Legal disclaimers

These slides are being provided to assist readers in understanding the results of operations, financial condition and cash flows of United States Steel Corporation as of and for the second quarter 2022. Financial results as of and for the periods ended June 30, 2022 provided herein are preliminary unaudited results based on current information available to management. They should be read in conjunction with the consolidated financial statements and Notes to the Consolidated Financial Statements contained in our Annual Report on Form 10-K and Quarterly Reports on Form 10-Q filed with the Securities and Exchange Commission.

These slides contain information that may constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend the forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in those sections. Generally, we have identified such forward-looking statements by using the words “believe,” “expect,” “intend,” “estimate,” “anticipate,” “project,” “target,” “forecast,” “aim,” “should,” “plan,” “goal,” “future,” “will,” “may,” and similar expressions or by using future dates in connection with any discussion of, among other things, financial performance, the construction or operation of new and existing facilities, the timing, size and form of share repurchase transactions, operating performance, trends, events or developments that we expect or anticipate will occur in the future, statements relating to volume changes, share of sales and earnings per share changes, anticipated cost savings, potential capital and operational cash improvements, changes in global supply and demand conditions and prices for our products, international trade duties and other aspects of international trade policy, statements regarding our future strategies, products and innovations, statements regarding our greenhouse gas emissions reduction goals and statements expressing general views about future operating results. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. Forward-looking statements are not historical facts, but instead represent only the Company’s beliefs regarding future events, many of which, by their nature, are inherently uncertain and outside of the Company’s control. It is possible that the Company’s actual results and financial condition may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements. Management believes that these forward-looking statements are reasonable as of the time made. However, caution should be taken not to place undue reliance on any such forward-looking statements because such statements speak only as of the date when made. Our Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. In addition, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our Company’s historical experience and our present expectations or projections. These risks and uncertainties include, but are not limited to, the risks and uncertainties described in “Item 1A. Risk Factors” in our Annual report on Form 10-K for the year ended December 31, 2021 and those described from time to time in our future reports filed with the Securities and Exchange Commission.

The investment in direct reduced-grade (DR) pellets and expected timeline described herein are subject to state and local support and receipt of regulatory permitting. The proposed transaction with SunCoke Energy ("SunCoke") described herein is contingent upon several conditions, including the negotiation and execution of a definitive agreement, approval by the Board of Directors of U. S. Steel, and receipt of all appropriate regulatory approvals. There can be no assurance as to the final terms of the proposed transaction, that the conditions will be satisfied, or that the proposed transaction will be completed.

References to “U. S. Steel,” “the Company,” “we,” “us,” and “our” refer to United States Steel Corporation and its consolidated subsidiaries, and references to “Big River Steel” refer to Big River Steel Holdings LLC and its direct and indirect subsidiaries unless otherwise indicated by the context.
Explanation of use of non-GAAP measures

We present adjusted net earnings, earnings before interest, income taxes, depreciation and amortization (EBITDA) and adjusted EBITDA, which are non-GAAP measures, as additional measurements to enhance the understanding of our operating performance.

We believe that EBITDA, considered along with net earnings, is a relevant indicator of trends relating to our operating performance and provides management and investors with additional information for comparison of our operating results to the operating results of other companies.

Adjusted net earnings is a non-GAAP measure that excludes the effects of items that include: restructuring and other charges, asset impairment charges, gain on sale of Transtar, (gains) losses on assets sold & previously held investments, debt extinguishment, pension de-risking, environmental remediation charge, tax effect of the above items and other charges, net (Adjustment Items). Adjusted EBITDA is also a non-GAAP measure that excludes the effects of certain Adjustment Items. We present adjusted net earnings and adjusted EBITDA to enhance the understanding of our ongoing operating performance and established trends affecting our core operations by excluding the effects of events that can obscure underlying trends.

U. S. Steel's management considers adjusted net earnings and adjusted EBITDA as alternative measures of operating performance and not alternative measures of the Company's liquidity. U. S. Steel's management considers adjusted net earnings and adjusted EBITDA useful to investors by facilitating a comparison of our operating performance to the operating performance of our competitors. Additionally, the presentation of adjusted net earnings and adjusted EBITDA provides insight into management’s view and assessment of the Company’s ongoing operating performance because management does not consider the Adjustment Items when evaluating the Company’s financial performance. Adjusted net earnings and adjusted EBITDA should not be considered a substitute for net earnings, earnings per diluted share or other financial measures as computed in accordance with U.S. GAAP and is not necessarily comparable to similarly titled measures used by other companies. We also present net debt, a non-GAAP measure calculated as total debt less cash and cash equivalents. We believe net debt is a useful measure in calculating enterprise value. A condensed consolidated statement of operations (unaudited), condensed consolidated cash flow statement (unaudited), condensed consolidated balance sheet (unaudited) and preliminary supplemental statistics (unaudited) for U. S. Steel are attached.
CURRENT LANDSCAPE

Bullish for 2022 and advancing towards our Best for All future

CHALLENGES

Transitioning to a less capital- and carbon-intensive business model while becoming the best steel competitor

SOLUTION

Balanced capital allocation strategy

PATH FORWARD

Expanding competitive advantages

Maintaining strong trade enforcement

Delivering on Best for All
Advancing towards our Best for All future
Delivering for all our stakeholders

Delivering profitable solutions
- Growing competitive advantages
- Improving through-cycle performance
- Developing quality products & customer process solutions

Best for people
- Leading safety performance
- Innovating for customers’ evolving needs
- Committed to a diverse, equitable, & inclusive culture

Best for planet
- Committed to our 20% 2030 GHG goal¹
- Targeting net zero emissions by 2050²
- Delivering sustainable steels today³

Provisioning customers with profitable steel solutions for people and planet

¹ 20% reduction in global greenhouse gas (GHG) emission intensity by 2030 for our scope 1 and scope 2 emissions, versus a 2018 baseline.
² Targeting net zero carbon emissions by 2050 for our scope 1 and scope 2 emissions.
³ Our mini mill steelmaking is capable of producing steel with up to 75% less CO2 emissions compared to the traditional, integrated steelmaking process.
Advancing towards our Best for All future
Growing competitive advantages

U. S. Steel’s Competitive Advantages:

LOW-COST IRON ORE

MINI MILL STEELMAKING

BEST-IN-CLASS FINISHING CAPABILITIES
Advancing towards our Best for All future

Expanding our iron ore capability

$60M Capital Spending

~500k Tons of Pig Iron Capability

~$30M Run-rate EBITDA by ‘24

Advantaged pig iron strategy

Annual production of up to 500k tons

Realizing efficiency synergies at Gary Works

Excess iron production at Gary Works to feed pig machine

Unique solution to supply Big River Steel

Expected to provide up to 50% of Big River Steel’s ore-based metallics needs

PIG IRON AT GARY
LOW-COST IRON ORE
Advancing towards our Best for All future
Expanding our iron ore capability

Proceeding with DR-grade¹ pellet capability building at Keetac

Investing in DR-grade pellet capability
Enabling Keetac to create DR-grade pellets while maintaining flexibility to produce blast furnace-grade pellets

Maintaining optionality while serving the growing EAF market
Optionality to (1) sell DR-grade pellets to DRI/HBI producers and/or (2) use to feed a potential future DRI/HBI² investment

Modest capital investment
Investing ~$150 million to expand our low-cost iron ore advantage; not expected to change the 2022 capital spending budget and will continue to prudently manage future capital spending in-line with strategic priorities

DR-GRADE PELLETS
LOW-COST IRON ORE

¹ DR-grade = Direct Reduced-grade.
² DRI/HBI = Direct Reduced Iron / Hot Briquetted Iron.

United States Steel Corporation
Note: Subject to state and local support and receipt of regulatory permitting. See “Legal disclaimers” slide.
Advancing towards our Best for All future
Expanding our iron ore capability

Progressing towards pig iron at Granite City Works

Mutually beneficial transaction structure
Non-binding letter of intent with SunCoke to acquire Granite City’s blast furnaces; producing pig iron for USS

Increasing self-sufficiency of EAF\(^1\) metallics
Working towards 40% self-sufficiency for EAF metallics needs

Well-timed with BR2 start-up
Pig iron facility expected to be operational in 2H 2024

Note: Subject to reaching a definitive agreement with SunCoke and other contingencies and approvals. See “Legal disclaimers” slide.

\(^1\) EAF = Electric Arc Furnace.
Advancing towards our Best for All future
Progressing towards pig iron at Granite City

SunCoke:

- Acquiring Granite City blast furnaces
  - supplying
  - Building 2 million tons of pig iron capability
  - Expected to be operational in 2H 2024

U. S. Steel:

- 100% Access to pig iron production
  - Agreement for 10 years of pig iron access
  - No capex required for U. S. Steel
    - Would eliminate $50+ million of historical annual sustaining capex for the Granite City complex

More detail on the following slide

United States Steel Corporation

Note: Subject to reaching a definitive agreement with SunCoke and other contingencies and approvals. See “Legal disclaimers” slide.

1 Based on 2018-2022E capex at Granite City. Includes sustaining capex for ironmaking, steelmaking, hot rolling, and finishing assets.
Advancing towards our Best for All future
Increasing self-sufficiency of Mini Mill metallics

Metallics needs of Mini Mill segment:

**TODAY¹:**

- **Prime Scrap** (internally sourced)
  - ~35%
- **Pig Iron**
  - ~25%
- **HBI / DRI**
  - ~10%
- **Prime Scrap** (outside purchased)
  - ~10%
- **Obsolete Scrap**
  - ~20%

**Sourced internally ~10%**

~15% excluding obsolete scrap

**2024²:**

- **Prime Scrap** (internally sourced)
  - ~40%
- **Pig Iron**
  - ~5%
- **HBI / DRI**
  - ~15%
- **Prime Scrap** (outside purchased)
  - ~5%
- **Obsolete Scrap**
  - ~35%

**Sourced internally ~40%**

~65% excluding obsolete scrap

**Note:** Subject to reaching a definitive agreement with SunCoke and other contingencies and approvals. See "Legal disclaimers" slide. ¹ Assumes Big River Steel’s 3.3 million net tons at 90% utilization. ² Assumes (a) Big River Steel’s 3.3 million net tons and BR2’s 3.0 million net tons (expected to come on-line in 2024) at 90% utilization, (b) execution of definitive documentation with SunCoke in 2022, completed in 2H 2024, and (c) completion of the Gary Work pig iron machine in 1H 2023. Future metallics mix subject to changes in product mix.
Advancing towards our Best for All future
Expanding our mini mill steelmaking advantage

~$3B
Capital Spending

~3M
Tons of Raw Steel Capability

~$650M
Run-rate EBITDA by ‘26

Comprehensive suite of finishing assets
AHSS galvanizing / hot-roll galvanizing / painting / slitting

Expanding our sustainable steel offering
Reducing our carbon intensity further

Groundbreaking held in February 2022
Purchased longer lead-time equipment in 2021

BR2
MINI MILL STEELMAKING

1 Our mini mill steelmaking is capable of producing steel with up to 75% less CO2 emissions compared to the traditional, integrated steelmaking process.

United States Steel Corporation
Note: BR2, formerly referred to as Mini Mill #2.
Advancing towards our Best for All future

Capturing strategic market growth

~$450M
Capital Spending

~200k
Tons of Finishing Capability

~$140M
Run-rate EBITDA by ‘26

Meeting the growing electric vehicle demand
Non-grain oriented (NGO) electrical steel grades needed to transform electrical power into useable energy

Investing where we have unique differentiation
Strategically located near a growing customer base

Higher through-cycle margin product mix
400 basis point improvement expected in through-cycle EBITDA margins¹

NGO STEEL
BEST-IN-CLASS FINISHING CAPABILITY

¹ 400 basis point expansion based on previous through-cycle EBITDA margin expectations for Big River Steel of mid to high teens.
Advancing towards our Best for All future
Capturing strategic market growth

~$280M Capital Spending
~325k Tons of Finishing Capability
~$60M Run-rate EBITDA by ‘26

Expanding our presence in value-add construction
Galvalume steel for exposed building panels and other high-end applications

Improving our product mix in strategic markets
Hot-dipped galvanizing steel for appliance and construction

By output mix:
- Galvalume (75%)
- Galvanize (25%)

Dual coating line

United States Steel Corporation
Advancing towards our Best for All future
Growing competitive advantages

Strategic investment timeline:

- **2021**
  - **Gary pig** (1H '22 – 1H '23)
- **2022**
  - **Granite City pig** (1H '23 – 2H '24)
  - **DR-grade pellets** (2H '22 – '24)
- **2023**
  - **BR2** (1H '22 – '24)
- **2024**
  - **BRS NGO line** (3Q '21 – 3Q '23)
  - **BRS coating line** (4Q '21 – 2Q '24)
- **2025+**

Low-cost iron ore

Mini mill steelmaking

Best-in-class finishing capabilities

United States Steel Corporation

Note: The investment in DR-grade pellets and expected timeline are subject to state and local support and receipt of regulatory permitting. Pig iron at Granite City Works is subject to reaching a definitive agreement with SunCoke and other contingencies and approvals. See "Legal Disclaimers" slide.

Commercial: The favorable impact is primarily the result of higher average realized prices, partially offset by continued low-priced imports.

Raw Materials: The unfavorable impact is primarily the result of higher metallics costs.

Operating Costs: The change is not material.

Other: The unfavorable impact is primarily the result of increased variable compensation.

Note: For reconciliation of non-GAAP amounts see Appendix.
Second quarter 2022 update

Utilization rate impacted by planned outages

~89%

Adjusted Raw Steel Utilization

Adjusted for Gary Works #8 blast furnace planned outage and indefinitely idled Granite City ‘A’ blast furnace capacity

NA Flat-Rolled segment

---

1. Unless otherwise noted, amounts shown are reflected in Big River Steel LLC, the operating unit of the Big River Steel companies that reside within the Mini Mill segment.
2. Earnings before interest and income taxes.
3. The debt amounts reflect aggregate principal amounts. The fair value step up represents the excess of fair value over book value when Big River Steel was purchased. The fair value step-up is recorded in Big River Steel Holdings LLC. The fair value step up is shown as it is related to the debt amounts in Big River Steel LLC. ⁴ Excludes capital expenditures for BRZ.

</table>

1 The year ended December 31, 2021 consists of a gain of $111 million on the previously held investment in Big River Steel, a gain of $15 million for the sale of property, partially offset by a loss of $8 million on the sale of a subsidiary of USSE.

2 The year ended December 31, 2021 includes the amortization of the step-up to fair value for acquired inventory ($24 million), acquisition-related costs ($9 million), and a net loss of $2 million related to unrealized mark-to-market movement from acquired derivatives.

3 Tax effect of the adjustments was applied using a blended tax rate of 25%.

Note: The reported net earnings attributable to U. S. Steel for the three months ended June 30, 2021, September 30, 2021, December 31, 2021, and March 31, 2022 include income tax benefits of $95 million, $25 million, $513 million, and $7 million, respectively, from the reversals of net valuation allowances. The reported net earnings attributable to U. S. Steel for the year ended December 31, 2021 includes an income tax benefit of $633 million from the reversal of net valuation allowance. These items were presented as adjustments to arrive at Adjusted net earnings attributable to U. S. Steel in prior period presentations. The reconciliations for the three months ended June 30, 2021, September 30, 2021, December 31, 2021, and for the year ended December 31, 2021 presented above have been recast to reflect the removal of these adjustments in accordance with Securities and Exchange Commission guidance.
