# **VAALCO Announces Publication of 2021 Environmental, Social and Governance Report**

HOUSTON, June 09, 2022 (GLOBE NEWSWIRE) -- VAALCO Energy, Inc. (NYSE: EGY; LSE: EGY) ("VAALCO" or the "Company") today announced that it has issued its 2021 Environmental, Social and Governance ("ESG") report, which is now available on VAALCO's web site, [www.vaalco.com](http://www.vaalco.com), under the "Sustainability" tab.

The report covers VAALCO's ESG initiatives and related key performance indicators for the three-year period 2019 through 2021. In the preparation of the qualitative and quantitative information and data, the Company continued to consult the Sustainability Accounting Standards Board's ("SASB") Oil and Gas Exploration and Production Sustainability Accounting Standard, and this year took a more meaningful dive into the recommendations of the Task Force on Climate-related Financial Disclosures ("TCFD").

Commenting on its release, Chief Executive Officer George Maxwell said, "We continue to place great emphasis on capturing, monitoring, analyzing and ultimately presenting our ESG performance with our stakeholders. I am pleased to present VAALCO's 2021 Annual ESG Report.

"In what has been a busy year for the team, the continued progress that we are making across all aspects of our operating and social performance is very positive.

"Importantly, as we grow and in step with our commitment to defining a clear emissions reduction strategy, we continue to acquire new competencies into our team. The appointment of an ESG Process Engineer, who has extensive oil and gas experience, will enable the Company to take a very pragmatic look at our operating base to design a suitable decarbonization pathway. I look forward to providing further updates in due course."

## **About VAALCO**

VAALCO, founded in 1985, is a Houston, USA based, independent energy company with production, development and exploration assets in the West African region.

The Company is an established operator within the region, holding a 63.6% participating interest in the Etame Marin block, located offshore Gabon, which to date has produced over 126 million barrels of crude oil and of which the Company is the operator.

## **Forward Looking Statements**

This document includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this document that address activities, events, plans, expectations, objectives or developments that VAALCO expects, believes or anticipates will or may occur in the future are forward-looking statements. These statements may include statements related to the impact of the COVID-19 pandemic, including the sharp decline in the global demand for and resulting global oversupply of crude oil and the resulting steep decline in oil prices, production quotas imposed by Gabon, disruptions in global supply chains, quarantines of our workforce or workforce reductions and other matters related to the pandemic, well results, wells anticipated to be drilled and placed on production, future levels of drilling and operational activity and associated expectations, the implementation of the Company’s business plans and strategy, prospect evaluations, prospective resources and reserve growth, its activities in Equatorial Guinea, expected sources of and potential difficulties in obtaining future capital funding and future liquidity, its ability to restore production in non-producing wells, our ability to find a replacement for the FPSO or to renew the FPSO charter, future operating losses, future changes in crude oil and natural gas prices, future strategic alternatives, future and pending acquisitions, capital expenditures, future drilling plans, acquisition and interpretation of seismic data and costs thereof, negotiations with governments and third parties, timing of the settlement of Gabon income taxes, and expectations regarding processing facilities, production, sales and financial projections. These statements are based on assumptions made by VAALCO based on its experience and perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate in the circumstances. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond VAALCO’s control. These risks include, but are not limited to, crude oil and natural gas price volatility, the impact of production quotas imposed by Gabon in response to production cuts agreed to as a member of OPEC, inflation, general economic conditions, the outbreak of COVID-19, the Company’s success in discovering, developing and producing reserves, production and sales differences due to timing of liftings, decisions by future lenders, the risks associated with liquidity, lack of availability of goods, services and capital, environmental risks, drilling risks, foreign regulatory and operational risks, and regulatory changes.

Investors are cautioned that forward-looking statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements. VAALCO disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

## **Inside Information**

This announcement contains inside information as defined in Regulation (EU) No. 596/2014 on market abuse (“MAR”) and is made in accordance with the Company’s obligations under

article 17 of MAR.
