- (8) Assets held for clients in an agency or fiduciary capacity which are not assets of the Company and therefore are not included in the consolidated financial statements.
- (9) In the three months ended September 30, 2022, June 30, 2022, March 31, 2022, December 31, 2021 and September 30, 2021, net income exclude losses of \$44 thousand, \$0.1 million, \$1.1 million, \$1.2 million and \$0.6 million, respectively, attributable to the minority interest of Amerant Mortgage LLC. - (10) This presentation contains adjusted financial information determined by methods other than GAAP. This adjusted financial information is reconciled to GAAP in Exhibit 2 Non-GAAP Financial Measures Reconciliation.
- (11) In all the periods shown, potential dilutive instruments consisted of unvested shares of restricted stock, restricted stock units and performance stock units. Potential dilutive instruments were included in the diluted earnings per share computation because, when the unamortized deferred compensation cost related to these shares was divided by the average market price per share in all the periods shown, fewer shares would have been purchased than restricted shares assumed issued. Therefore, in those periods, such awards resulted in higher diluted weighted average shares outstanding than basic weighted average shares outstanding, and had a dilutive effect in per share earnings.
- (12) Operating data for the periods presented have been annualized.
- (13) NIM is defined as NII divided by average interest-earning assets, which are loans, securities, deposits with banks and other financial assets which yield interest or similar income.
- (14) Calculated based upon the average daily balance of total assets.
- (15) Calculated based upon the average daily balance of stockholders' equity.
- (16) Total revenue is the result of net interest income before provision for loan losses plus noninterest income.
- (17) Total stockholders' equity divided by total risk-weighted assets, calculated according to the standardized regulatory capital ratio calculations.
- (18) Tier 1 capital divided by total risk-weighted assets. Tier 1 capital is composed of Common Equity Tier 1 (CET1) capital plus outstanding qualifying trust preferred securities of \$62.3 million at each of all the dates presented.
- (19) Tier 1 capital divided by quarter to date average assets.
- (20) CET1 capital divided by total risk-weighted assets.
- (21) Tangible common equity ratio is calculated as the ratio of common equity less goodwill and other intangibles divided by total assets less goodwill and other intangible assets. Other intangible assets consist of, among other things, mortgage servicing rights and are included in other assets in the Company's consolidated balance sheets.
- (22) Non-performing assets include all accruing loans past due by 90 days or more, all

nonaccrual loans, restructured loans that are considered "troubled debt restructurings" or "TDRs", and OREO properties acquired through or in lieu of foreclosure.

- (23) Non-performing loans include all accruing loans past due by 90 days or more, all nonaccrual loans and restructured loans that are considered TDRs.
- (24) Calculated based upon the average daily balance of outstanding loan principal balance net of unamortized deferred loan origination fees and costs, excluding the allowance for loan losses. During the third, second and first quarters of 2022, and the fourth and third quarters of 2021, there were net charge offs of \$1.3 million, \$4.0 million, \$3.8 million, \$7.0 million and \$15.7 million, respectively. During the third guarter of 2022, the Company charged-off \$1.7 million related to multiple consumer loans and \$0.2 million in connection with two commercial loans. During the second quarter of 2022, the Company charged-off \$3.6 million in connection with a loan relationship with a Miami-based U.S. coffee trader ("the Coffee Trader"). During the first quarter of 2022, the Company charged-off \$3.3 million in two commercial loans, including \$2.5 million related to a nonaccrual loan paid off during the period. During the fourth guarter of 2021, the Company charged-off an aggregate of \$4.2 million related to various commercial loans and \$1.8 million related to one real estate loan. During the third quarter of 2021, the Company charged-off \$5.7 million against the allowance for loan losses as result of the deterioration of one commercial loan relationship. (25) Other operating expenses is the result of total noninterest expense less salary and employee benefits.
- (26) Efficiency ratio is the result of noninterest expense divided by the sum of noninterest income and NII.
- (27) As of September 30, 2022, June 30, 2022, March 31, 2022, December 31, 2021 and September 30, 2021 includes 67, 67, 79, 72 and 52 FTEs for Amerant Mortgage LLC, respectively. In addition, effective January 1, 2022, there were 80 employees who are no longer working for the Company as a result of the new agreement with Fidelity National Information Services, Inc. ("FIS").
- (28) Core efficiency ratio is the efficiency ratio less the effect of restructuring costs and other adjustments, described in Exhibit 2 Non-GAAP Financial Measures Reconciliation.

#### **Exhibit 2- Non-GAAP Financial Measures Reconciliation**

The following table sets forth selected financial information derived from the Company's interim unaudited and annual audited consolidated financial statements, adjusted for certain costs incurred by the Company in the periods presented related to tax deductible restructuring costs, provision for (reversal of) loan losses, provision for income tax expense (benefit), the effect of non-core banking activities such as the sale of loans and securities, the valuation of securities, derivatives, loans held for sale and other real estate owned, the sale and leaseback of our corporate headquarters in the fourth quarter of 2021, and other non-routine actions intended to improve customer service and operating performance. The Company believes these adjusted numbers are useful to understand the Company's performance absent these transactions and events.

- (10) In the three months ended March 31, 2022 and in the nine months ended September 30, 2022 and 2021, amounts were calculated based upon the effective tax rate for the periods of 21.10%, 21.50% and 22.74%, respectively. For all of the other periods shown, amounts represent the difference between the prior and current period year-to-date tax

#### effect.

(11) In the three months ended September 30, 2022, June 30, 2022, March 31, 2022, December 31, 2021 and September 30, 2021, potential dilutive instruments consisted of unvested shares of restricted stock, restricted stock units and performance share units. In all the periods presented, potential dilutive instruments were included in the diluted earnings per share computation because, when the unamortized deferred compensation cost related to these shares was divided by the average market price per share in those periods, fewer shares would have been purchased than restricted shares assumed issued. Therefore, in those periods, such awards resulted in higher diluted weighted average shares outstanding than basic weighted average shares outstanding, and had a dilutive effect in per share earnings.

(12) Other intangible assets consist of, among other things, mortgage servicing rights ("MSRs") of \$1.0 million, \$0.9 million, \$0.9 million, \$0.6 million and \$0.6 million at September 30, 2022, June 30, 2022, March 31, 2022, December 31, 2021 and September 30, 2021, respectively, and are included in other assets in the Company's consolidated balance sheets.
