U.S. Auto Parts Reports Second Quarter 2017 Results

CARSON, Calif., Aug. 10, 2017 /PRNewswire/ -- U.S. Auto Parts Network, Inc. (NASDAQ: PRTS), one of the largest online providers of aftermarket automotive parts and accessories, reported results for the second quarter ended July 1, 2017. All information and data are from continuing operations, which exclude the AutoMD operating segment unless specifically noted.

Second Quarter 2017 Financial Summary vs. Year-Ago Quarter

- Net sales increased 3% to \$80.2 million compared to \$78.0 million.
- Gross margin was 29.0% compared to 30.4%.
- Net income was \$26.9 million, or \$0.67 per diluted share, compared to \$1.2 million or \$0.03 per diluted share.
- Adjusted EBITDA (a non-GAAP measure defined below) was \$3.8 million compared to \$4.0 million.
- Ended the quarter with no revolver debt.

Second Quarter 2017 Operational Highlights vs. Year-Ago Quarter

- Total online orders increased by 11% to 954,000 orders.
- Conversion rate increased 20 basis points to 2.0%.
- Customer acquisition cost reduced by 7% to \$6.99.

Management Commentary

"Our second quarter was highlighted by the return to double-digit growth in our private label business, largely driven by a 37% increase in online marketplace sales," said Aaron Coleman, CEO of U.S. Auto Parts. "Despite lower sales in our e-commerce channel, we still increased overall sales and grew total online orders by 11%, while improving conversion and reducing customer acquisition cost.

"We are continuing to experience a shift in channel mix this year, with our lower-margin online marketplace channel gaining momentum and our e-commerce channel experiencing lower traffic. We are addressing these channel dynamics with various initiatives, including a new e-commerce traffic optimization strategy and prudent cost management across the entire organization, which is further reflected by the 130 basis point reduction of operating expenses.

"Looking ahead to the remainder of 2017, we expect the deployment of these initiatives to help drive improved results as we exit the year. But regardless of the sales channel, we plan to continue capitalizing on industry tailwinds as more and more consumers shop online for auto parts, be it through third-party sites like Amazon and eBay, or our e-commerce sites."

Second Quarter 2017 Financial Results

Net sales in the second quarter of 2017 increased 3% to \$80.2 million compared to \$78.0 million in the year-ago quarter. The increase was largely driven by a 37% increase in online marketplace sales to \$28.3 million, partially offset by a 13% decrease in e-commerce sales.

Gross profit in the second quarter of 2017 was \$23.2 million compared to \$23.7 million in the year-ago quarter. As a percentage of net sales, gross profit was 29.0% compared to 30.4% in the year ago quarter. The decrease in gross margin was primarily driven by lower-margin channel mix and higher freight costs. The company continues to expect gross margin to range between 29-30% going forward.

Total operating expenses in the second quarter were reduced to \$21.7 million compared to \$22.1 million in the second quarter of last year. As a percentage of net sales, operating expenses decreased 130 basis points to 27.1% compared to 28.4% in the year ago quarter as a result of lower call center and marketing expenses.

Net income in the second quarter was \$26.9 million, or \$0.67 per diluted share, compared to \$1.2 million or \$0.03 per diluted share in the year-ago period. The significant increase was driven by the release of a valuation allowance from the company's cumulative net operating losses, which resulted in a \$25.9 million tax credit.

Adjusted EBITDA in the second quarter of 2017 was \$3.8 million compared to \$4.0 million in the year-ago quarter.

At July 1, 2017, cash and cash equivalents totaled \$9.9 million compared to \$2.7 million at December 31, 2016. The company also continued to have no revolver debt at July 1, 2017.

2. Revenue capture is the amount of actual dollars retained after taking into consideration returns, credit card declines and product fulfillment and excludes online marketplaces and media properties (e.g. AutoMD).

2017 Outlook

U.S. Auto Parts continues to expect net sales to be up low to mid-single digits on a percentage basis compared to 2016. However, due to the aforementioned tax credit and channel mix issues, the company now expects net income to range between \$27.0 million and \$29.0 million, which compares to the company's previously issued guidance of \$4.8 million to \$7.8 million. U.S. Auto Parts also now expects adjusted EBITDA to range between \$13.0 million and \$15.0 million, which compares to its previously issued guidance of \$15.0 million to \$18.0 million. The reduced outlook for adjusted EBITDA reflects the company's year-to-date performance, recent channel mix trends and additional projected freight-related

expenses, as well as an increase in compliance costs related to its upcoming accelerated filer status.

Non-GAAP Financial Measures

Regulation G, and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest expense, net; (b) income tax provision; (c) depreciation and amortization expense; (d) amortization of intangible assets; and (e) share-based compensation expense.

The Company believes that this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measures reflect an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as one measure of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of stock compensation expense, as well as items that are not expected to be recurring. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; and for evaluating the effectiveness of operational strategies. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the ongoing operations of companies in our industry.

This non-GAAP financial measure is used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.

Safe Harbor Statement

This press release contains statements which are based on management's current expectations, estimates and projections about the Company's business and its industry, as well as certain assumptions made by the Company. These statements are forward looking statements for the purposes of the safe harbor provided by Section 21E of the Securities Exchange Act of 1934, as amended and Section 27A of the Securities Act of 1933, as amended. Words such as "anticipates," "could," "expects," "intends," "plans," "potential," "believes," "predicts," "projects," "seeks," "estimates," "may," "will," "would," "will likely continue" and variations of these words or similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to, the Company's expectations regarding its future operating results and financial condition, impact of changes in our key operating metrics, our potential growth and our liquidity requirements. We undertake no obligation to revise or update publicly any forward-looking statements for any reason. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict. Therefore, our actual results could differ materially and adversely from those expressed in any forward-looking statements as a result of various factors.

Important factors that may cause such a difference include, but are not limited to, competitive pressures, our dependence on search engines to attract customers, demand for the Company's products, the online market and channel mix for aftermarket auto parts, the

economy in general, increases in commodity and component pricing that would increase the Company's product costs, the operating restrictions in our credit agreement, the weather, and any other factors discussed in the Company's filings with the Securities and Exchange Commission (the "SEC"), including the Risk Factors contained in the Company's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, which are available at www.usautoparts.net and the SEC's website at www.sec.gov. You are urged to consider these factors carefully in evaluating the forward-looking statements in this release and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by this cautionary statement. Unless otherwise required by law, the Company expressly disclaims any obligation to update publicly any forward-looking statements, whether as result of new information, future events or otherwise.
