Vuzix Receives Follow-On Smart Glasses Order from Augmex to Support Its U.S. Market Launch

Order supports enterprise deployments across warehousing, logistics and field service applications with Vuzix M400 and LX1 smart glasses

ROCHESTER, N.Y., Aug. 11, 2026 /PRNewswire/ -- Vuzix® Corporation (NASDAQ: VUZI), a leading supplier of smart glasses, waveguides and augmented reality technologies, today announced that it has received an additional smart glasses order from Augmex, a smart glasses solutions provider focused on helping enterprise customers improve productivity, training and workflow execution.

The order includes Vuzix M400 and LX1 smart glasses and continues a series of orders received from Augmex since December 2024. The latest order is expected to support Augmex's launch of its solutions in the United States, as well as continued deployments across multiple enterprise verticals.

Augmex bundles Vuzix smart glasses with its software and services to deliver integrated solutions for customers in areas such as warehousing, logistics, field service and other hands-free workflow applications.

"We're excited to deepen our collaboration with Vuzix as we bring their wearable technology to an expanding network of customers and partners, now including the United States," said

Lars Heemskerk, Founder and CEO of Augmex. "The combination of our software and Vuzix smart glasses creates a practical enterprise solution designed to drive efficiency gains, particularly in warehousing, logistics and field service environments."

"Augmex has become a growing partner for Vuzix in Europe, and this additional order supporting its U.S. launch reflects both the strength of our collaboration and the continued interest we are seeing in enterprise smart glasses solutions," said Paul Travers, President and CEO of Vuzix. "Augmex's focus on simplicity, integration, and customer productivity helps make smart glasses easier for enterprise customers to adopt. We look forward to supporting their expansion as they bring Vuzix-based solutions to more organizations across Europe and the United States."
