

COMPANY OVERVIEW

Capstone Green Energy Corporation is a leading provider of customized microgrid solutions and on-site energy technology systems focused on helping customers around the globe meet their carbon reduction, energy savings and resiliency goals.

Capstone Green Energy focuses on four key business segments. Through its Energy as a Service (EaaS) business, it offers rental solutions for its microturbine energy systems and battery storage systems as well as aftermarket parts and comprehensive service contracts through a comprehensive Factory Protection Plan (FPP) product. Energy Conversion Products are driven by the company's industry-leading, highly efficient, low-emission, resilient microturbine energy systems offering scalable solutions in addition to a broad range of customer-tailored solutions, including hybrid energy systems and larger frame industrial turbines Baker Hughes. The Energy Storage Products segment designs and installs microgrid storage systems creating customized solutions using a combination of battery technologies and monitoring software. Through Hydrogen Energy Solutions, Capstone Green Energy offers customers a variety of hydrogen products, including the company's microturbine energy system.

To date, Capstone has shipped over 10,000 units to 83 countries and in FY21, saved customers an estimated \$217 million in annual energy costs and 397,000 tons of carbon. Total savings over the last three years are estimated at 1,115,100 tons of carbon and \$698 million in annual energy savings.
