more information, visit www.gateway-conference.com.

The invitation-only conference is hosted by Liolios Group, one of the nation's top investor relations agencies, and sponsored by leading firms that service the financial community. For more information about Liolios Group, visit www.liolios.com.

About MicroVision

MicroVision is the creator of PicoP® display technology, an ultra-miniature laser projection solution for mobile consumer electronics, automotive head-up displays and other applications. MicroVision's patented display technology helps OEMs break down display boundaries and offer enhanced visibility to mobile experiences. Nearly two decades of research has led MicroVision to become an independently recognized leader in the development of intellectual property. MicroVision's IP portfolio has been recognized by the Patent Board as a top 50 IP portfolio among global industrial companies and is also included in the Ocean Tomo 300 Patent Index. The company is based in Redmond, Wash.
