Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of **Athene Annuity and Life Company** (the Company) have been prepared in conformity with the accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Iowa.

The Insurance Division, Department of Commerce, of the State of Iowa (the Division) recognizes only statutory accounting practices prescribed or permitted by the State of Iowa for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Iowa Insurance Law. The NAIC's *Accounting Practices & Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Iowa. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

Among the products issued by the Company are indexed universal life insurance and indexed annuities. These products allow a portion of the premium to earn interest based on certain indices, such as the Standard & Poor's 500 Composite Stock Price Index. Call options, futures, variance swaps and total return swaps are purchased to hedge the growth in interest credited to the customer as a direct result of increases in the related indices. In 2006, the Commissioner of the Division issued Bulletin 06-01*, Accounting for Derivative Instruments Used to Hedge the Growth in Interest Credited for Index Products*, which prescribes that an insurer may elect to recognize changes in the fair value of derivative instruments purchased to hedge indexed products in the statement of operations. The Company has elected to apply Bulletin 06-01 to its futures, variance swaps and total return swaps. Application of Bulletin 06-01 does not impact the Company's statutory surplus amounts.

In 2009, the Commissioner of the Division promulgated Iowa Administrative Code (IAC) Section 191-97, *Accounting for Certain Derivative Instruments Used to Hedge the Growth in Interest Credited for Indexed Insurance Products and Accounting for the Indexed Insurance Products Reserve*, which prescribes that an insurer may elect (i) to use an amortized cost method to account for certain derivative instruments, such as call options, purchased to hedge the growth in interest credited to the customer on indexed insurance products and (ii) to utilize an indexed annuity reserve calculation methodology under which call options associated with the current index interest crediting term are valued at zero. IAC Section 191-97 does not apply to products that do not guarantee a minimum interest accumulation, such as our variable and index-linked deferred annuities. The Company has elected to apply IAC Section 191-97 to its eligible over the counter (OTC) call options and reserve liabilities.

The NAIC requires annuities issued by life insurance companies on or after January 1, 2015, to use the 2012 Individual Annuity Reserving (IAR) Mortality Table. In 2015, the Division promulgated IAC Section 43.3(5), which set an elective alternative effective date of January 1, 2016 for adoption of the 2012 IAR Mortality Table. The Company chose to use the Annuity 2000 Mortality Table for all annuities issued in 2015.

A reconciliation of the Company's net income and statutory surplus between practices prescribed or permitted by the State of Iowa and NAIC SAP is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results may differ from the estimates used in preparing the financial statements.

C. Accounting Policy

(1) Short-term investments - No Significant Changes

(2) Bonds, other than loan-backed and structured securities, are stated at amortized cost or fair value based on their rating by the NAIC. Bonds held at amortized cost are amortized using the scientific interest method on a yield-to-worst basis.

(3) Common stocks - No Significant Changes

(4) Preferred stocks - No Significant Changes

(5) Mortgage loans - No Significant Changes

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

(6) Loan-backed and structured securities are stated at amortized cost or fair market value based on their rating by the NAIC. Changes to estimated cash flows on the securities are accounted for retrospectively for securities that are highly rated at the time of purchase and in which the security cannot be contractually prepaid or settled in such a way that the Company would not recover substantially all of the recorded investment. The prospective method is used for those securities where an other than temporary impairment has been taken, the security is not highly rated at the time of purchase, securities where receipt of all contractual principal cash flows is not expected, or those securities that can be contractually prepaid or settled in such a way that the Company would not recover substantially all of the recorded investment. Loan-backed and structured securities stated at amortized cost are amortized or accreted using the scientific interest method.

(7) Investments in subsidiaries, controlled and affiliated entities - No Significant Changes

(8) Investments in joint ventures, partnerships and limited liability entities - No Significant Changes

(9) Derivatives - No Significant Changes

(10) Investment income as a factor in the premium deficiency calculation - No Significant Changes

(11) Liabilities for losses and loss/claim adjustment expenses - No Significant Changes

(12) Changes in capitalization policy - No Significant Changes

(13) Pharmaceutical rebate receivables - No Significant Changes

D. Going Concern

Management's assessment of the relevant conditions through August 12, 2022 does not give rise to substantial doubt of the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

The Company discovered errors relating to the interest maintenance reserve, asset valuation reserve, bonds and preferred stocks which resulted in a $43 million, or 3.5%, understatement of capital and surplus as of March 31, 2022. These errors were corrected in the current quarter's financial statements. The surplus impacts to the prior year financial statements were not material.

3. Business Combinations and Goodwill - No Significant Changes

4. Discontinued Operations - None

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans - No Significant Changes

B. Debt Restructuring - No Significant Changes

C. Reverse Mortgages - None

D. Loan-Backed Securities

(1) Prepayment assumptions for loan-backed bonds and structured securities were obtained from broker dealer survey values or internal estimates.

(2) Loan-backed and structured securities with a recognized other-than-temporary impairment (OTTI)

No other-than-temporary impairment was recognized on loan-backed securities due to the intent to sell or inability or lack of intent to retain the investment for a period of time sufficient to recover the amortized cost basis.

Notes to the Financial Statements

5. Investments (Continued)

(3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities

(4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss

The following table shows the gross unrealized losses and fair values of loan-backed securities, which have not been impaired to fair value, aggregated by length of time that individual securities have been in a continuous unrealized loss position as of June 30, 2022:

a. The aggregate amount of unrealized losses:
   1. Less than 12 months $ 1,349,598,944
   2. 12 months or longer 118,451,703

b. The aggregate related fair value of securities with unrealized losses:
   1. Less than 12 months $ 15,049,888,399
   2. 12 months or longer 1,447,894,170

Notes to the Financial Statements

5. Investments (Continued)

(5) A full analysis of all relevant qualitative considerations was completed in reaching the conclusion that the impairments were not other-than-temporary, including the intent and ability to hold the investment for a period of time sufficient to allow for a recovery in value. Specific events that may influence the operations of the issuer and impaired earnings potential are reviewed in addition to length of time and extent to which the fair value has been less than cost.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions - None

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

Repurchase Transaction - Cash Taker - Overview of Secured Borrowing Transactions

(1) Information regarding the company policy or strategies for engaging in repo programs, policy for requiring collateral

The Company participates in repurchase agreements with unaffiliated financial institutions. Under these agreements, the Company lends bonds and receives cash as collateral. 6. Joint Ventures, Partnerships and Limited Liability Companies

During the six months ended June 30, 2022, the Company contributed its equity interests in 76 partnership investments to Apollo Aligned Alternatives, L.P. ("AAA"), in exchange for a 69% partnership interest in AAA with an aggregate value of $5.6 billion as of June 30, 2022. The transaction received approval from the Division on March 31, 2022.

AAA is a strategic alternative investment vehicle designed to include investment by affiliated and unaffiliated insurers and other investors, with each investor having pro rata exposure to the underlying investments. The partnership is managed by an affiliate of the Company. Under the terms of the partnership agreement, the Company has the right to require distribution of its pro rata portion of underlying assets and direct such assets to be liquidated.

On Schedule BA, Part 1, the Company will present the pro rata interests in the underlying funds that comprise its investment in AAA. On Schedule BA, Parts 2 and 3, the Company will report its proportional share of AAA's activity in total.

While we have included AAA's unfunded capital commitments (Unfunded AAA Commitments) on a look through basis for the Company (based on the Company's percentage interest in AAA) as of June 30, 2022, such Unfunded AAA Commitments are not the legal obligation of the Company. Additionally, while the Company may provide commitments in respect of such Unfunded AAA Commitments under the Liquidity Facility, the Company has not yet done so.

The following table lists the net contribution, carry value, income and unfunded commitments of the interests contributed to AAA by the Company in the three months ended June 30, 2022.

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. On March 8, 2021, Athene Holding Ltd. (AHL), an indirect parent of the Company, entered into an Agreement and Plan of Merger (Merger Agreement), by and among AHL, Apollo Global Management, Inc., a Delaware corporation (AGM), Tango Holdings, Inc., a Delaware corporation and a direct wholly owned subsidiary of AGM (HoldCo), Blue Merger Sub, Ltd., a Bermuda exempted company and a direct wholly owned subsidiary of HoldCo (AHL Merger Sub), and Green Merger Sub, Inc., a Delaware corporation and a direct, wholly owned subsidiary of HoldCo (AGM Merger Sub). AHL and AGM have agreed, subject to the terms and conditions of the Merger Agreement, to effect an all-stock merger transaction to combine the respective businesses by: (1) AGM merging with AGM Merger Sub, with AGM surviving such merger as a direct wholly owned subsidiary of HoldCo (AGM Merger), (2) AHL merging with AHL Merger Sub, with AHL surviving such merger as a direct, wholly owned subsidiary of HoldCo (AHL Merger and, together with the AGM Merger, Mergers), and (3) as of the effective time of the Mergers, changing the name of HoldCo to be Apollo Global Management, Inc. The Mergers closed on January 1, 2022 and AHL became a direct wholly owned subsidiary of AGM.

Some employees of the Company and Athene Employee Services LLC participate in one or more Share Award Agreements (the Agreements) sponsored by AHL for which the Company has no legal obligation. Salary expense of the Company and of Athene Employee Services LLC is allocated through the Shared Services Agreement. Under SSAP No. 104R, *Share-Based Payments,* the stock compensation expense associated with the Agreements that would have been allocated to the Company is required to be recorded as a capital contribution to the reporting entity. The Company has allocated the stock compensation expense associated with the Agreements based on the same methodology as the Shared Services Agreement. In accordance with SSAP No. 104R, the Company incurred expense and recorded a capital contribution under the Agreements totaling $11.5 million and $15.7 million for the six months ended June 30, 2022 and for the year ended December 31, 2021, respectively, which includes amounts contributed by the Company to downstream insurance subsidiaries.

During February 2022, the Company received a $175.3 million capital contribution from its parent, AADE. This capital contribution was accrued at December 31, 2021 as a $175.0 million receivable from parent with a corresponding increase in gross paid-in and contributed surplus. In accordance with SSAP No. 72 *Surplus and Quasi-Reorganizations*, capital contributions receivable that are satisfied with the receipt of cash or marketable securities prior to the filing of the annual statement shall be treated as a Type I subsequent event and considered an admitted asset based on evidence of collection and approval of the domiciliary commissioner.

During August 2022, the Company received a $450 million capital contribution from its parent, AADE. This capital contribution was accrued at June 30, 2022 as a receivable from parent with a corresponding increase in gross paid-in and contributed surplus. In accordance with SSAP No. 72 *Surplus and Quasi-Reorganizations*, capital contributions receivable that are satisfied with the receipt of cash or marketable securities prior to the filing of the financial statement shall be treated as a Type I subsequent event and considered an admitted asset based on evidence of collection and approval of the domiciliary commissioner.

B. FHLB (Federal Home Loan Bank) Agreements

(1) The Company is a member of the FHLB of Des Moines. Through its membership, the Company is eligible to borrow under variable rate short-term federal fund arrangements to provide additional liquidity. These borrowings are accounted for as borrowed money under SSAP No. 15, *Debt and Holding Company Obligations*. The Company did not have any outstanding borrowings as of June 30, 2022 or December 31, 2021. The Company incurred interest expense on short-term borrowings of $0.0 million and $0.2 million in the general and separate account for the six months ended June 30, 2022 and for the year ended December 31, 2021, respectively.

The Company has issued separate account funding agreements to the FHLB of Des Moines in exchange for cash resulting in a liability of $2,615.5 million as of June 30, 2022. The Company uses these funds in an investment spread strategy, consistent with its other investment spread operations. As such, the Company applies SSAP No. 52, *Deposit-Type Contracts,* accounting treatment to these funds, consistent with its other deposit-type contracts. It is not part of the Company's strategy to utilize these funds for operations, and any funds obtained from the FHLB of Des Moines for use in general operations would be accounted for consistent with SSAP No. 15 as borrowed money.

The Company must provide appropriate collateral to borrow under the arrangements described above. The borrowing capacity available to the Company under these agreements is largely a factor of the Company's ability to post eligible collateral, as well as internal limits such as single-holder exposure limits (10% of the entity's balance sheet liabilities) and NAIC capital requirements.

The tables below indicate the amount of FHLB of Des Moines stock purchased, collateral pledged, assets and liabilities related to the agreements with FHLB of Des Moines.

Corporate-owned Life Insurance (COLI) Matter - In 2000 and 2001, two insurance companies which were subsequently merged into the Company, purchased broad based variable COLI policies from American General Life Insurance Company (American General). In January 2012, the COLI policy administrator delivered to the Company a supplement to the existing COLI policies and advised that American General and ZC Resource Investment Trust (ZC Trust) had unilaterally implemented changes set forth in the supplement that if effective, would: (1) potentially negatively impact the crediting rate for the policies and (2) change the exit and surrender protocols set forth in the policies. In March 2013, the Company filed suit against American General, ZC Trust, and ZC Resource LLC in Chancery Court in Delaware, seeking, among other relief, a declaration that the changes set forth in the supplement were ineffectual and in breach of the parties' agreement. The parties filed cross motions for judgment as a matter of law, and the court granted defendants' motion and dismissed without prejudice on ripeness grounds. The issue that negatively impacts the crediting rate for one of the COLI policies has subsequently been triggered and on April 3, 2018, we filed suit against the same defendants in Chancery Court in Delaware seeking substantially similar relief. Defendants moved to dismiss and the court heard oral arguments on February 13, 2019. The court issued an opinion on July 31, 2019 that did not address the merits, but found that Chancery Court did not have jurisdiction over our claims and directed us to either amend our complaint or transfer the matter to Delaware Superior Court. The matter has been transferred to the Delaware Superior Court. Defendants renewed their motion to dismiss and the Superior Court heard oral arguments on December 18, 2019. The Superior Court issued an opinion on May 18, 2020 in which it granted in part and denied in part defendants' motion. The Superior Court denied defendants' motion with respect to the issue that negatively impacts the crediting rate for one of the COLI policies, which issue will proceed to discovery. The Superior Court granted defendants' motion and dismissed without prejudice on ripeness grounds claims related to the exit and surrender protocols set forth in the policies, and dismissed defendant ZC Resource LLC. If the supplement is ultimately deemed to be effective, the purported changes to the policies could impair the Company's ability to access the value of guarantees associated with the policies. The parties engaged in discovery as well as discussions concerning whether the matter can be resolved without further litigation, and, at the request of the parties on August 11, 2021, the court entered an Amended Scheduling Order setting the trial date for June 2023. On December 27, 2021, the parties agreed in principle to a settlement, pursuant to which we will be able to surrender the polices at any time and receive proceeds within six months. During the year ended December 31, 2021, the Company recorded an impairment of the COLI asset of $52.6 million, and an adjustment to deferred tax liabilities of $46.9 million, to reflect the terms of the settlement.

Fiduciary or Best Interest Standards - The U.S. Securities and Exchange Commission (SEC), Department of Labor (DOL), NAIC, and several states have taken action or are exploring options around a fiduciary standard or best interest standard that may impact the Company and its subsidiaries. If these rules do not align, the distribution of products by the Company and its subsidiaries could be further complicated.

In 2019, the SEC adopted a rulemaking package designed to enhance the quality and transparency of retail investors' relationships with investment advisers and broker-dealers. The rulemaking package included: Regulation Best Interest - the Broker-Dealer Standard of Conduct; the new Form CRS Relationship Summary; and two separate interpretations under the Investment Advisers Act of 1940. The heightened requirements for broker-dealers and investment advisers apply to recommendations and sales of variable and other registered insurance and annuity products. The Company believes the Regulation and the interpretations of the Regulation may impact the distribution of its subsidiaries' products through third party broker-dealers that distribute the products to retail customers, the impact of which is still being determined.

The NAIC adopted the Suitability in Annuity Transactions Model Regulation (SAT), which places responsibilities upon issuing insurance companies with respect to the suitability of annuity sales, including responsibilities for training agents. On February 13, 2020, the SAT was amended to incorporate a "best interest" or similar standard with respect to the suitability of annuity sales. The amendments include a requirement for producers to act in the "best interest" of a consumer when making a recommendation of an annuity. A producer is considered to have acted in the best interest of the customer if they have satisfied certain prescribed obligations regarding care, disclosure, conflict of interest and documentation. State adoption of these revisions, and any future changes in such laws and regulations, may impact the way our US insurance subsidiaries market and sell their annuity products. Several states, including Iowa, have adopted or are in the process of adopting a version of the amended SAT that includes a best interest standard. On July 22, 2018, separate and apart from the NAIC, the NYDFS issued amendments to its SAT regulation to incorporate a "best interest" standard with respect to the suitability of life insurance and annuity sales. The amendments made by NYDFS are currently the subject of litigation. Other states, including California, could also adopt a "best interest" or other standard separate from the NAIC's SAT. Future changes in such laws and regulations, including those that impose a "best interest" standard, may impact the way the Company and its subsidiaries market and sell annuity products.

In April 2016, the DOL issued regulations expanding the definition of "investment advice" and broadening the circumstances under which distributors and manufacturers of insurance and annuity products could be considered "fiduciaries" and subject to certain standards in providing advice. These regulations were vacated effective June 2018. Thereafter, the DOL issued proposed regulatory action to address the vacated definition and to reinstate the pre-2016 regulatory definition of fiduciary advice on December 15, 2020. In the preamble to Prohibited Transaction Exemption (PTE) 2020-02, however, the DOL announced a new interpretation of parts of the regulation that broadens the circumstances under which producers, including insurance producers, could be considered fiduciaries under ERISA in connection with recommendations to "rollover" assets from a qualified retirement plan to an IRA or from an IRA to another IRA. For this purpose, "IRA" includes individual retirement annuities. This guidance reverses an earlier DOL interpretation suggesting that rollover advice by someone who was not already a fiduciary to a plan did not constitute investment advice giving rise to a fiduciary relationship. In connection with the broadened application of the fiduciary definition, the DOL's PTE 2020-02 allows fiduciaries to receive compensation in connection with providing investment advice, including advice about rollovers, that would otherwise be prohibited as a result of their fiduciary relationship to the ERISA Plan, a participant in the ERISA Plan, or an IRA owner. The DOL has indicated they intend to issue further guidance or regulations with regards to these types of annuity sales. The Company and its subsidiaries continue to monitor the situation and will be reviewing whatever is issued to determine how it might apply to and impact our business.

In addition to the cases previously discussed, the Company is routinely involved in litigation and other proceedings, reinsurance claims and regulatory proceedings arising in the ordinary course of its business. At present, no contingencies related to pending litigation and regulatory matters are considered material in relation to the financial position of the Company.

Transfers into and out of Level 3 represent securities which are carried at lower of cost or fair value resulting in periodic transfers into and out of Level 3 financial instruments which are characterized as carried at fair value.

(3) Transfers between fair value hierarchy levels are recognized at the end of the period in which the transfer occurs.

(4) The following discussion describes the valuation methodologies and inputs used for assets and liabilities measured and disclosed at fair value. The techniques utilized in estimating the fair values of financial instruments are reliant on the assumptions used.

Fair value estimates are based on quoted market prices when available. When quoted market prices are not available, the Company utilizes commercially available pricing vendors that utilize observable market inputs, like recent trading activity, to derive fair value. When vendor prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Company estimates the fair value using methods, models and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect risk inherent in a particular methodology, model or input employed.

The Company's financial assets and liabilities carried at estimated fair value have been classified, for disclosure purposes, based on a hierarchy defined by current accounting guidance. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

The levels of the fair value hierarchy are as follows:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2 - Quoted prices for inactive markets or valuation techniques that require observable direct or indirect inputs for substantially the full term of the asset or liability.

  Level 2 inputs include the following:
  1. Quoted prices for similar assets or liabilities in active markets,

20. Fair Value Measurements (Continued)

2. Observable inputs other than quoted market prices, and
3. Observable inputs derived principally from market data through correlation or other means.

- Level 3 - Prices or valuation techniques with unobservable inputs significant to the overall fair value estimate. These valuations use critical assumptions not readily available to market participants. Level 3 valuations are based on market standard valuation methodologies, including discounted cash flows, matrix pricing, or other similar techniques.

Assets and liabilities are valued as discussed below in part C.

Bonds and short-term investments – The Company obtains the fair value for most marketable, public bonds without an active market from several commercial pricing services. These are classified as Level 2 assets. The pricing services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers, and other reference data. If the Company cannot value a public bond with a commercial pricing vendor, the Company obtains broker quotes (or utilizes an internally-developed model) and are considered to be Level 3. The Company values privately placed bonds based on the credit quality and duration of comparable marketable securities, which may be securities of another issuer. In some instances, the Company uses a matrix-based pricing model. These models consider the current level of risk-free interest rates, corporate spreads, credit quality of the issuer, and cash flow characteristics of the security. Privately placed fixed maturity securities are classified as Level 2 or 3.

Preferred stocks and common stocks unaffiliated – The Company values equity securities, typically private equities or equity securities not traded on an exchange, using several commercial pricing services or an internal model. The securities priced by a commercial pricing service are classified as Level 2 and the securities priced by an internal model are classified as Level 3. In addition, unaffiliated common stocks include FHLB stock, which is carried at fair value, which is presumed to be par because it can only be redeemed by the bank and is classified as Level 2.

Mortgage loans – The Company estimates mortgage loans on a monthly basis using discounted cash flow analysis and rates being offered for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations. The discounted cash flow model uses unobservable inputs, including estimates of discount rates and loan prepayments. Mortgage loans are classified as Level 3.

Policy loans – The fair value of policy loans classified as Level 2 is equal to the carrying value of the loans, which are collateralized by the cash surrender value of the associated insurance contracts.

Derivatives – Derivative contracts can be exchange traded or over-the-counter. Over-the-counter derivatives are valued using valuation models or an income approach using third-party broker valuations. Valuation models require a variety of inputs, including contractual terms, market prices, yield curves, measures of volatility, prepayment rates, and correlation of the inputs. The Company considers and incorporates counterparty credit risk in the valuation process through counterparty credit rating requirements and monitoring of overall exposure. The Company also evaluates and includes its own nonperformance risk in valuing derivatives. The majority of the Company's derivatives trade are in liquid markets; therefore, the Company can verify model inputs and model selection does not involve significant management judgment and are classified within Level 2. If the Company cannot verify model inputs and model selection does involve significant management judgment, the derivatives are classified as Level 3.

Notes to the Financial Statements

20. Fair Value Measurements (Continued)

Other invested assets – Within other invested assets, partnerships are valued based on net asset value information provided by the general partner or related asset manager. These partnership interests usually include multiple underlying investments for which either observable market prices or other valuation methods are used to determine the fair value. These investments are reported in the Net Asset Value (NAV) column. Other than partnerships, other invested assets may include surplus notes and other investments with bond or stock characteristics and the Company attempts to value these using several commercial pricing services, which would be classified as Level 2 assets. If the Company cannot value with a commercial pricing vendor, the Company obtains broker quotes (or utilizes an internally-developed model) and are considered to be Level 3 assets.

Separate account assets (variable products) – Separate account assets classified as Level 2 are valued based on the fair value of the underlying funds. Fair values and changes in the fair values of the underlying funds accrue directly to the policy owners and are not included in the Company's revenues and expenses or surplus.

Separate account assets (group annuity) – Financial instruments within this separate account classified as Level 2 and 3 or included in the NAV column are valued using the same fair value assumptions and methods utilized in the general account.

Repurchase agreements - The carrying value of the repurchase agreements liability approximates fair value and is reported as level 2.

Deposit-type contracts (including separate account group annuity and funding agreements) – Deposit-type contracts classified as Level 3 include single premium immediate annuities (SPIA) and supplemental contracts. Fair value of SPIA and supplemental contracts are calculated by discounting best estimate cash flows based on market interest rate assumptions. Fair value of funding agreements are calculated by discounting future cash flows using market rates on the valuation date, and are classified as Level 2.

D. Not Practicable to Estimate Fair Value - None

E. Nature and Risk of Investments Reported at NAV

The Company invests in certain non-fixed income, alternative investments in the form of limited partnerships (investment funds) which are reported at NAV. Adjustments to the carrying amount reflect the Company's pro rata ownership percentage of the operating results as indicated by NAV in the investment fund financial statements. The NAV from the investment fund financial statements can be on a lag of up to three months when investee information is not received in a timely manner. These investments are listed in the NAV column of the fair value tables above as this is the primary method for reporting fair value for these investments.

As of June 30, 2022, the Company's general and separate accounts have $4,337.4 million unfunded commitments to invest in these investment funds. See Note 6 for additional details on the Company's reporting of unfunded commitments.

Subsequent events have been considered through August 12, 2022 for the statutory statement dated June 30, 2022.

23. Reinsurance

The Company entered into a modified coinsurance agreement effective January 1, 2022 with AARe, pursuant to which it cedes a quota share, specified by the Company, of certain of the Company's retail annuity business issued on or after January 1, 2022. This treaty is applied prior to any further cession of this business under other treaties. Modified coinsurance reserves were $877.3 million as of June 30, 2022.

Effective January 1, 2022, the Company recaptured a modified coinsurance agreement from Transamerica Life Insurance Company that ceded a block of annuity policies. The modified coinsurance reserves recaptured were $72.1 million as of January 1, 2022.

The Company entered into a coinsurance agreement on January 1, 2018 with AADE, pursuant to which it ceded to AADE a 50% quota share of all of the Company's retail annuity business issued between January 1, 2018 and December 31, 2021 (excluding the Company's registered indexed linked annuities). This treaty had applied prior to any further cession of this business under other treaties. The Company has recognized a reserve credit of $13,545.1 million as of December 31, 2021 for this block. Effective January 1, 2022, the Company recaptured the payout annuities ceded to AADE under this reinsurance agreement. Coinsurance reserves for the payout annuities recaptured by the Company were $135.4 million as of January 1, 2022.
