CARSON, Calif., May 7, 2013 /PRNewswire/ -- U.S. Auto Parts Network, Inc. (NASDAQ: PRTS), one of the largest online providers of automotive aftermarket parts and accessories, today reported net sales for the first quarter ended March 30, 2013 ("Q1 2013") of \$65.4 million compared with the first quarter ended March 31, 2012 ("Q1 2012") net sales of \$87.4 million, a decrease of 25.2% from Q1 2012 net sales. Q1 2013 net loss was \$3.3 million or \$0.11 per share, compared with Q1 2012 net loss of \$0.8 million or \$0.03 per share. The Company generated Adjusted EBITDA (EBITDA plus share-based compensation expense and restructuring costs) of \$1.5 million for Q1 2013 compared to \$4.2 million for Q1 2012. For further information regarding Adjusted EBITDA, including a reconciliation of net loss to Adjusted EBITDA, see non-GAAP Financial Measures below.

"This quarter, we successfully completed measures to strengthen the Company's balance sheet and continue to implement strategies to return to profitable growth," stated Shane Evangelist.

Q1 2013 Financial Highlights

- Net sales decreased to \$65.4 million for Q1 2013 compared to \$87.4 million for Q1 2012. Our Q1 2013 net sales consisted of online sales, representing 89.6% of the total (compared to 93.4% in Q1 2012), and offline sales, representing 10.4% of the total (compared to 6.6% in Q1 2012). The net sales decrease was primarily due to a decline of \$23.0 million, or 28.2%, in online sales, partially offset by a \$1.0 million, or 17.6%, increase in offline sales. Online sales decreased primarily due to a 23.2% reduction in e-commerce unique visitors. Our offline sales, which consist of our Kool-View™ and wholesale operations, continued to show solid growth.
- Gross profit decreased \$6.9 million, or 25.9%, in Q1 2013 compared to Q1 2012. Gross margin rate decreased 0.3% to 30.2% in Q1 2013 compared to 30.5% in Q1 2012. Gross margin was unfavorably impacted by higher freight and warehouse supplies expense partially offset by higher selling margins from higher penetration of sales from our private label business.
- Marketing expense was \$11.2 million, or 17.1%, of net sales in Q1 2013, down from \$13.5 million, or 15.4%, of net sales in Q1 2012. Online advertising expense, which includes catalog costs, was \$4.3 million, or 7.4%, of online sales for Q1 2013, compared to \$6.1 million, or 7.4%, of online sales for Q1 2012. Online advertising expense decreased primarily due to the reduction in our non-catalog online advertising

expenses, which includes listing and placement fees paid to commercial and search engine websites, of \$1.7 million as we adjusted our spend on lower sales volume. Marketing expense, excluding online advertising, was \$6.9 million, or 10.5%, of net sales for Q1 2013, compared to \$7.4 million, or 8.4%, of net sales for Q1 2012. The decline was primarily due to lower call center wages of \$1.0 million partially offset by higher depreciation and amortization expense of \$0.2 million and restructuring costs related to employee severance of \$0.3 million.

- General and administrative expense was \$4.7 million, or 7.2%, of net sales in Q1 2013, down from \$5.9 million, or 6.7%, of net sales for Q1 2012. The decrease of \$1.2 million, or 20.2%, for Q1 2013 compared to Q1 2012, was due to lower depreciation and amortization expense of \$0.4 million and lower merchant fees of \$0.5 million.
- Fulfillment expense was \$5.4 million, or 8.2%, of net sales in Q1 2013 compared to \$5.9 million, or 6.8%, of net sales in Q1 2012.
- Technology expense was \$1.5 million, or 2.3%, of net sales in Q1 2013, compared to \$1.5 million, or 1.8%, of net sales in Q1 2012.
- Capital expenditures for Q1 2013 were \$2.6 million.
- Cash and cash equivalents and investments were \$1.3 million and total debt was \$12.2 million as of March 30, 2013 compared to \$1.0 million and \$16.4 million as of December 29, 2012.

Non-GAAP Financial Measures

Regulation G, "Conditions for Use of Non-GAAP Financial Measures" and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest expense, net; (b) income tax provision; (c) depreciation and amortization expense; (d) amortization of intangible assets; (e) share-based compensation expense; and (f) restructuring costs.

The Company believes that this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measure reflect an additional way of viewing aspects of the Company's operations that, when viewed

with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as a measure of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of items not directly resulting from core operations. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; for evaluating the effectiveness of operational strategies; and for evaluating the Company's capacity to fund capital expenditures and expand its business. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the overall operating performance of companies in our industry. Additionally, lenders or potential lenders use Adjusted EBITDA to evaluate the Company's ability to repay loans.

This non-GAAP financial measure is used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.
