# VAALCO Energy Announces First Production From Granite Wash Well

HOUSTON, Aug. 15, 2011 /PRNewswire/ -- VAALCO Energy, Inc. ("VAALCO") (NYSE: EGY) today announced first production from its successful exploration well drilled in Hemphill County, Texas in the Granite Wash formation. The Hefley 90-01H well was drilled during June and July 2011 with fracturing operations completed earlier this month. Initial production rates during the flowback period were 11 MMcfd and 175 barrels of condensate per day.

Robert Gerry, Chairman and CEO, commented, "We are excited to report the success of our first well drilled in our recently acquired shale play portfolio. Initial production rates are in-line with our expectations and we have staked out a site for the second well to be drilled on the lease. In addition, VAALCO is developing plans for drilling additional wells on the Granite Wash formation properties in Texas as well as the Bakken formation properties in Montana."

## About VAALCO

VAALCO Energy, Inc. is a Houston based independent energy company principally engaged in the acquisition, exploration, development and production of crude oil. VAALCO's strategy is to increase reserves and production through the exploration and exploitation of oil and natural gas properties with high emphasis on international opportunities. The company's properties and exploration acreage are located primarily in Gabon and Angola, West Africa and the United States.

## Forward Looking Statements

This document includes "forward-looking statements" as defined by the U.S. securities laws. Forward-looking statements are those concerning VAALCO's plans, expectations, and objectives for future drilling, compliance with applicable laws, future labor issues, completion and other operations and activities. All statements included in this document that address activities, events or developments that VAALCO expects, believes or anticipates will or may occur in the future are forward-looking statements. These statements include future production rates, reserve opportunities, drilling, completion and production timetables and costs to complete wells. These statements are based on assumptions made by VAALCO based on its experience perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate in the circumstances. Such

statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond VAALCO's control. These risks include, but are not limited to, volatility of oil and natural gas prices, future production costs, future production quantities, the uncertainty of estimates of oil and natural gas reserves, the ability to replace reserves, inflation, lack of availability of drilling and other equipment, availability of services and capital, environmental risks, drilling and production risks, general economic risks, the ability to attract a new partner in Angola, actions of VAALCO's working interest partners and government authorities, foreign operational risks and regulatory compliance and changes. Investors are cautioned that forward-looking statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements. These risks are further described in VAALCO's annual report on Form 10-K for the year ended December 31, 2010, quarterly report on Form 10-Q for the period ended June 30, 2011 and other reports filed with the SEC which can be reviewed at <http://www.sec.gov>, or which can be received by contacting VAALCO at 4600 Post Oak Place, Suite 309, Houston, Texas 77027, (713) 623-0801.
