About Chromocell

Chromocell Therapeutics Corporation is a clinical-stage biotechnology company focused on developing and commercializing novel, non-opioid, non-addictive therapeutics to alleviate pain. The Company's initial clinical focus is to selectively target the sodium ion-channel known as NaV1.7 for the treatment of various types of chronic neuropathic pain and acute and chronic eye pain. For company updates and to learn more about Chromocell, visit www.chromocell.com or follow us on social media.

Forward-Looking Statements

This press release contains forward-looking statements regarding the Company's current expectations. These forward-looking statements include, without limitation, references to the Company's expectations regarding (i) the amount of shares of Common Stock to be repurchased under the Repurchase Plan, if any, (ii) the Company's belief that the trading price of its Common Stock does not reflect its clinical progress, (iii) the Company's plans and ability to successfully develop and commercialize compounds, (iv) the Company's belief that its portfolio of therapeutics will be suitable for neuropathic and chronic pain, (v) the Company's plan and ability to successfully develop its intellectual properly independently or with partners, (vi) the Company's ability to conduct repurchases in accordance with applicable laws and regulations, (vii) our ability to enhance stockholder value and (viii) the impact of laws and regulations. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict.

Factors that could cause actual results to differ materially from those set forth in such forward-looking statements include, but are not limited to, risks and uncertainties related to (i) the Company expending its limited resources to pursue a compound or indication and failing to capitalize on different compounds or indications that may be more profitable or for which there is a greater likelihood of success and the Company potentially not being successful in discovering, developing and commercializing additional compounds, (ii) the Company needing to establish its market development capabilities to commercialize its products with the failure to do so potentially resulting in an inability to generate any revenue, (iii) there being no guarantee that the trading price of the Company's Common Stock will be indicative of the Company's clinical progress, and (iv) the Company's ability to successfully develop its intellectual property and portfolio. These and other risks and uncertainties are described more fully in in our filings with the U.S. Securities and Exchange Commission. The information in this press release is provided only as of the date of this press release, and we undertake no obligation to update any forward-looking statements contained in this press release based on new information, future events, or otherwise, except as required by law.
