For questions or further information about ME₂C, please contact Kevin McGrath, TraDigital IR, or submit your request via email to kevin@tradigitalir.com

About ME₂C® Environmental

ME₂C Environmental is a leading environmental technologies company developing and delivering patented and proprietary solutions to the global power industry. ME₂C's leading-edge mercury emissions services have been shown to achieve emissions removal at a significantly lower cost and with less operational impact than currently used methods, while maintaining and/or increasing power plant output and preserving the marketability of byproducts for beneficial use. ME₂C Environmental is a trade name of Midwest Energy Emissions Corp. For more information, please visit <http://www.me2cenvironmental.com/>.

Safe Harbor Statement

With the exception of historical information contained in this press release, content herein contains "forward-looking statements" that are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995, including without limitation, our preliminary revenue guidance for 2022 and related projections and statements regarding our ability to meet such projections in the anticipated timeframe, if at all. Forward-looking statements are generally identified by using words such as "anticipate," "believe," "plan,"

"expect," "intend," "will," and similar expressions, but these words are not the exclusive means of identifying forward-looking statements. These statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Investors are cautioned that forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from the statements made. Matters that may cause actual results to differ materially from those in the forward-looking statements include, among other factors, the gain or loss of a major customer, change in environmental regulations, disruption in supply of materials, capacity factor fluctuations of power plant operations and power demands, a significant change in general economic conditions in any of the regions where our customer utilities might experience significant changes in electric demand, a significant disruption in the supply of coal to our customer units, the loss of key management personnel, availability of capital and any major litigation regarding ME₂C Environmental.

In addition to the foregoing, statements with respect to our preliminary revenue guidance for 2022, related projections and statements regarding our ability to meet such projections in the anticipated timeframe, represent management's good faith estimates and expectations. Such guidance is based upon certain assumptions, including, but not limited to, that additional license agreements will be entered into following the date of this release during 2022, new supply customers will be obtained in 2022 and that certain current licensees of our patented technologies who are not current supply customers will transition to purchasing products from us in 2022. Such assumptions may prove to be incorrect and actual results may differ materially from those anticipated. Consequently, guidance cannot be guaranteed. As such, investors are cautioned not to place undue reliance upon guidance as there can be no assurance that the plans, assumptions or expectations upon which they are placed will occur.

All forward-looking statements speak only as of the date of this release. ME₂C Environmental does not undertake any obligation to publicly update or revise any forward-looking statements to reflect future events, information or circumstances that arise after the date of this release. Further information concerning issues that could materially affect financial performance related to forward-looking statements contained in this release can be found in ME₂C Environmental's periodic filings with the Securities and Exchange Commission.
