Drone Aviation to Participate in ADS Warrior Expo East Showcasing the WASP Tactical Aerostat

Invite-Only Annual Event Brings Together More Than 3,000 Military, Federal, State and Local Government Officials

JACKSONVILLE, FL, June 27, 2018 (GLOBE NEWSWIRE) -- Drone Aviation Holding Corp. (OTCQB: DRNE) ("Drone Aviation" or the "Company"), a manufacturer of tethered drones and lighter-than-air aerostats, today announced that it has been invited to participate in the upcoming [ADS Warrior Expo East](#), scheduled for July 11th and 12th in Virginia Beach, VA.

Drone Aviation's Winch Aerostat Small Platform (WASP) Tactical Aerostat.

Warrior Expo is an invite-only event designed to showcase the latest technology and products designed for military, federal, state and local government agencies, law enforcement and first responders allowing customers to engage directly with manufacturers. At the event, the Company will showcase its enhanced [WASP tactical aerostat](#) highlighting its advanced ISR (Intelligence, Surveillance and Reconnaissance) and communications capabilities and the various payloads it can support. Drone Aviation's products will be on display at its booth #1024. [Drone Aviation has received a number of repeat customer orders for the WASP](#) over the past year as the result of a growing number of successful international deployments with military personnel.

"Interest in the WASP from the Department of Defense and governmental agencies is growing, and as the premier procurement partner, ADS is playing a vital role in our efforts to bring the benefits of persistent, mobile and tactical ISR and communications to our troops and security forces," said Jay Nussbaum, Chairman and CEO of Drone Aviation. "We are excited to once again participate in this marquee event, meeting with key decision makers who are seeking persistent and cost effective aerial solutions which enable them to meet current and future mission

requirements.”

The WASP is a highly tactical and mobile aerostat system which can be operated by as few as two soldiers and can provide day/night video, secure multi-frequency and multi-wave form wireless communication range extension capability at the edge of the battlefield from either a fixed, stationary position or while being towed. Over the past four years, U.S. Army-owned WASP systems have successfully completed thousands of hours of soldier training operations, various DoD exercises, and customer operations. WASP is currently being utilized by the DoD as a mobile, tactical aerial solution that can support multi-mission profiles involving ground and aerial-based assets through communication retransmission. Operating at altitudes of up to 1,500 feet AGL, the WASP system can significantly extend ISR capabilities and secure communications in remote and austere locations. The soldier-operated systems can be rapidly configured to support a variety of mission requirements for days, weeks or months with customized payloads. For more information on the WASP, including product demonstration video, please visit: <https://www.droneaviationcorp.com/solutions/aerostat/wasp>.

About Drone Aviation Holding Corp.

Drone Aviation Holding Corp. (OTCQB: DRNE) develops and manufactures cost-effective, compact and rapidly deployable aerial platforms, including lighter-than-air aerostats and electric-powered drones designed to provide government and commercial customers with enhanced surveillance and communication capabilities. Utilizing a patented tether system, Drone Aviation’s products are designed to provide prolonged operational duration capabilities combined with improved reliability, uniquely fulfilling critical requirements in military, law enforcement, commercial, and industrial applications. Forward-Looking Statements

Statements in this press release that are not historical facts are forward-looking statements that reflect management’s current expectations, assumptions, and estimates of future performance and economic conditions, and involve risks and uncertainties that could cause actual results to differ materially from those anticipated by the statements made herein. Such statements are made in reliance upon the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are generally identifiable by the use of forward-looking terminology such as “believe,” “expects,” “may,” “looks to,” “will,” “should,” “plan,” “intend,” “on condition,” “target,” “see,” “potential,” “estimates,” “preliminary,” or “anticipates” or the negative thereof or comparable terminology, or by discussion of strategy or goals or other future events, circumstances, or effects. Moreover, forward-looking statements in this release include, but are not limited to, those relating to: the ability to support future military needs for advanced voice and data communications applications, the continuation of growing demand for drones for military and state and local law enforcement authorities. The Company’s financial results and the forward-looking statements could be affected by many factors, including, but not limited to, demand for the Company’s products and services, economic conditions in the U.S. and worldwide, changes in appropriations by Congress and reduced funding for defense procurement and research and development programs, and our ability to recruit and retain management, technical, and sales personnel. Further information relating to factors that may impact the Company’s results and forward-looking statements are disclosed in the Company’s filings with the SEC. The forward-looking statements contained in this press release are made as of the date of this press release, and the Company disclaims any intention or obligation, other than imposed by law, to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.
