This document is for the sole purpose of providing information related to Athene Annuity Re Ltd. ("AARe") and its subsidiaries for the benefit of certain rating agency analyses on the economic position of certain legal entities in the Athene Holding Ltd. consolidated group. The tables below are presented on a strictly notional basis, are not based on generally accepted accounting principles or any other accounting principles that AARe is subject to as a Bermuda reinsurance company, and are not intended for, and should not be used for any regulatory, investment, or other unrelated purpose. This information should only be viewed and analyzed in conjunction with separate Athene USA insurance subsidiary statutory financial information.

The tables below provide a proportional allocation of the total statutory capital and surplus, pre-tax income and net income of ARRe and its subsidiaries, by reinsurance counterparty, illustrating a notional allocation of capital to reinsurance treaties based on different types of reinsurance.

Allocated Capital and Surplus on a Proportional Basis - Notional Allocation

The tables below include an allocation of statutory capital and surplus, pre-tax income and net income based on the following methodology:

- Any isolated capital is applied to the entity to which the capital relates to
 Surplus capital is allocated on a pro-rata basis based on total reserves (not withstanding that some isolated capital may already be associated with some reserves)
 Net income is applied to the entity to which the income is earned for the current year
 Surplus net income is allocated on a pro-rata basis based on total reserves
