InfuSystem Paperless Solutions Enhance Efficiency

MADISON HEIGHTS, Mich., April 14, 2011 (GLOBE NEWSWIRE) --*InfuSystem Holdings, Inc.* (NYSE Amex:INFU), the leading provider of infusion pumps and associated products and services, today announced the availability of its secure, compliant, paperless solutions. These new solutions allow facilities to create physician work order forms and view treatment logs and patient information. InfuSystem paperless offerings work with customer's existing workflow and systems and can be accessed anywhere, anytime, from any internet-enabled device.

Customers can increase efficiency by reducing time spent completing traditional paper forms. The process is simplified by linking information across forms and allowing users to add comments and submit corrections instantly. "Reducing the use of paper forms is an important initiative for our customers. We've taken the time to develop a paperless system that's both easy to use and fulfills payers' documentation and compliance requirements. We're confident our offering is the most flexible, secure and compliant paperless solution available," says Sean McDevitt, Chairman and CEO of InfuSystem.

Paperless solutions from InfuSystem are customizable and available across platforms and devices. The secure system protects the privacy of patient data and adheres to patient data compliance regulations. Gaining access to InfuSystem paperless solutions is simple—registration can be done on the website and customers can be up and running quickly. "We've found the system to be very intuitive, and the support team has been extremely responsive to our needs. It's the same service and innovation we've come to expect from InfuSystem," stated Marie Garcia, RN OCN, Director of Clinical Services at Virginia Cancer Specialists.
