Sow Something Special This Spring: Ferry-Morse Launches New Flower Seed Mixes & Seed Varieties for 2025 Season (Graphic: Business Wire)

Available now as gardeners plan and prep for spring, the collection features 50

varieties of 1-pound bags of flower, wildflower and [lawn alternative](#) seeds that are easy to grow and maintain throughout the seasons. Each mix is also free of filler materials commonly found in other large-format seed bags, offering gardeners bulk seed options at great value.

“Cultivating your own flower garden is a soothing and rewarding experience, and now gardeners of all levels can enjoy the tranquility even more with our new Bulk Flower & Wildflower Mixes,” said Rebecca Sears, CMO & Resident Green Thumb for Ferry-Morse. “Whether you want to brighten your home for seasons to come with the vibrant hues of our Perennial Wildflower Mix, grow your own floral garnishes for dishes or drinks with our Edible Flower Mix, or are seeking low-maintenance lawn alternatives, these new mixes offer many possibilities for a stress-free, blossoming home garden retreat this spring.”

With 50 mixes catered to color preferences, popular aesthetics, and regional conditions, there are plenty of blends to help gardeners bring their visions to life. Mixes within the collection include:

- [Bumblebee Buffet Mix](#): A blend of annual and perennial flowers including Cosmos, Zinnia, and Snapdragon that provide nectar and pollen to many species of bumblebees as well as other pollinators.
- [Perennial Wildflower Mix](#): Composed of 100% perennial flowers including Lupine, Sweet William, and Purple Coneflower to help create a long-term flower garden that will last for seasons to come.

- **[Edible Flower Mix](#)**: Whether you're elevating a go-to meal or serving up cocktails or mocktails that deliver on flavor and beauty at your next gathering, this blend of edible annual and perennial flowers can take your garnish game to new heights. Pair a [Garden to Table Mint Mojito](#) (or "faux-jito" for a non-alcoholic alternative) with the cool, cucumber-like flavor of Borage, or sprinkle Calendula petals on top of a springtime salad for added color and a mild, peppery taste.
- **[Regional Mixes](#)**: Whether you're gardening in the Southwest or Northeast, these regional mixes feature native species as well as non-native species that are adapted to the region to offer gardeners optimal results for their unique climate conditions.
- **[Flowering Grass Alternative Mix](#)**: A mix of fine fescue, flowers, and clovers that provides a colorful and diverse alternative to all-grass lawns. This mix results in a beautiful carpet of low-growing flowers that's low maintenance, doesn't need to be mowed throughout the season, and uses less water than all-grass lawns.
- **[Cottage Garden Mix](#)**: A blend of annuals and perennials that offer a mix of nostalgic and traditional favorites including Poppy, Cornflower and Nasturtium for the cottage-core enthusiast who wants to embrace the simplicity and tranquility of the countryside in their own backyard.

Whether it's your first time in the garden or you're a seasoned green thumb, gardeners of all levels can access easy-to-follow steps and must-know growing conditions in [Ferry-Morse's Flower Meadow Gardening Guide](#) to help their flowers blossom.

Expanded Seed Packet Line Includes High-Demand Flower & Produce Varieties

Those looking for even more ways to make their garden dreams a reality this spring can choose from hundreds of flower, fruit, vegetable, and herb seed packets curated by Ferry-Morse.

In continuing to provide gardeners with the tools they need to succeed, Ferry-Morse is also expanding its popular seed line with over 50 new varieties of non-GMO and organic seeds. New ornamental and edible varieties joining the line this season include:

- **[Artichoke Green Globe](#)**: A highly requested variety, these hearty, flavorful artichokes are packed with antioxidants and vitamins and can be enjoyed steamed, fried, or in a homemade spinach and artichoke dip.
- **[Basil Dark Opal](#)**: A distinctive basil variety in both flavor and color that offers interesting contrast to a caprese salad or can be used as a striking garnish for salads, cocktails, or mocktails.
- **[Watermelon, Triple Crown Hybrid Organic Seeds](#)**: A summer staple, this variety produces abundant yields of large, juicy, seedless watermelons with vibrant red flesh bursting with flavor.
- **[Bean, Scarlet Runner Seeds](#)**: A plant that does double duty, as it produces beautiful red blossoms with vigorous vines and edible beans that add a sweet and nutty flavor to salads, soups, and other dishes.
- **[Sunflower Lemon Queen](#)**: A cheerful sunflower variety that will brighten the garden with its lemon-yellow petals and bring helpful pollinators like butterflies and bees to the yard.
- **[Zinnia Candy Cane](#)**: It doesn't have to be the holiday season to appreciate these vibrant flowers that feature a display of bi-colored blooms resembling festive candy canes. Create dynamic impact in the garden this season with pops of rose, yellow,

orange, cherry red and white colors.

Ferry-Morse continues to offer a variety of online tools for those who want expert advice at their fingertips, including the [Garden Matchmaker Quiz](#) for personalized seed recommendations and [The Greenhouse blog](#) for gardening tips and recipes available on FerryMorse.com.
