

Company Overview

Nightfood is pioneering the nighttime snack category.

Over 80% of Americans snack regularly at night, resulting in an estimated 700 million nighttime snack occasions weekly, and an annual spend on night snacks of over \$50 billion.

The most popular choices are ice cream, cookies, chips, and candy. Recent research confirms such snacks, in addition to being generally unhealthy, can impair sleep, partly due to excess fat and sugar consumed before bed.

Nightfood's sleep-friendly snacks are formulated by sleep and nutrition experts to contain less of those sleep-disruptive ingredients, along with a focus on ingredients and nutrients that research suggests can support nighttime relaxation and better sleep quality.

At Nightfood, we believe we're pioneering the next multi-billion dollar category, changing the way regular people snack at night.
